

Select Immunization

Table of Contents

Select Immunization 1

Select Immunization

The immunizations lookup displays the system codes from Maintenance > Tables > Immunization Type sorted by code.

Select an instructor:

1. To search for an immunization, begin typing the code or description in the **Search** field. The list is automatically filtered to display the immunizations with codes or descriptions that *contain* the characters you have typed.
2. When you locate the immunization you want to retrieve, click the code. The lookup closes, and the parameter is populated with the code.

Click **Cancel** to close the lookup without selecting an immunization.
