## Grade Reporting > Reports > Grade Reporting Reports > Student Verification > SGR1600 - Career and Technology Code Verification

This report lists the students enrolled in Career and Technical Education (CTE) courses, equivalent TEA course numbers, and entry and withdrawal dates. An asterisk (\*) is printed in the CTE Crd Amt column for students who are ineligible for CTE contact hours.

You can run the report for either a semester or an as-of date.

- The as-of date prints on the as-of date report, and the report only shows students who have a CTE course for the date entered.
- The semester report uses the last day of the semester to determine the CTE eligibility code and reports all students who took a CTE course during the semester.
