# StudentPortal: Set Up and Use StudentPortal

Welcome ASCENDER StudentPortal!

StudentPortal is a web-based system for students that provides the tools that will help you view your attendance, grades, and assignments, as well as organize and plan your schedule of classes. StudentPortal includes two applications, Student Course Requests and Student Graduation Plan.

**Student Course Requests** allows you to request courses for the next school year, including alternate courses. Once you submit your course requests, you cannot go back to change them. If you need to make changes, you will need to visit with your counselor.

**Student Graduation Plan** allows you to view and change your graduation plan, and view and print the summary and detail of your course credits. Graduation plans are for high school-level students only. Any coursework completed prior to the 9th grade will be reflected in the remaining credits needed, which can be viewed through the Credit Summary and Credit Detail pages of the StudentPortal Student Graduation Plan application.

## Admin Setup

The following information will assist you in implementing ASCENDER StudentPortal at your campus.

### I. Enable/Disable Access

[Enable/disable Graduation Plan in StudentPortal.](#)

***Graduation Plan > Maintenance > StudentPortal > Campus Options***

This page allows you to enable or disable access to Graduation Plan in ASCENDER StudentPortal for campuses that use Graduation Plan.

**CAMPUS**

Use Graduation Plan:

<b>Use Graduation Plan</b>	Enable or disable access to StudentPortal:  <i>Closed</i> - Disable graduation plan data in StudentPortal. Students will not see the option.  <i>Open</i> - Enable graduation plan data in StudentPortal. Students will be able to update their graduation plan.  <i>Read Only</i> - Allow students and parents to view graduation plans in StudentPortal but not make changes.
----------------------------	---

Click **Save**.

Enable/disable access to Student Course Requests in StudentPortal.

***Scheduling > Maintenance > Master Schedule > Campus > Campus Control***

This page allows you to grant or deny access by grade level to the Student Course Requests system.

**NOTE:** In order for students to be able to log in, all grade levels at the campus must have a row in the StudentPortal Course Requests section and the status must be either *View* or *Open*.

Otherwise, click <b>No</b>.</li> </ol> <p>You can save edits and delete records in the same step (i.e., the changes are all committed when the record is saved).</p>

## II. Create StudentPortal Messages

Create the campus welcome message.

**Scheduling > Maintenance > Master Schedule > Campus > StudentPortal Message**

This tab allows you to type instructions to assist students who are using the ASCENDER StudentPortal Student Course Requests system. The instructions entered here are displayed as the **Campus Message**, which is displayed as soon as the student logs on to StudentPortal.

The screenshot shows a software interface for managing student course requests. At the top, there is a navigation bar with tabs: CAMPUS CONTROL, SELECTION, COURSES, SECTIONS, PROXIES, INSTRUCTORS, STUDENTPORTAL MESSAGE (which is underlined in green, indicating it is the active tab), and COPY COURSE SECTION. Below the navigation bar, a sub-header reads "Student Course Request System Instructions". The main content area contains the following text:

Welcome to StudentPortal!  
All students will need to complete their course requests for next year.  
The majority of your courses have already been put in place from your Graduation Plan.  
Some of you will need to add a couple of courses and alternates.  
Some may only need to choose alternates.  
Please remember that you can not take a course again. Please choose carefully.

Enter the message:

<b>Student Course Request System Instructions</b>	Type the instructions, up to 3270 characters. If you type more than 3270 characters, the message will be truncated in StudentPortal.
---	--

Click **Save**.

Create the alert message.

An optional alert message can be displayed on the Login page. This message is displayed in a pop-up window, and the user must click **OK** to close the window.

The message file (alert.txt) is located on the application server. Contact your technical administrator to enable, disable, or update the message.

### III. Verify Data

Verify courses available for each grade level, and that restrictions and period control are set correctly.

***Scheduling > Reports > Scheduling Reports > Master Schedules > SCH0133 - StudentPortal - Course List***

This report lists next year course, restrictions, and period control information for a campus. The data can be used for StudentPortal to verify that restrictions and period control are set correctly and to show the courses available for each grade level.

If a course does not have a pre-grid grade restriction for each grade level at the campus, the course is displayed for all grade levels.

Excluded courses are omitted from this report (i.e., if **Excl Stu Crs Req** is selected on **Scheduling > Maintenance > Master Schedule > Campus > Courses**.

Verify units.

### Scheduling > Maintenance > Master Schedule > District > Courses

**Units** is the number of units displayed for each course in StudentPortal Course Requests. In most cases, the number of units will match the number of semesters required for the course. For example, a year-long course spanning one period is worth two units, so period control is set to 2.
