Performing Objectives

Special Education > Maintenance > District > IEP Goals Objectives > Performing Objectives

This tab allows the district to create a list of performing objectives.

Every student enrolled in special education must have an Individualized Education Program (IEP) that describes the student's educational goals and objectives.

A Performing Objective is an intermediate objective that the student is expected to achieve in order to accomplish the [IEP goal](#). Each goal is associated with a series of Performing Objectives, and each Performing Objective is associated with a series of [Enabling Objectives](#).

Once Performing Objectives are created by the district, the campus staff can include any of these objectives in a student's IEP.

Update data:

Field	Description
Goal	Select the goal for which you want to view associated performing objectives. These goals are established on the IEP Goals tab.

Existing Performing Objectives associated with the selected goal are displayed.

Click **+Add** to add a Performing Objective. A pop-up window opens.

Performing Objective	Type a two-character ID for the objective.
Description	Type the description for the objective, up to 50 characters.

Click **OK** to close the window.

Click **Save**.
