# StudentPortal: Set Up and Use StudentPortal

Welcome ASCENDER StudentPortal!

StudentPortal is a web-based system for students that provides the tools that will help you view your attendance, grades, and assignments, as well as organize and plan your schedule of classes. StudentPortal includes two applications, Student Course Requests and Student Graduation Plan.

**Student Course Requests** allows you to request courses for the next school year, including alternate courses. Once you submit your course requests, you cannot go back to change them. If you need to make changes, you will need to visit with your counselor.

**Student Graduation Plan** allows you to view and change your graduation plan, and view and print the summary and detail of your course credits. Graduation plans are for high school-level students only. Any coursework completed prior to the 9th grade will be reflected in the remaining credits needed, which can be viewed through the Credit Summary and Credit Detail pages of the StudentPortal Student Graduation Plan application.

## Admin Setup

The following information will assist you in implementing ASCENDER StudentPortal at your campus.

## II. Create StudentPortal Messages

Create the campus welcome message.

**Scheduling > Maintenance > Master Schedule > Campus > StudentPortal Message**

This tab allows you to type instructions to assist students who are using the ASCENDER StudentPortal Student Course Requests system. The instructions entered here are displayed as the **Campus Message**, which is displayed as soon as the student logs on to StudentPortal.

Enter the message:

<b>Student Course Request System Instructions</b>	Type the instructions, up to 3270 characters. If you type more than 3270 characters, the message will be truncated in StudentPortal.

Click **Save**.

Create the alert message.

An optional alert message can be displayed on the Login page. This message is displayed in a pop-up window, and the user must click **OK** to close the window.

The message file (alert.txt) is located on the application server. Contact your technical administrator to enable, disable, or update the message.

### III. Verify Data

Verify courses by each grade level, restrictions, and period control.

***Scheduling > Reports > Scheduling Reports > Master Schedules > SCH0133 - StudentPortal - Course List***

This report lists next year course, restrictions, and period control information for a campus. The data can be used for StudentPortal to verify that restrictions and period control are set correctly and to show the courses available for each grade level.

If a course does not have a pre-grid grade restriction for each grade level at the campus, the course is displayed for all grade levels.

Excluded courses are omitted from this report (i.e., if **Excl Stu Crs Req** is selected on ***Scheduling > Maintenance > Master Schedule > Campus > Courses.***

**Scheduling > Maintenance > Master Schedule > Campus > Campus Control**

The **Course Requests Units Remaining** (which is displayed for students in StudentPortal) is the current number of units available to the student for all subjects. The student must select courses according to the units available.

**Course Requests Units Remaining** is established according to the **Norm Prd Cntrl** field. This number is automatically calculated, and is equal to number of periods in the school day multiplied by the number of semesters. For example, at a two-semester campus that has eight periods per day, the normal period control is 16.

**Scheduling > Maintenance > Master Schedule > District > Courses**

For these courses, the **Standard Scores** heading is displayed in the table. For each assignment, all associated standards and grades are displayed. Note that assignments may have multiple standards. Also, an assignment may be associated with more than one standard, so you may see the same standard for multiple assignments. The grade for the course is calculated from the scores for the standards, not the assignments.

Some districts use the name **SKILLS-REFERENCED GRADING** to refer to this grading type.

## Course Requests Units Remaining:

To begin selecting courses, you must have the appropriate number of **Course Requests Units Remaining** available. The **Course Requests Units Remaining** field is located in the left-side navigation bar.

**Course Requests Units Remaining** is the number of units available for you to select from the **Available Courses** section.

- Most courses are worth two units because the course is two semesters long. The units depend on your campus and the number of semesters required for the course.
- The number of units required for each course is displayed in the **Units** column of the **Available Courses** section.
- Once **Course Requests Units Remaining** is zero, a warning message is displayed notifying you that you will not be able to select additional courses unless you remove a previously selected course from the **Requested Courses** section.
  - **Course Requests Units Remaining** will decrease as you add courses.
  - **Course Requests Units Remaining** will increase as you remove courses.
