Unmatched Proxy Sec (Trial Scheduling Load)

Scheduling > Maintenance > Master Schedule Generator > Trial Scheduling Load > Unmatched Proxy Sec

This tab allows you to produce the Unmatched Sections of Match Proxy Courses report for the trial scheduling load which lists the match proxies where the section numbers do not match, the courses in the proxy, and the unmatched sections for each course. The report also indicates if any sections have an invalid semester, begin period, or end period.

A valid match proxy must have the following:

- Same section
- Same begin and end periods
- Different semester
- Courses that are only included in one match proxy

The report is generated after a trial run. For the scheduling load function, print the report before accepting the load.
