Forms

Registration > Maintenance > Student Enrollment > Forms

This tab allows you to view the status of a student's registration and maintain submission dates for hand-delivered forms.

In the txConnect parent portal, there are three types of forms a parent/guardian can submit.

Form information is displayed differently on this tab depending on the form type.

- **Static Forms (Hand Delivered by Parent)** - A static form is an electronic version of a paper form (such as a PDF or Word document) that is provided to the parent via txConnect but cannot be submitted online. The parent can print, complete, and hand deliver the form to the campus. If the static form is required by the district or campus, you can manually record the date on which the parent submitted the form.
- **Dynamic Forms** - A dynamic form is a web-based form that the parent can complete and submit online via txConnect. If the parent submitted a change to any editable field in a dynamic form via txConnect, the each field change must be approved/rejected individually on Registration > Maintenance > Online Registration > Pending Updates.
- **Standard Forms** - A standard form is an electronic version of a common form required at districts throughout Texas. Some standard forms may require data entry from the parent, and other standard forms may simply need to be acknowledged. A parent can review, update, and acknowledge the form via txConnect. Or, you can manually record the date on which the parent submitted the form in person.

Some forms may only require the parent to acknowledge that he has reviewed the form. Other forms require the parent to input data. Some data input by parents must be approved by campus staff in order for the change to be made to the student's record. These settings are established in txConnect Admin on the Forms Management pages.

- If a parent acknowledges the form via txConnect, you can view the form data and submission date.
- If a parent submits a form change via txConnect, you can view the form data and status.
- If a parent submits a hard copy of a form to the campus staff, you can manually record the date on which the form was submitted.

The Forms tab is not available until you retrieve a student on the [Student Enrollment](#) page. For a new student, you must enter and save all required data on [Demo1](#) before proceeding to this tab.

Update data:

All current and next year forms are listed.

- Unsubmitted forms are listed first, according to the selected school year.
- External forms are not listed.
- The list [can be re-sorted](#).

You can re-sort the grid by clicking on an underlined column heading. It will sort in ascending order. Click it again to sort in descending order.

A triangle next to the column heading indicates the column by which the grid is currently sorted and whether it is sorted in ascending  or descending  order.
