Various levels of administrative access can be set for TeacherPortal. Each district should designate appropriate staff members at the district and campus level to manage ASCENDER TeacherPortal and ASCENDER ParentPortal.

A single administrator account can give a user access to both TeacherPortal and ParentPortal admin pages.

- Access to TeacherPortal is established on district and campus menus in TxEIS Grade Reporting.
- Administrators can be given full maintenance access or inquiry-only access, and they can be given access to one campus, several campuses, or all campuses.
- Campus-level administrators can also be assigned Discipline-only access.

NOTE:

ParentPortal administrative access allows user to:

- Search for, review, impersonate, and delete ParentPortal accounts
- Active or inactivate TeacherPortal access by date
- Allow student discipline data, immunization, and test score data to be displayed for parents
- Manage online forms and online registration fields, and campus/district setup to use Online Registration
- View overall usage statistics for ParentPortal.

The admin page of ParentPortal can be accessed by adding /adminLogin.aspx to the end of the district's ParentPortal URL.

IMPORTANT: Before beginning, review TxEIS > Security Administration to determine who has access to ***TxEIS Grade Reporting > Maintenance > Gradebook Options.***
