Graduation

Registration > Maintenance > Student Enrollment > Graduation

This tab allows you to view and update a student's graduation data. The information on the Graduation tab is editable for those students who do not have a graduation plan.

The Graduation tab is not available until you retrieve a student on the [Student Enrollment](#) page.

For a new student, you must enter and save all required data on [Demo1](#) before proceeding to this tab.

For students without a graduation plan, data can be updated for the current or prior school year. Students who are enrolled during the current school year can only be updated for the current school year. Students who were last enrolled in the prior school year can be updated in the prior school year.
