SGP0200 - Students Lacking Credits for Graduation

Graduation Plan > Reports > SGP0200 - Students Lacking Credits for Graduation

This report allows you to print data for all students lacking credit for one or more subject, as indicated on Maintenance > Student > Individual Maintenance > Credit Summary. The program first evaluates if the student is lacking credit in at least one subject. If the student is lacking credit, the **Subjects to Print** parameter determines if the report will include all subject areas or only subjects in which the student is lacking credit.
