This tab is not used for school years 2013-2014 and later. It is only available for prior school years and cannot be edited.

This tab previously allowed you to select specific STAAR Alternate and/or STAAR Modified test subjects to be excluded from the end-of-course (EOC) 15% calculations. This information is display only.

Excluding a test subject from the EOC 15% calculations did not exclude a student from taking the EOC assessment.
