The State-Developed Alternative Assessment (SDAA) II page allows you to view and update a student's SDAA II test data. Alternatively, you can use the Import Test Scores utility to import SDAA II test data.

SDAA II is a Texas Assessment of Knowledge and Skills (TAKS)-aligned assessment program that measures the academic progress of students in grade levels 3-10 who receive special education services and for whom the TAKS test is not an appropriate measure of academic progress, even with allowable accommodations. Like TAKS, SDAA II measures the degree to which students understand the Texas Essential Knowledge and Skills (TEKS) curriculum.

SDAA II includes the instructional levels of kindergarten through 10th grade and measures the TEKS curriculum.

- Students in grade levels 3-10 are assessed in reading/ELA and math at their appropriate instructional levels.
- Students in grade levels 4, 7, and 10 are assessed in writing and reading/ELA at their appropriate instructional levels.
