

registration_student_program_entry_date

Table of Contents

To enroll a student in bilingual/ESL, type the date the student entered the program in the MMDDYYYY format.

- If there are existing entry/withdrawal records for the student, the entry date for the new record must be after the last exit date.
- The student can have only one active record (i.e., a record without an exit date).
- The entry/exit dates for different records cannot overlap.
