Special Ed

Table of Contents

Special Ed 1

Special Ed

Registration > Maintenance > Student Enrollment > SpecEd

This tab allows you to view and update information for students who participate in a special education program.

The SpecEd tab is not available until you retrieve a student on the Student Enrollment page. For a new student, you must enter and save all required data on Demo1 before proceeding to this tab.

NOTE: When you enroll a student in special education, the **Child Count Funding Code** field on Special Education > Maintenance > Student Sp Ed Data > Current Year > Program Information is automatically set to 3 (i.e., *Individuals With Disabilities Education Act (IDEA) Amendments of 2004*) .

Update data:

The student's existing special ed entry/withdrawal/reentry records are displayed. If the most recent row contains an exit date and withdrawal reason code, you can add a record.

❑ Click **+Add** to add a record.

A blank row is added to the grid.

Campus	Enter the campus ID for which the student is applying.
Entry Date	
Exit Date	

Reason	If you are withdrawing the student from the program, click ⋮ to select the withdrawal reason. If the student is exiting the program, select EP (*exit program*).

+33	1. Click +33 to do a status change. • A row is added to the grid that displays the default entry date, which is the same as the withdrawal date. This ensures that you do not lose any membership days by typing the incorrect entry date for the status change. • The fields display the data from the previous row by default. 2. Modify any information that changed for the entry date. 3. Click **Save** to save the status change.
-33	If you entered a status change in error (e.g., the wrong student or wrong withdrawal or entry date), click -33 to remove the status change for the student. When you save, the exit date and exit reason are cleared, and the new row is removed from the grid. 1. Click +33 in the the second row. This creates a new row (now 3 rows). 2. Click -33 in the second row. This removes the third row. 3. Click -33 in the first row. This will remove the second row leaving one remaining. 4. Make the change and click **Save**.
