**Registration > Utilities > Transfer > Student Current Year**

This utility transfers a student from one campus to another campus if a student moves during the school year from one campus to another within the district.

**The sending campus withdraws the student from the campus.  
The receiving campus performs the transfer using this utility.**

- Special program information is transferred to the receiving campus if the special programs are offered at the receiving campus, unless a record without a withdrawal date already exists at the receiving campus.
- If a No Show student enters the receiving campus after the first day of school, the No Show record remains at the sending campus. However, if the student enters the receiving campus *on* the first day of school, the No Show record is deleted automatically from the sending campus.
