Letter Criteria (Health) 1

Letter Criteria (Health)

Health > Letters > Run Letter > Letter Criteria

This tab allows you to set criteria for printing Health letters for immunizations, referrals, or screenings. Letters are generated for students with record status 1, 2, or 3.

[Notes about immunization letters](#)

[Notes about referral letters](#)

[Notes about screening letters](#)

Update data:

Select the letters to print:

Field	Description
Immunizations	Select the immunizations for which to print letters. To select all immunizations, select the check box for the Immunizations group. NOTE: Immunization doses can be administered four or fewer days before the minimum interval or age.
Referrals	Select the type of referrals for which to print letters. Referral letters are printed for students who failed a screening and have no referral date in their record for the current year. The students' referral date (if blank) is updated with the date on which the letter was printed when you click Update Referrals from the Print Letters tab. An existing referral date is not replaced; a letter is only generated if the referral date is blank. Hearing or vision referrals are generated when Pass/Fail is <i>Fail</i> or <i>Inconclusive</i> . Spinal referrals are generated when Signs/Symptoms is <i>Kyphosis</i> , <i>Scoliosis</i> , or <i>Other</i> . Acanthosis referrals are generated when AN Marker is other than <i>0 - negative</i> . Spinal and acanthosis screening letters are not printed for students who have a religious exemption.
Screenings	Select the type of screening for which to print letters. Letters do not print for students with a religious exemption if the affidavit date is prior to the date on which letters are generated.

2. Under Label Criteria, make the following selections for the labels:

- Select Grade Level to print the student's grade level on the label.
- Select Campus Name to print the campus name and ID on the label.
- Select "To Parent/Guardian of" to print "To the Parent/Guardian of" on the label.

- Select Student ID to print the student ID on the label.

Note: The labels are designed using the Avery 5162 template, which prints 14 labels per page, 1 1/3" x 4" each.

3. Under Run Criteria, make the following selections for the letters:

- In the Letter Template field, click drop-down arrow to select the letter type. Only letter types for the selected letter category are displayed in the drop down.

- In the Address To Print field, click drop-down arrow to indicate if the student's or contact's address should be printed on the letters.

☐ Contact address is from Registration > Maintenance > Student Enrollment > Contact (top priority contact, which is the contact with the lowest priority number (e.g., 1)). ☐ Student mailing address is from Registration > Maintenance > Student Enrollment > Demo1. ● In the Letter Sort Order, click drop-down arrow to select the order in which you would like the letters to print.

☐ Contact Zip Code: contact's zip code, zip + 4, student's last name, student's first name, student's middle initial, grade level, and student ID ☐ Student Zip Code: student's mailing zip code, mailing zip +4, student's last name, student's first name, student's middle initial, grade level, and student ID ☐ Student Name: student's last name, first name, middle initial, grade level, and student ID ● In the As of Date field, type the date in the MMDDYYYY format. Or, click calendar icon to select the date from the calendar. The date is used to determine what is due.

- In the Campus field, click drop-down arrow to select the campus. Leave blank to select all campuses.

- In the Status field, click drop-down arrow to select active or withdrawn students. Leave blank to print letters for all students.

- In the Grade field, click drop-down arrow to select a grade level. Leave blank to print letters for all grade levels.

- In the Student ID field, type a student ID to print the report for one student. Leave blank to select all students. If you do not know the ID, click Student ID to access the directory.

- Select Use Next Year Grade Level to generate immunization letters using the next school year grade level and immunization criteria.

4. Click Run to process the letters. The Print Letters tab is displayed. To return to the Letter Criteria tab, click Return.

Note: For referral letters, the students' referral dates are updated with the date on which the letter was printed.
