W/R Enroll

Registration > Maintenance > Student Enrollment > W/R Enroll

This tab allows you to view and update a student's withdrawal and reentry records at the campus.

The W/R Enroll tab is not available until you retrieve a student on the [Student Enrollment](#) page. For a new student, you must enter and save all required data on [Demo1](#) before proceeding to this tab.

Withdrawing a No Show Student

- Type the same date in the **Exit Date** and **Entry Date** fields.

The date should be the first day of school.

- The **Status Cd** field is set to 6 (*No Show*).
- The **Reason** field is automatically set to withdrawal reason 44 (*No Show*).

- Click **Save**.

You are prompted to indicate if you want to withdraw the student from special programs. Make your selection.

- Click **Save**.

A message is displayed indicating that the student is inactive at this campus.

- Click **OK**.

The **Record Status** field on the Demo1 tab is set to 6 (*No Show*).

NOTE:

- If you withdraw a student from campus with a 44 in the **Reason** field (i.e., *No Show*), his **Record Status** becomes 6 *No Show Student* when you save. If you change the **Reason** code after you save, the student will still have a **Record Status** of 6. You must add a

new record to re-enroll the student on the campus.

- If you change the student's status to No Show, the student is not withdrawn from all course records.

Reentering a No Show Student

The student should have one row on this tab with the same date in the **Exit Date** and **Entry Date** fields. This row cannot be changed or deleted.

- Click **+Add** to add a new row.

A message is displayed asking if you want to reenter the student.
Click **Yes**.

- In the **Entry Date** field, type the date on which the student actually entered school.
- Click **Save**.

You are prompted to indicate if you want to reenter the student in special programs.
Click **Yes**.

NOTE:

- If the reentry date is the same as the No Show entry date, the No Show row is deleted. This situation may occur if the student was entered as a No Show in error.
- If the reentry date is different from the No Show entry date, the No Show row remains, and the student's original entry date is updated to the reentry date. The No Show row is used to produce the leaver record if the student did not enter school before the PEIMS school-start window (SSW).
- When a No Show student is re-enrolled, his course entry dates are updated in Grade Reporting with the new reentry date.

Update data:

The student's existing withdrawal/reentry records are displayed. If the most recent row contains an exit date and withdrawal reason code, you can add a record.

Click **+Add** to add a record.

The fields below the grid are enabled.

Campus	The campus ID to which you logged on is displayed. SchoolId - Element: E0266
Entry Date	To re-enter a student, type the entry date in the MMDDYYYY format. The date should be the first school date on which the student actually attended school. NOTE: Ensure that you are not re-enrolling a student who was not properly withdrawn. A previous withdrawal date and code should exist. If you are re-enrolling the student, do not remove the original withdrawal date from his courses. You must manually re-enter the student's courses with the campus re-entry date. If you are enrolling the student at the campus for the first time, an entry row is added to the grid, and the Entry Date field is the same as the Orig Entry on the Demo1 tab. When you re-enroll a No Show student, Orig Entry on the Demo1 tab is updated to the new Entry Date .
Exit Date	To withdraw a student, type the exit date in the MMDDYYYY format. The date should be the school date following the last day the student was enrolled, and it must be later than the campus entry date and latest reentry date. NOTE: When you withdraw a student from a campus, the student is automatically withdrawn from all course records and special programs. The student's grade-course records on Grade Reporting > Maintenance > Student > Individual Maint > Crs Assign will be listed as withdrawn (when Include All WD Courses is selected on that tab).
	Click to add comments to the student's W/R enrollment record. The W/R Enroll Comment window opens. 1. Add or update comments as needed. 2. Click OK . 3. You must click Save on the Student Enrollment page in order to save the updated data. A red comment icon  indicates that W/R enrollment comments exist for the student. You can view existing comments by hovering with your mouse over the red comments icon in the grid. NOTE: W/R enrollment comments can only be added to a student record prior to transferring the student to another campus. The icon is only displayed for the current year. The following reports have a parameter that allows you to print W/R enrollment comments: Student Status Changes by Program - SRG1100 Student Status Changes by Program - SRG1200
