Utilities (MSALGO) 1

Utilities (MSALGO)

Scheduling > Maintenance > MSALGO > Process > Utilities

This tab allows you to perform various MSALGO processes.

Run a utility:

Under **Processes**:

Move MSALGO Sections to TxEIS

This option moves MSALGO section data to ASCENDER. This creates section records and meeting time records in the ASCENDER tables. Only course-sections that have been placed in meeting times are moved to the ASCENDER tables.

The following will occur:

- All ASCENDER sections and meeting times are updated with data from matching course-sections in MSALGO (where both course number and section number match).
- Course-sections in MSALGO that do not have matching records in ASCENDER are added to the ASCENDER tables.
- ASCENDER course-sections and meeting times that do not have matching records in MSALGO remain unchanged in ASCENDER.

The **Password** and **Verify Password** fields are displayed.

Password	Type a password for the file. To restore this file using the Restore MSALGO Tables utility, the user must type this password.
Verify Password	Retype the password to confirm that you typed it as intended.

Click **Run Process**.

You are prompted to verify that you want to move MSALGO sections and meeting times to ASCENDER:

- Click **Yes** to overlay ASCENDER records with MSALGO records. All ASCENDER sections and meeting times are replaced with MSALGO course sections and meeting times.
- Click **No** to merge ASCENDER records with MSALGO records.

You are prompted to open or save the zipped file. Save the file in a known location.

A message is displayed indicating that the move to ASCENDER was successful.

Clear All MSALGO Tables

This option clears MSALGO tables. This process can be used if you are going to re-export to MSALGO.

Click **Run Process**.

When the process is complete, a message is displayed indicating that the process was successful.

<p>Clear all Placed Courses</p>	<p>This option clears placed courses. This process clears all courses, meeting times, and sections.</p> <p><input type="checkbox"/> Click Run Process.</p> <p><input type="checkbox"/> You are prompted to verify that you want to clear all placed courses. Click Yes to continue.</p> <p>When the process is complete, a message is displayed indicating that the utility was run successfully.</p>				
<p>Backup MSALGO Tables</p>	<p>This option backs up MSALGO tables. This process creates a zipped file.</p> <p>The Password and Verify Password fields are displayed.</p> <table border="1" data-bbox="357 595 1473 748"> <tr> <td data-bbox="357 595 603 707">Password</td> <td data-bbox="608 595 1473 707">Type a password for the file. To restore this file using the Restore MSALGO Tables utility, the user must type this password.</td> </tr> <tr> <td data-bbox="357 714 603 748">Verify Password</td> <td data-bbox="608 714 1473 748">Retype the password to confirm that you typed it as intended.</td> </tr> </table> <p><input type="checkbox"/> Click Run Process.</p> <p><input type="checkbox"/> You are prompted to open or save the zipped file.
