Performing Objectives 1

Performing Objectives

Special Education > Maintenance > District > IEP Goals Objectives > Performing Objectives

Every student enrolled in special education must have an Individualized Education Program (IEP) that describes the student's educational goals and objectives. This tab allows the district to create a list of performing objectives. Then campus staff can include any of these objectives in a student's IEP.

A performing objective is an intermediate objective that the student is expected to achieve in order to accomplish the [IEP goal](#). Each goal is associated with a series of performing objectives, and each performing objective is associated with a series of enabling objectives.
