| **Recalc Conflicts** | Select if you want to recompute the course conflicts (i.e., the number of student course requests that conflict with each other) to determine the best period to place a course-section.<br><br>The field must be selected when course requests have changed so that courses are scheduled in the correct order.<br><br>• If the conflicts have not been built, the program builds the conflicts whether or not this field is selected.<br><br>• If there are records in the conflict table, the program does not rebuild the conflicts unless this field is selected. |

❑ Click **Create Schedule**.

The Master Schedule Generator begins building the course sections.

The program first checks for any invalid courses. If invalid courses exist on Maintenance > Master Schedule Generator > Resource Allocator > Section Info, a message is displayed, and the schedule is not created. The data in Resource Allocator must be corrected before proceeding.

1. Click **OK**. The **Show Error** button is displayed if errors occurred.
2. Click **Show Error** to view the error listing. Review, save, or print the report.

When the generator finishes, click **View Mstr Sched List** to view the Master Schedule Generator Priority Listing, which prints the options used to generate the schedule, the courses in order of generation, and the information about the course sections.

- Review, save, or print the report.

  **Review the report using the following buttons**:

  Click First to go to the first page of the report.
  Click ◀ to go back one page.
  Click ▶ to go forward one page.
  Click Last to go to the last page of the report.

  **The report can be viewed and saved in various file formats**.

  Click to save and print the report in PDF format.
  Click to save and print the report in CSV format. (This option is not available for all reports.) When a report is exported to the CSV format, the report headers may not be included.
  Click to close the report window. Some reports may have a **Close Report**, **Exit**, or **Cancel** button instead.

❑ Click **Save**.

The file is saved to the specified location. The archive password dialog box is displayed.

1. ❑ In the first field, type a password for the zipped file using only alphanumeric characters.
2. ❑ In the second field, retype the password.
