# Campus Control

**Scheduling > Maintenance > Master Schedule > Campus > Campus Control**

This tab allows you to set up scheduling options for a campus. The campus control options must be set before you can access the campus master schedule. The Master Schedule > Campus tabs are disabled until these settings are saved.

## Set options:

A warning message is displayed if campus control options have not been set. Click **OK**.

Field	Description
<b>Max Sems Allowed</b>	Select the number of semesters to be scheduled at the campus for the next school year.
<b>Low Grade</b>	Select the lowest grade level at the campus.
<b>High Grade</b>	Select the highest grade.
<b>Schedule Withdrawn Students</b>	Select if students who withdraw from the campus in the current school year should be scheduled for next year.
<b>Period Begin</b>	Type the first class period that can be scheduled using two digits.
<b>Period End</b>	Type the last class period that can be scheduled using two digits.
<b>Norm Prd Cntrl</b>	The normal period control for the campus is displayed, which is usually equal to number of periods in the school day multiplied by the number of semesters. For example, at a two-semester campus that has 8 periods per day, the normal period control is 16. This number is used to flag students whose course requests vary from what is expected.

Field	Description		
<b>Scheduling Sequence</b>	Indicate the order in which grade levels should be scheduled:  <input type="checkbox"/> Click <b>+Add</b> to add a grade level to the scheduling sequence. A row is displayed in the <b>Scheduling Sequence</b> grid.		
	<table border="1"> <tr> <td data-bbox="384 351 504 427"><b>Priority</b></td> <td data-bbox="504 351 1476 427">The order in which the grade levels are scheduled is displayed in order from highest (i.e., 1) to lowest priority.</td> </tr> </table>	<b>Priority</b>	The order in which the grade levels are scheduled is displayed in order from highest (i.e., 1) to lowest priority.
	<b>Priority</b>	The order in which the grade levels are scheduled is displayed in order from highest (i.e., 1) to lowest priority.	
	<table border="1"> <tr> <td data-bbox="384 434 504 638"><b>Grade</b></td> <td data-bbox="504 434 1476 638">                     Select the grade level that should be scheduled according to the corresponding <b>Priority</b> field. For example, if you want to schedule 12th grade students first, the <b>Priority</b> field should be set to 1, and the <b>Grade</b> field should be set to 12.                       All grade levels must be listed.                 </td> </tr> </table>	<b>Grade</b>	Select the grade level that should be scheduled according to the corresponding <b>Priority</b> field. For example, if you want to schedule 12th grade students first, the <b>Priority</b> field should be set to 1, and the <b>Grade</b> field should be set to 12.  All grade levels must be listed.
