Accessing Test Scores data

1. The School Year field displays the year for which you are logged on. Click drop-down arrow to select another school year for which to view data.

2. To filter the report, enter data in one or more of the following fields:

● The Campus ID field displays the campus to which you are logged on. Click drop-down arrow to select another campus for which to view data. Only campuses to which you have access are listed in the drop down.

● In the Grade field, click drop-down arrow to select the grade level for which you want to view data. This field is required.

● In the Student field, select a student.

3. Click Retrieve to generate the report with the selected data.
