Delete Next Year District Courses

Scheduling > Utilities > Delete NY Master Schedule > District

The utility deletes next year district courses (i.e., the district master schedule). The next year master schedule information is deleted before the new next year master schedule is created from the current year master schedule.

Use extreme caution when using this utility. Deleting district courses affects all campuses. To delete next year district courses, you must have access rights to all campuses in the district.

Note: The next year requests/schedules, instructors, campus courses, and campus sections must be deleted from every campus in the district before the next year district courses can be deleted.
