Add/Delete Courses

Grade Reporting > Maintenance > Student > Group Maint > Add/Delete Courses

This tab allows you to add, delete, or withdraw a course-section for a group of students. The tab is disabled for prior school years.

[About gender restrictions](#)

Gender restriction is set at the [Section](#) and [District](#) master schedule page. The program looks at the [Section](#) tab first. If a gender restriction exists on the [Section](#) tab, it checks if the student meets that restriction.

- If the student does not meet the gender restriction, the course-section cannot be added.
- If there is no gender restriction on the [Section](#) tab, the program looks for a gender restriction on the [District](#) page and validates the student's gender. If the student does not meet the gender restriction, the course-section cannot be added.
- The **Typ Rstrctn** on the [Section](#) tab indicates if you can override the restriction:
 - If *Selectable* is selected - You can override the restriction and enroll a student in the course-section.
 - If *Fixed* is selected - The course-section cannot be added if the student does not meet the restriction.

[About grade restrictions](#)

Grade restrictions are set on the [Section](#) and [Course](#) tabs at the campus level. The program looks at the [Section](#) tab first. If a grade restriction exists on the [Section](#) tab, it checks if the student meets that restriction.

- If the student does not meet the restriction, the course-section cannot be added.
- If there is no grade restriction on the [Section](#) tab, the program looks for a grade restriction on the [Course](#) tab and validates the student's grade level. If the student does not meet the grade restriction, the course-section cannot be added.
- The **Typ Rstrctn** on the [Section](#) tab indicates if you can override the restriction:
 - If *Selectable* is selected - You can override the restriction and enroll a student in the course-section.
 - If *Fixed* is selected - The course-section cannot be added if the student does not meet the restriction.

Update data:

Action	Select the action you want to perform:	
	Add	Select to add a course-section to the schedules of students enrolled in a particular course-section-semester, or to add the same course-section to another semester.
	Delete	<p>Select to delete a course-section from the schedules of all selected students.</p> <p>The Delete option is only used if the student(s) were never in attendance, not even one day. If a student was in attendance, use the Withdraw method instead.</p> <p>If the current course has cycle grades or absences in ASCENDER, or assignment grades in TeacherPortal, a record is created in an audit table that contains the cycle grades, absences, and instructor for the current course as well as the new course, section, semester, user ID, and date-time stamp.</p> <p>If the course does not have a withdrawal date, the date on which the record is deleted is used as the withdrawal date.</p> <p>For any graded assignments and comments, a record is created in separate audit tables containing the same data along with the user ID and date/time stamp.</p> <p>If you attempt to delete a course on or after the last Friday in October (i.e., the PEIMS snapshot date) for the current school year, a warning message prompts you to confirm that you want to continue. Click OK.</p> <p>WARNING: Do not click OK unless you are deleting a mistake that was made when students were originally scheduled. Otherwise, all data will be deleted and will need to be reentered.</p>
