

place_sections_preplaced

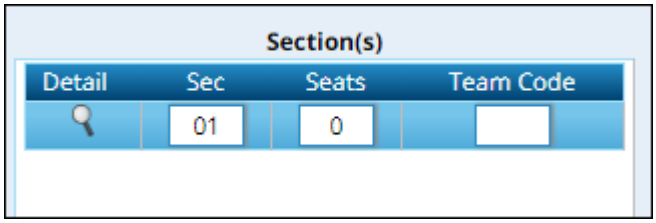

Table of Contents

❑ Select the course to be placed:

Course to be Placed	Type or click ⋮ to select the first pre-placed course to be placed.
View Chart	Click to view the placement charts, which will help you determine the periods in which to place sections. Review, save, or print the report.

❑ Under **Sections**:

Sec	Type the number of sections for the course.
Seats	Type the number of seats available for the section.
Team Code	(Optional) Type the one-character team code for the section. When MSALGO determines which sections meet all of a student's restriction criteria, if there is a team code in the section record, it will check the student demographic team code for a match.

Section placement:

MSALGO uses the following rules for the order of placement:

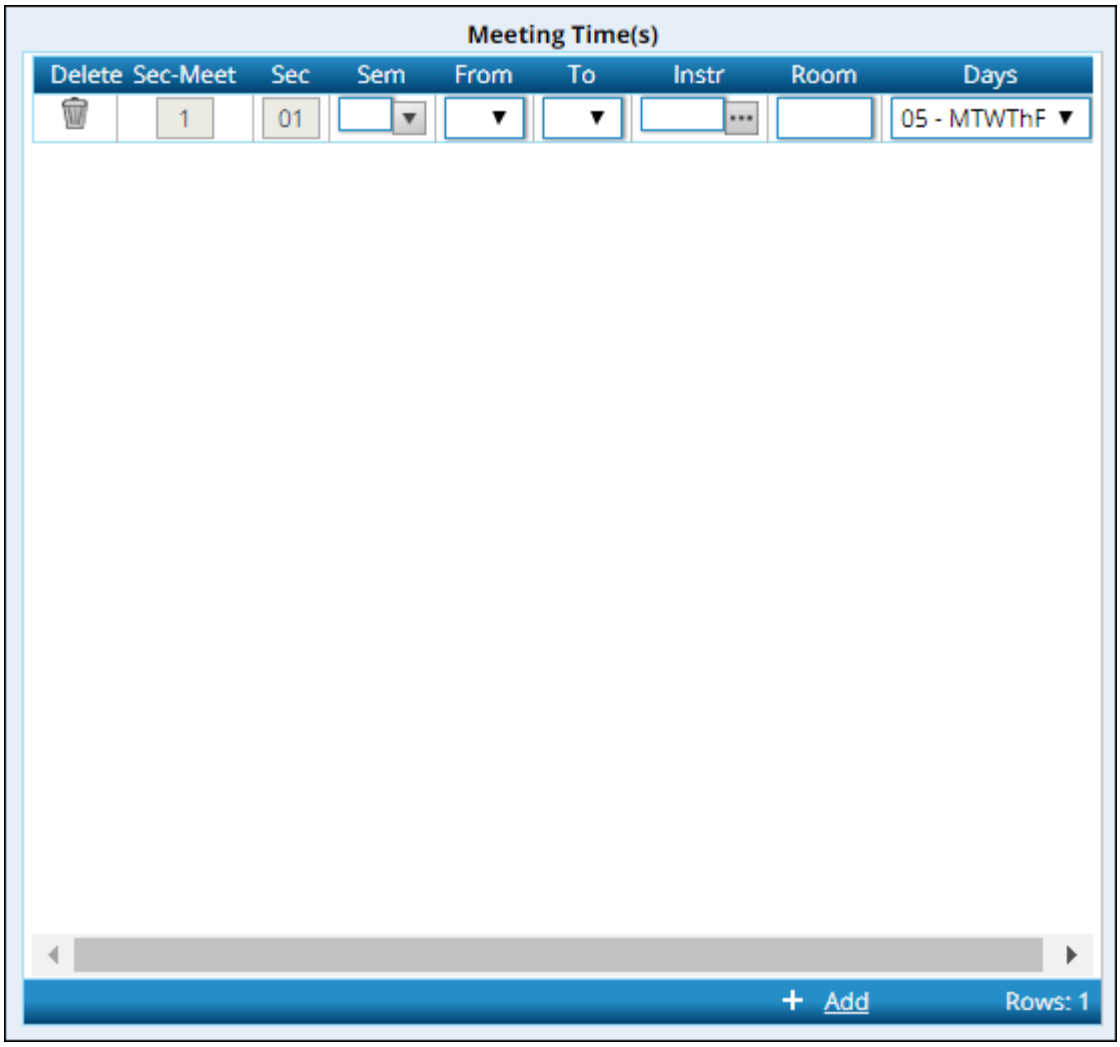

Singletons (i.e., courses that are only offered once) are placed first. Within the singletons, the sections are placed sequentially from highest to lowest number of total potential conflicts.

Example: Courses 1004 and 2003 are both singletons. Course 1004 shows 223 conflicts, while course 2003 shows 145 conflicts. MSALGO selects course 1004 to be placed before course 2003.

Once all of the singletons are placed, MSALGO moves on to the doubletons, and so on.

This process continues until all sections have been placed on the master schedule.

❑ Under **Meeting Times**:

The meeting times for the selected section are listed. A course-section must have at least one meeting time and can have up to four meeting times.

❑ Click **+Add** to add a meeting time. A row is added to the grid.

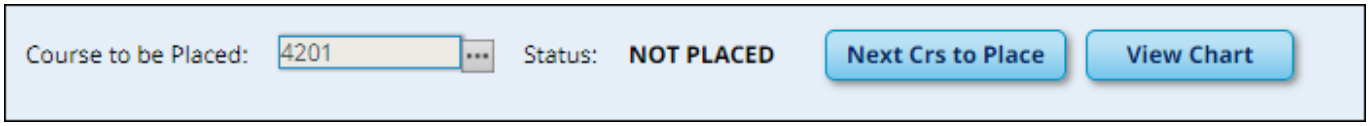

Sec-Meet	A sequential number is displayed for each meeting time you add.
Sem	Select the code indicating the semester(s) the class meets.
Frm **To**	Select the beginning and ending periods when the class begins and ends.
Instr	Click ⋮ to select an instructor.
Room	Type the room number in which the class meets, up to four characters.
Days	Select the code indicating the day(s) the class meets.

	Delete a meeting time. 1. Click to delete a row. The row is shaded red to indicate that it will be deleted when the record is saved. You can select multiple rows to be deleted at the same time. 2. Click **Save**. You are prompted to confirm that you want to delete the row. Click **Yes** to continue. Otherwise, click **No**. You can save edits and delete records in the same step (i.e., the changes are all committed when the record is saved). Meeting time 1 cannot be deleted. At least one meeting time is required for each section.

❑ Click **Save**.

This updates the **Courses to be Placed** ellipsis lookup with information about any sections that are now placed. It also automatically retrieves the next course to be placed, as determined by MSALGO.

You can save data at any time.

Next Crs to Place	Click to retrieve the next course to the **Course to be Placed** field, which will be the first course not completely placed that has the highest priority for placement, as determined by MSALGO. A section is considered placed if meeting time 1 has a semester code, beginning period, and ending period. The information must be saved. All sections of a course must be placed for MSALGO to consider the course completely placed. The next course to place is not accurate unless all meeting time information entered is saved. **KEEP IN MIND:** You can override the suggested courses at any time. However, it is to your advantage to follow the MSALGO logic as closely as possible.
