Grade Posting from TxEIS txGradebook

Grade Reporting > Utilities > Grade Posting From TxEIS txGradebook

This utility posts the working cycle average, citizenship grade, and report card comments from txGradebook, as well as the exam and semester grades when applicable, to the student grade-course record in TxEIS. Students who were not enrolled in the course or campus on the grade reporting cycle end date are excluded.

NOTE:

- Citizenship grades used by most campuses are E, S, N, and U.
- Comments are maintained on [Maintenance > Tables > Grade Reporting Tables > Rpt Card Comments](#) when **Language** is *English*.
- If a student is actively enrolled at the campus and in the course-section for the semester-cycle on the grade reporting cycle end date, the report card comments and citizenship will post to TxEIS even if the cycle grade is blank.

Processes performed by the utility

- Any numeric cycle and exam grades that are higher than the highest grade allowed are converted to the highest grade allowed.
- Any numeric cycle and exam grades that are lower than the lowest grade allowed are converted to the lowest grade allowed. Blank grades are bypassed (i.e., not converted nor posted).

NOTE: Numeric semester grades are not converted based on the highest or lowest grade allowed.

- If an exam grade is X, and the campus does not allow exempt exam grades, the exam grade and the semester average are not posted.
- If the campus allows exempt exams, and if an auto-graded course has a semester grade posted and a blank exam grade, an X (exempt) is posted for exam grades if an exam grade is required.

- Grades from TeacherPortal are converted according to the **Rpt Card Grd Typ** field in the campus master schedule.
- The exam, semester, and cycle grades are posted if the cycle selected is the highest cycle offered for the semester (e.g., cycle 2 for a two-semester nine-week campus), and the exam-semester pattern indicates an exam-semester grade is given this semester.
- If the cycle grade is blank, the utility only posts the exam grade (if applicable) and the semester grade if an override semester grade exists.

For secondary courses (i.e., credit level is not E):

- Grades are converted according to the campus options.
- The utility does not convert a P or F if posted for a course with a numeric report card grade type. A warning message is displayed on the error report.
- If the exam grade is blank from TeacherPortal, the exam grade and semester average are not posted if either **Include Exam in Semester Average** or **Expect Exam Grade** is selected on the Maintenance > Tables > Campus Control Options tabs.
- The semester average is posted if **How will Avg be Computed** is set to *Computer* on [Maintenance > Tables > Campus Control Options > Computation](#).
- If **Allow Semester Override** is selected on [Grade Reporting > Maintenance > TeacherPortal Options > Campus > Options](#), and the override semester grade is not blank, the override semester grade is used.

For elementary courses:

- Grades are converted according to the core course code and the elementary conversion tables.
- The exam grade and semester average are posted if **Incl Exam** and **Comp Sem Avg** are selected on [Maintenance > Tables > Elementary > Elem Grade](#). If **Incl Exam** is not selected, an exam grade is not posted.
- If **Comp Sem Avg** is not selected, the semester average is not posted.
- The override semester grade is only posted if it has a value and if **Allow Semester Override** is selected on [Grade Reporting > Maintenance > TeacherPortal Options > Campus > Options](#).
- If the exam grade is blank for an auto-graded course that require an exam grade, the semester grade is posted.
- If a citizenship grade is blank for a course-cycle posted from TeacherPortal, and **Auto**

Citizenship is selected on [Maintenance > Tables > Campus Control Options > Posting](#), the citizenship grade is posted according to the campus options.

- If the cycle grade is blank for a course-cycle posted from TeacherPortal, the grade from the **Auto Grd** field in the district master schedule is posted.

NOTE:

- Semester grades are never posted with an auto grade.
- Even if all students will receive the auto grade, the course must still be marked as “Ready to Post” in TeacherPortal.
- If the working semester average or override semester average is an I (incomplete) and the campus expects an exam grade, the correct semester average is posted if the campus allows semester grades, even if the exam grade is blank.
- The citizenship from TeacherPortal is not posted if citizenship grade already exists in ASCENDER for the cycle being posted.

Post grades from txGradebook:

The Campus field displays the campus to which you are logged on.

Under Grade Posting for, the Current Semester and Current Cycle fields display the current semester and cycle.

Warning: Ensure that this is the semester and cycle to which grades should be posted from txGradebook.

Select Post Senior (12th grade) students only if you want to run the utility for seniors only.

Select Post Elementary Exam/Sem when `grd lvl` not in `Elem Grd Tbl` if you want to post the elementary exam and semester average for a grade level that is not in the elementary grade table.

If the course credit level is E, the program determines if the student's grade level is in the elementary grade table.

If the grade level is in the elementary grade table, the data will post as elementary and use the `Comp Sem Avg` and `Incl Exam` fields on the [Maintenance > Tables > Elementary](#)

Elem Grade to determine if the elementary exam and semester should be posted.

If the grade level is not in the elementary grade table, the program will post as secondary, which means it will use the `Allow Semester Grade` and `Expect Exam Grade` fields on the [Maintenance > Tables > Campus Control Options > Posting](#) page to determine if the elementary exam and semester should be posted.

Click Execute.

A message is displayed indicating that the posting is successfully completed. The grades are posted to the student grade/course record, and the Grade Ready column is reset from "Ready to Post" to "Posted."

If errors are encountered while posting, the View Error List button is displayed allowing you to view and print a report of the errors encountered.

If students are encountered with blank, failing, or incomplete grades, the View Fail List button is displayed allowing you to view and print a report of those students.

Review, save, or print the report.
