# Delete/Rebuild Student Schedules From Table

**Grade Reporting > Utilities > Elem Scheduling > Delete/Rebuild Student Schedules From Table**

This utility deletes and rebuilds elementary student schedules. The following occurs:

- Student schedules are automatically built based on student control numbers and information in the elementary courses table and instructor record.
- All existing student schedules are deleted.
- Students are transferred from one section to another.

**NOTE:** For elementary campuses on or after the last Friday in October (i.e., the PEIMS snapshot date) for the current school year, use [Maintenance > Student > Individual Maintenance > Crs/Sec Change](#) for any schedule changes.

## Update data:

Indicate if you want to delete and rebuild schedules by grade level or student:

Field	Description
<b>Grade Level Selection</b>	To delete/rebuild schedules by grade level, select one or more grade levels. This option is used at the beginning of the school year to build schedules for all students by grade level.  • To select multiple non-consecutive rows, press and hold the CTRL key while selecting the first row and then the subsequent rows.  • To select multiple consecutive rows, click the first grade level and drag to select multiple grade levels. Or, press and hold the SHIFT key while selecting the first row and then the last row. All the rows (between the first and last rows) are selected.
