## Registration > Maintenance > Core Collections > State Performance Plan 14

This tab is automatically populated with, and allows you to maintain, demographic information and contacts for students at the selected campus who meet the requirements for State Performance Plan Indicator - 14 (SPPI-14) reporting:

- The student was enrolled in grade level 9-12.
- The student was served by special education services in the prior year, as reported in the PEIMS Summer submission.
- The student was reported as a leaver in the PEIMS Fall submission with one of the following leaver codes: 01, 24, 88, 90, 98.

There are two tabs:

- **Demographics** - Automatically populated with basic demographic information. Certain fields can be updated.
- **Contact** - Automatically populated with existing contact records. Contacts can be added or updated as needed.

## Update data:

### IMPORTANT:

When using the **Student** autosuggest field to retrieve a student, any 9-12 grade student enrolled at the campus in the prior year can be retrieved. If you use the **Directory**, only students who meet the SPPI-14 requirements are listed.

**Fatal Business Rule 40203-0023** - To avoid this fatal rule due to No Show students not being included in the SPPI-14 files, find these students using the **Student** autosuggest field. Retrieve the student, then click **Save**. ASCENDER will then bring over the data for the student's contact information and the parent/guardian's contact information.
