SEM0640 - TEA IDEA-B P.L. 105-17 Report

Special Education > Reports > Special Ed > Program > SEM0640 - TEA IDEA-B P.L. 105-17 Report

This report lists students who are receiving special education services through Public Law 105-17. Students must be between 3 and 21 years of age as of September 1st of the reporting year. The program prints the Superintendent Certification letter and allows you to save the data to a file for TEA submission. The program also prints an Exception Listing and a Verification Listing.

Notes:

■ Annual reviews are due in one year. Full and Individual Initial Evaluations (FIEs) are due in three years.

■ The TEA report date is the last Friday in October of the current school year.

■ The program uses an as-of date that is one year less than the TEA report date to determine annual reviews due. It compares the IEP services-initiated date with the annual review date and prints a Y in the DUE column if the greater of the two dates is less than or equal to the as-of date.

■ The program uses an as-of date that is three years less than the TEA report date to determine FIE report dates. It prints a Y in the DUE column if the FIE report date is less than or equal to the as-of date.

■ If the Ignore FIE Rep Date and IEP Dates option is set to Y, the report prints all students regardless of the IEP services-initiated, annual review, and FIE report dates. Students with an assessment due will not print on the Exception Listing.

If set to N, the report prints data for only students who have a current FIE report date and a current IEP services-initiated or annual review date (the greater of the two) in their records. Students with an assessment due will print on the Exception Listing. The following are excluded from the report:

● Students 22 years of age on or before September 1 of the current school year

● Students under three years old or students three years old with birthdays after September 1 of the current school year

● Students who enrolled after September 1 of the current school year

■ The IDEA-B RDSPD field on the Superintendent Certification letter displays a count of the students who are enrolled in the regional day school program for the deaf and do not have instructional setting codes of 30, 50, 60, 70, or 71.

Campuses that have been excluded from district reporting are not included.

Run the report:

Parameter	Description
Ending School Year (YYYY)	Type the four-digit **ending** school year.
Report Date as Specified by TEA (MMDDYYYY)	Type the date, or click to select the date from a calendar.
Ignore FIE Rep Date and IEP Dates (Y, N)	Y - Ignore the Full and Individual Initial Evaluation (FIE) report date and Individualized Education Program (IEP) dates. If Y, all students are printed regardless of the IEP services-initiated, annual review, and FIE report dates. Students with an assessment due are not printed on the Exception Listing. N - Use the FIE report date and IEP dates. If N, data is only printed for students who have a current FIE report date and a current IEP services-initiated or annual review date (the greater of the two) in their records. Students with an assessment due are printed on the Exception Listing. The following are excluded from the report: • Students 22 years of age on or before September 1 of the current school year • Students under 3 years old, or students 3 years old with a birthday after September 1 of the current school year • Students who enrolled after September 1 of the current school year
Print Student SSN (Y, N)	
Report	Select one: **TEA IDEA-B P.L. 105-17 Report** - Print only the TEA IDEA-B P.L. 105-17 report. **Summary of Age by PD** - Print only a summary of age report by primary disability. **Summary of PD by Ethnicity** - Print only a summary report of primary disability by ethnicity. **Report Certification** - Print only the report certification. **Exception Listing** - Print only the exception listing. **Verification Listing** - Print only the verification listing.
