Options (Trial Scheduling Load)

Scheduling > Maintenance > Master Schedule Generator > Trial Scheduling Load > Options

This tab allows you to set options for scheduling students in a trial scheduling load.

Before the scheduling load is run, the following must be completed:

- Create next year campus courses and sections.
- Ensure students have next year course requests.
- Set the **Maximum Scheduling Semesters Allowed** field on Maintenance > Master Schedule > District > District Control
- Set the following fields on Maintenance > Master Schedule > Campus > Campus Control:
    - **Max Sems Allowed**
    - **Low Grade** and **High Grade**
    - **Period Begin** and **Period End**
    - **Norm Prd Cntrl**
    - **Schedule Withdrawn Students** - Select to include withdrawn students in the trial run.
    - **Scheduling Sequence** - Only grade levels with a priority are included in the scheduling load.
