Scheduling Transfer By File

Registration > Utilities > Transfer > Scheduling Transfer by File

This utility transfers a group of students, by grade level, from one campus to another by creating a file that can be imported using the Scheduling Transfer From File utility.

The sending campus must perform the transfer.

The records of transfer students at the sending campus are set to record status *3* (*currently enrolled at this campus, will attend new campus next year*). The records of transfer students at the receiving campus are set to record status *4* (*enrolled at another campus, will attend this campus next year*). Any student scheduling requests are deleted from the sending campus.

Sending Campus	The ID of the campus to which you are logged on is displayed. Students will be transferred from this campus.
Receiving Campus	Select the campus to which the students are being transferred.
