Country Codes

Registration > Maintenance > District Profile > Tables > Country Codes

This tab allows the district to maintain a table of country codes.

Update data:

Existing country codes are displayed in order by code.

Click **+Add**. A blank row is displayed in the grid.

Field	Description
Code	Type a two-character code for the country.
Name	Type the name of the country, up to 25 characters.

Click **Save**.

To update a country name, type over the existing name and save.

You can only update the country name; you cannot change a code. You must delete and reenter the code and name.
