Cumulative Grade Averaging and Class Ranking

Grade Reporting > Utilities > Cumulative Grd Avg and Class Ranking

This utility uses grade averaging data for multiple years to determine class ranking. The program adds the values of each selected year and divides this by the sum of the courses factors for those years.

Two reports are generated:

- A report of options selected on the page and on the Campus Control Options tabs.
- A listing by the sort order selected. The report is similar to SGR2060 but includes totals.
