Demo1

Registration > Maintenance > Student Enrollment > Demo1

This tab allows you to record the demographic data required to enroll a student at a campus. **Bold fields are required.**

The Demo1 tab is not available until you retrieve a student on the [Student Enrollment](#) page.

- When enrolling a new student, you must save the information on the Demo1 tab before continuing. You are not allowed to proceed to any other tabs until the information is saved.
- When enrolling prior year students from historical, you cannot enter any information on the program tabs (i.e., W/R Enroll, SpecEd, G/T, Bil/ESL, Title I, PRS, and Generic) until the information on the Demo1 tab is saved.
- Once data is saved on the Demo1 tab, it is *not* necessary to click **Save** on each tab. You can make changes on multiple tabs and then click **Save** once.
- Students with record status 4 (*enrolled at another campus, will attend this campus next year*) are not displayed on the Student Enrollment tabs.

To permanently delete a current year student record, including all attendance, grades, and scheduling data, use the [Delete a Current Year Student utility](#).

[Tabbing sequence on this page](#)

When you press TAB to move through the fields on the Demo1 tab, the fields under **Current/Next Year Information** are *not* included in the tab sequence, because many of the fields are updated by running other programs. However, if you click any field under **Current/Next Year Information**, you can press TAB to move through the other fields in this section.

Update data:

When you retrieve a student on the Student Enrollment page, the following occurs:

- If you attempt to retrieve a student from a prior school year who is not enrolled in the current school year, a message is displayed confirming that you are attempting to re-enroll the student in the current year. If you click **Yes**, the student's Demo1 information, W/R Enroll records, and two guardian contacts are retrieved. Enter the student's entry date, grade level, and any special program information for the current year.
- If the student was at risk in the prior year, the **PEIMS At Risk indicators** are retrieved for the current year, but the **At Risk Ind** field is blank on the [At Risk](#) tab. Verify that the **PEIMS At Risk indicators** are still applicable, and select **At Risk Ind** if the student is at risk for the current school year.
- For a new student, if the system is set to assign ID numbers automatically (i.e., **Auto Assign Student ID** is selected on [Maintenance > District Profile > Control Info](#)), delete any data in the **Student ID** and **Student Name** fields, and then click **Retrieve**.
 - A message is displayed indicating that the ID will be assigned when the record is saved. Click **OK**.
 - When the record is saved, the student is assigned the next number, as indicated on the Control Info tab. The number is incremented by one each time a number is assigned.

☐ Under **Demographic Information**:

Grade	<p>Select the student's grade level for the current school year. The grade levels listed are according to values entered in the Low Grade Level and High Grade Level fields on Maintenance > Campus Profile > Campus Information Maintenance > Control Info.</p> <p>If the student has more than one enrollment record for the campus, this field is disabled. The data must be updated on the W/R Enroll tab.</p>
