## Street Directory Search

This directory is used to search for a street segment and retrieve the segment to the page from which you accessed the directory.

### Search for a street segment:

Enter data in one or more of the following fields.

<b>Direction</b>	If applicable, type the compass direction associated with a street name, up to two characters (e.g., S, SW, NE).
<b>Street Name</b>	(Required) Type the street name, up to 19 characters. As you begin typing, the a drop-down list displays streets that begin with the characters you have typed. From the drop-down list you can select the street.  Only the following characters are allowed: alpha, numeric, space, hyphen, period, #, /, and apostrophe.
<b>From/To</b>	Type the lowest and highest street numbers in the street segment, up to five digits each.  These fields are disabled if <b>Selection Begins With</b> is selected.
<b>E/O/B</b>	Indicate whether the segment includes only the odd-numbered side of the street (O), only the even-numbered side of the street (E), or both (B).

Click **Retrieve**.

The street segments that meet the criteria entered are displayed.

Click the street name for the segment you want to retrieve.

The directory closes, and the street segment information is displayed on the page from which you accessed the directory.

Click **Cancel** to return to the previous page without selecting a street segment.
