# Control by Period

## Grade Reporting > Utilities > Assign Control Numbers > Cntrl by Period

This utility assigns control numbers by period. For the retrieved students, the control number will be updated to the control number for the teacher of record for the course-section.

### Update data:

Field	Description
<b>Sem</b>	(Required) Select the semester.
<b>Grd Lvl</b>	Select the student's grade level, or select AL to retrieve students in all grade levels. If blank, students in all grade levels are retrieved.
<b>Period</b>	(Required) Select the period in which the students meet.
<b>Select only Students with Blank Cntrl #s</b>	Select to change only blank control numbers.

Click **Retrieve**. A list of students who meet the specified criteria is displayed, including the course-section for each semester and period.

- The **Ctrl #** field displays the student's current control number.
- The **Instr #** field displays the control number to which the student will be updated.
- The list [can be re-sorted](#).

You can re-sort the grid by clicking on an underlined column heading. It will sort in ascending order. Click it again to sort in descending order.

A triangle next to the column heading indicates the column by which the grid is currently sorted and whether it is sorted in ascending  or descending  order.

- If more students are retrieved than can be displayed in the grid at one time, you can [page through the list](#).

Click **Execute**. The control number for all retrieved students is changed.

Click **Save**.

### Other functions and features:

 <b>Delete a student from the list.</b>
1. Click  to delete a row. The row is shaded red to indicate that it will be deleted when the record is saved. You can select multiple rows to be deleted at the same time.
2. Click <b>Save</b> . You are prompted to confirm that you want to delete the row. Click <b>Yes</b> to continue. Otherwise, click <b>No</b> .
You can save edits and delete records in the same step (i.e., the changes are all committed when the record is saved).

**Reset** Clear unsaved changes and start over.
