Import From External Gradebook

Grade Reporting > Utilities > Import From External Gradebook

This utility imports and updates records created by third-party grade book software. Before running the utility, the following should be completed:

- Create the import file from the external grade book software. Click here to view the interface.
- Update Maintenance > Tables > Campus Control Options > Ranges & Conversions and Posting. Be sure to select **Allow Credit** on the Posting tab.

NOTE: Any tracks that are imported as one-digit are zero-padded to two digits. For example, a value of 1 will be changed to 01 when importing the attendance record.

IMPORTANT: This utility supports only four-character course numbers. If the import file contains longer course numbers, you can use txGradebook. Contact your regional education service center (ESC) for more information on using an external gradebook software that can accommodate course numbers with more than four characters.

Edits

- Posting data from Maintenance > Tables > Campus Control Options is used to determine which fields to update.
- The edits for the **High Grade Allowed** and **Low Grade Allowed** fields are used. If grades are not in this range, they are not posted.
- Comments are not posted that do not exist in the campus comments table.
- Existing grade are not overwritten with a blank grade.

If the campus has selected **Allow Exempt Exam** on Maintenance > Tables > Campus Control Options > Posting, exams that have X for exempt grades can be imported for all grade levels.
