# Enabling Objectives

***Special Education > Maintenance > District > IEP Goals Objectives > Enabling Objectives***

This tab allows the district-level employee to create a list of Enabling Objectives.

Every student enrolled in special education must have an Individualized Education Program (IEP) that describes the student's educational goals and objectives. An Enabling Objective is a measurable step designed to assist the student in achieving a Performing Objective. Each Performing Objective is associated with a series of Enabling Objectives.

Once Enabling Objectives are created by the district, the campus-level staff can include any of these objectives in a student's IEP.
