# FitnessGram Export

## Registration > Utilities > FitnessGram Export

This utility exports TxEIS data to a .csv text file that can be imported into third-party FitnessGram software. FitnessGram is the fitness assessment tool used by all districts to assess students in grade levels K-12. One record is created for each student currently enrolled in each selected course.

- District and campus data is extracted from district (dr\_demo) and campus (cr\_demo) demographic tables.
- Student data is extracted from the student demographic (sr\_stu\_demo), student enrollment (sr\_stu\_enroll), and parent (sr\_parent) tables.
- Course information is extracted from the district course offered current year (dr\_crs\_offered\_cyr), campus course offered current year (cr\_crs\_offered\_cyr), section offered current year (cr\_sec\_offered\_cyr), and meeting time current year (cr\_met\_cyr) tables.
- Instructor data is extracted from the employee demographic table (bhr\_emp\_demo), which is used by the Human Resources and District Administration applications, and the instructor current year (cr\_instr\_cyr) table.

[Click here](#) to view the interface (PDF format).

### Export data:

| Field                        | Description   |
|------------------------------|---|
| <b>Select Campus</b>         | Select the campus for which to create the export file.  |
| <b>Semester</b>              | Select the semester for which to create the export file. The semesters displayed depend on the type of grade reporting used at the selected campus.<br><br>If two-semester grade reporting is used at the campus, options 1 and 2 are displayed.<br><br>If four-semester grade reporting is used at the campus, options 1, 2, 3, and 4 are displayed. |
| <b>Select Period</b>         | Select the period.  |
| <b>All Courses</b>           | Select to export all courses. Leave blank to export specific courses.<br><br>If selected, the <b>Course Selection</b> field is disabled; you cannot select specific courses.<br><br>If blank, you can select specific courses.  |
| <b>Include Contact Email</b> | Select to include the parent's (i.e., contact's) email address in the extract.  |

If you did not select **All Courses**, click **+Add** to add a course to the list. A blank row is added to the grid.

|                         |  |
|-------------------------|--|
| <b>Course Selection</b> | Type the course number, or click  to <a href="#">select the course</a> . The field is disabled if you selected <b>All Courses</b> . |
|-------------------------|--|

Click **Execute**.

When completed, you are prompted to save the csv file. The number of students processed is also displayed.

### Other functions and features:

|   |  |
|---|--|
|  | Click to delete a course from the list. The row is shaded red and will be deleted when you click <b>Delete Course</b> .  |
| <b>Delete Course</b>  | Click to delete any rows selected for deletion.  |
| <b>Reset Courses</b>  | Click to clear any courses under <b>Course Selection</b> . The grid is cleared.  |
| <b>Preview Errors</b>   | <p><a href="#">Click to view the error list if errors are encountered.</a></p> <p><b>Review the report using the following buttons:</b></p> <p>Click  to go to the first page of the report.<br/> Click  to go back one page.<br/> Click  to go forward one page.<br/> Click  to go to the last page of the report.</p> <p><b>The report can be viewed and saved in various file formats.</b></p> <p>Click  to save and print the report in PDF format.<br/> Click  to save and print the report in CSV format. (This option is not available for all reports.) When a report is exported to the CSV format, the report headers may not be included.<br/> Click  to close the report window. Some reports may have a <b>Close Report, Exit,</b> or <b>Cancel</b> button instead.</p> |
