## Health > Maintenance > Student Health > Forms

This tab allows you to view the status of a student's health-related and maintain submission dates for hand-delivered forms.

Form information is displayed differently on this tab depending on the form type.

Some forms may only require the parent to acknowledge that he has reviewed the form. Other forms require the parent to input data. Some data input by parents must be approved by campus staff in order for the change to be made to the student's record. These settings are established in txConnect Admin on the Forms Management pages.

- If a parent acknowledges the form via txConnect, you can view the form data and submission date.
- If a parent submits a form change via txConnect, you can view the form data and status.
- If a parent submits a hard copy of a form to the campus staff, you can manually record the date on which the form was delivered.

This tab is not enabled until you retrieve a student.
