Performing Objectives

Special Education > Maintenance > District > IEP Goals Objectives > Performing Objectives

This tab allows the district to create a list of performing objectives.

Every student enrolled in special education must have an Individualized Education Program (IEP) that describes the student's educational goals and objectives.

A Performing Objective is an intermediate objective that the student is expected to achieve in order to accomplish the [IEP goal](#). Each goal is associated with a series of Performing Objectives, and each Performing Objective is associated with a series of [Enabling Objectives](#).

Once Performing Objectives are created by the district, the campus staff can include any of these objectives in a student's IEP.
