HRG0300 - At Risk Student Profile Report 1

HRG0300 - At Risk Student Profile Report

Registration > Reports > Historical Cumulative Reports > HRG0300 - At Risk Student Profile Report

This report lists students and their at risk criteria, if any, for multiple school years. One student is printed per page.

The **Not Advanced For One or More School Years** and **EB** indicators are displayed on the report regardless of the at risk year. These indicators do not reside on the at risk record; they are calculated separately.

Run the report:

Parameter	Description
From School Year (YYYY)	Type the beginning year for the range of school years.
To School Year (YYYY)	Type the ending year for the range of school years.
Campus ID (Blank for All)	Type the three-digit campus ID, or click ⋮ to select the campus. Leave blank to select all campuses in the district. **NOTE:** If you select to create the report for all campuses, any campuses excluded from district reporting (i.e., campuses that have the **Exclude from District Reporting** field selected on Registration > Maintenance > Campus Profile > Campus Information Maintenance > Control Info) are not included in the report. However, you can generate the report for an individual excluded campus by entering the campus ID.
Student IDs	Type the six-digit student ID number, including all leading zeros. Separate multiple IDs with a comma (e.g., 098321,096476). Or, click ⋮ to select the students.
Print Student SSN (Y, N, M)	Y - Print the entire social security number. N - Print XXX-XX-XXXX for the social security number. M - Print the masked social security number (e.g., XXX-XX-1234).
