## Daily Tasks

### Attendance tasks:

[Post attendance.](#)

[Attendance > Post/View Attendance](#)

This page allows you to record and post attendance for each period. You can also view attendance data that has already been posted.

**NOTE:** You can post the data only once for each period-course. If you discover an error after you have posted, you must contact the attendance clerk to correct the record.

Flexible attendance cannot be posted from TeacherPortal.

The screenshot shows the ASCENDER TeacherPortal interface. On the left is a sidebar with navigation options: Home, Attendance, Post/View Attendance, Attendance Rosters, and Grades. The main content area is titled 'Attendance' and shows the following information:

- Date: 11/03/2020
- Semester: 1
- Period: 03
- A PIN input field with a 'Post' button.
- A table of student attendance records for Date: 11/3/2020, Semester: 1, Period: 03.

<b>Date</b>	<p>The current date is displayed by default. Type another date in the MMDDYYYY format, or click  to <a href="#">select a date from the calendar</a>.</p> <p>Courses are only displayed on the days met. For example, if a course meets only on Monday, it is displayed only when the attendance date is a Monday.</p> <p>You can select a Saturday if Saturday is a valid attendance date, even if the course does not meet on Saturday. This may be used for bad weather makeup days.</p> <p><b>NOTE:</b> Some campuses may not allow you to post attendance for a prior date. In this case, the <b>Post</b> button is not displayed for prior dates.</p> <p><b>NOTE:</b> You will get an error message, <i>Attendance posting more than XX days prior not allowed.</i>, if the posting date is greater than the number of days entered in the <b>Days</b> field on Grade Reporting &gt; Maintenance &gt; TeacherPortal Options &gt; Campus and the <b>Allow Prior Days Posting</b> field is checked.</p>
<b>Semester</b>	The semester of the selected date is displayed by default.
<b>Period</b>	<p>Select the period-course for which to view or record attendance. By default, the first period for which you have not posted attendance is selected.</p> <p>Attendance can be posted only once for each date-period. If you already posted attendance for this date-period, the period is shaded in the drop-down list.</p> <p>If you select a shaded period, a message indicates that attendance has been posted for this date-period, and a view-only list is displayed.</p>

The list of active students for the selected date and period-course is displayed.

[The columns can be re-sorted.](#)

The columns can be sorted according to your preferences.

- An up arrow  indicates the column and order by which the table is currently sorted.
- If a column can be sorted, a sort box  is displayed in the column heading.
- To resort the list by another column heading, click  in the column heading. The column is sorted in ascending order, as indicated by  in the column heading.
- To sort the column in descending order, click  again. The sort arrow changes direction .

If you sort by the last name column, the table sorts by last name, then first name. If you sort by the first name column, the table sorts by first name, then last name.

**NOTE:** Sorting the columns overrides the custom sort order established on the Arrange Student Order page. However, if you leave this page and return, the students are displayed in your custom sort order. (This does not apply on the Post/View Attendance page.)

- If attendance is already posted for the selected date-period-course, the attendance data is view only.

- Student absences and tardies are highlighted, and you can click the comments icon  to view any comments associated with the absence.
- If a student withdrew from the course since attendance was posted for the date, his attendance record is displayed.
- If a student's enrollment date is after the selected attendance date, his attendance record is not displayed.
- If you teach multiple courses for the selected period, by default, all students in all courses are listed. This setting can be changed using the **Combine Courses in Attendance** field on Settings > Update Profile.
- New students are indicated with the “new” icon next to their student ID. The icon remains for one day only.

Student ID	Last Name	First Name	Attendance
993231 <span style="color: green;">NEW</span>	ABERCROMBIE	CAEDEN B	<input type="radio"/> Absen
992297	BACA	SERGIO D	<input type="radio"/> Absen
992450	BUNNINGHAUSEN	JACOB Y	<input type="radio"/> Absen

- Attendance-only courses are included in the class list.
- Students whose attendance is excluded from reporting are listed, but you cannot record attendance. (This is a rare circumstance.)
- Students who withdrew from the course are no longer listed.

<b>Student ID</b>	The student's ID is displayed. Click the student ID to view the <a href="#">student's profile</a> .
	The Star of Life icon is displayed for any student who has medical circumstances you should be aware of. To view details, click the student ID to view the <a href="#">student's profile</a> ( <b>Medical Alerts</b> section).
<b>Last Name First Name</b>	The first and last names of the students in the selected course-period are listed.

Under **Attendance**:

By default, all students are set to **Present**. You will see these options if your campus chooses to use **Remote Asynch** attendance, **Remote Sync** attendance, or **Both**.

*Present* - physically present in the classroom

*Remote Synch* - online at the time of class

*Remote Asynch* - will complete the assignment at a later time

As you mark students **Absent** or **Tardy**, the rows change color.

- Tardy students are shaded yellow.
- Absent students are shaded red.

If a student's absence is pre-posted (e.g., a scheduled band trip or a student who called in sick), the student is shaded gray, and the **Attendance** field displays the reason for the absence. Pre-posted absences are handled by the attendance clerk, so you are not able to mark attendance for the student.

 The  icon is displayed next to the attendance, if the attendance clerk entered comments associated with a student's attendance for the date and period displayed.

Click the icon to view the comments. The Comments window opens, and the comments are displayed. The date-time and user ID of the person who entered the comments are also displayed.

Click **Close** to close the Comments window.

- The **Absent** and **Tardy** fields are disabled during the ADA period, on the first day of school, and on the first day of enrollment.

- The **Absent** and **Tardy** fields are enabled during the ADA period if the student has a withdrawal reason due to a status change.

The **Tardy** field may not be displayed depending on campus attendance settings.

If the district allows tardies during the ADA period, the tardies may only be valid during a set number of minutes for the period. After this number of minutes has passed, the student should no longer be marked as **Tardy** and should be marked as **Absent**, although the program does not prevent you from marking a student as **Tardy** (except on the first day of semester 1). The number of minutes is determined by the district. If applicable, a message is displayed above the table indicating when tardies are valid.

## Attendance

PIN:

Date: 04/21/2020 Semester: 2 Period: 02

Tardies are only valid during the first 10 minutes of the period. After that time the student should be considered absent.

Students who are on a track that does not meet on the selected date are listed; however, the **Absent**, **Tardy**, and **Present** fields are replaced by a message indicating that the date is not a membership day for the student.

Students whose first day (or re-entry day) is not the official first day of school cannot be marked absent during the ADA period on their first day. The **Absent** option is disabled.

<b>Grade</b>	The student's grade level is displayed.
<b>Course Section</b>	The course-section is displayed.
<b># Students</b>	The total number of students enrolled in this period is displayed at the bottom of the <b>Student ID</b> column.
<b>Print</b>	Click to print the attendance roster for one period or all periods. The <a href="#">Attendance Roster Report Selection</a> page opens allowing you to make selections for printing the Attendance Roster report.

### Post attendance:

- After you have recorded attendance for the course, review your input carefully.

Be sure to follow procedures established by the district for recording attendance.

When you are satisfied with your attendance input, you must post the data.

<b>PIN</b>	Type your four-digit personal identification number (PIN). For your convenience, the <b>PIN</b> box and <b>Post</b> button are displayed at the top and bottom of the attendance list. You can use either box to post attendance.  <b>NOTE:</b> Once attendance is posted the <b>PIN</b> box and <b>Post</b> button will be disabled.
------------	--

Click **Post**.

If you indicated that all students are present (and no absences were previously entered by the attendance clerk), you are prompted you to confirm that all students are marked present.

Click **Confirm** to confirm.

Attendance is posted.

[Generate Attendance Verification report.](#)

[Reports > Attendance Verification](#)

This report displays attendance for all of your students for a selected course-section and date range. You can view data for up to one semester. You can also generate a summary report that displays only totals for the selected date range.

The following codes are used:

- A - Excused absence
- S - School-related absences
- T - Tardy
- X - Truant

An asterisk next to the attendance code indicates that the absence or tardy occurred in a course other than the course the student is currently enrolled in (e.g., if he transferred from one course to another during the school year).

**NOTES:**

- Inservice work days are indicated with an I in the column heading.

- Saturday may be a valid attendance date, even if the course does not meet on Saturday. This may be used for bad weather makeup days.
- If you are printing the report for more than three weeks, you should set the printer orientation setting to landscape or the **Page Scaling** field to *Shrink to Printable Area*. If the *Shrink to Printable Area* setting is not enabled, the landscape orientation will accommodate up to six weeks plus the **Total** column per page. Additional weeks (up to one semester) can be generated by entering the appropriate dates in the **From Date** and **To Date** fields; however, the report will print on multiple sheets of paper with a **Total** column on each page.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.
<b>Course-Section</b>	Select the course-section and period for which to print the report.

<b>From Date To Date</b>	Enter the beginning and ending dates. Both dates must fall within the selected semester.
<b>Include Withdrawn Students</b>	Withdrawn students are not automatically included. Select the field to include withdrawn students in the report.
<b>Summary Only</b>	Select to display only totals for the selected date range. If not selected, the report lists all absences for the selected date range.

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

[Generate attendance rosters.](#)

[Attendance > Attendance Rosters](#)

This page allows you to print attendance rosters for one course or all of your courses at one time. A signature line is provided at the bottom of each period-course.

<b>Date</b>	Type a date in the MMDDYYYY format, or click  to <a href="#">select a date from the calendar</a> .
<b>Semester</b>	The current semester is displayed by default. You can select another semester.
<b>Period</b>	Select the period-course for which you want to print the roster. Or, select <i>ALL CLASSES</i> to print rosters for all periods.
<b>Sorting Options</b>	Indicate if you want to sort the rosters by student ID, last name, first name, or course-section.

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

[Generate Seating Chart report.](#)

[Reports > Seating Charts](#)

This report prints a teacher's seating charts for all periods or one period. For each period, the seating chart is displayed followed by a list of students who are not assigned to seats. The seating chart lists the student name, gender, and ID.

If printed for all periods, each period prints on a separate page.

**NOTE:** If that field has been changed, and the seating charts have not been re-saved on [Settings > Manage Charts](#) since the setting was changed, a warning message is displayed when the report is generated indicating that the reports will not be accurate until the Manage Seating Charts page has been re-saved. You must review the seating chart for each period on the Manage Seating Charts page, make any necessary changes, and then re-save each chart.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.	
<b>Period</b>	Select the period-course(s) to print the seating chart for, or select <i>ALL CLASSES</i> to print seating charts for all periods.  If <b>Combine Courses in Attendance</b> is selected on your <a href="#">Settings &gt; Update Profile</a> page, the courses are combined by period.	
<b>width</b>	Select the width setting for the report.	
	<b>Fixed Seat Width</b>	Select to print a report in which all seats are the same width.  This setting works for small and average-size classes. For larger classes, some seats may not print on the page.
	<b>Auto-Adjusted Seat Width</b>	Select to print a report in which each column is adjusted to the student name. Each column is only wide enough to accommodate the longest name in the column; therefore, some columns are wider than others. This setting is a better option for larger classes.
	For either width setting, you can adjust the orientation when you print. Select <b>Landscape</b> to increase the number of students that fit on the page.	
<b>Show Pictures</b>	Select to display student photos in the seating chart. Photos are only available if they have been added by the district.	

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

[Generate Class Roster report.](#)

[Reports > Class Roster](#)

This report provides a blank class roster by semester and course, including a list of students enrolled in the course and up to 50 blank columns. You can choose the sort order and whether to include the student's birth date and contact information. The report can be exported in CSV format.

If you print the report for a course group, the **Course Section** column is included allowing you to identify the course-section in which the student is enrolled.

**Rubric**

You can assign an existing rubric chart to the assignment, which allows you to grade the assignment using a rubric chart. The rubric charts are created on [Settings > Rubric Setup](#).

- If a rubric chart is not currently associated with the assignment, the  icon (three black squares) is displayed.
- If a rubric chart is currently associated with the assignment, the  icon (four multicolored squares) is displayed.

Click the icon to associate a rubric chart with the assignment or to change the associated rubric chart. The rubric chart window opens.

Under **Available Rubrics**, any rubric charts you have created that have at least one skill and one score are listed.

**Available Rubrics**

Click  for the rubric chart you want to use. If the rubric is selected, the box becomes yellow .

The grid lists all students currently enrolled in the course-section and the assignments according to your selections.

[The columns can be re-sorted.](#)

The columns can be sorted according to your preferences.

- An up arrow  indicates the column and order by which the table is currently sorted.
- If a column can be sorted, a sort box  is displayed in the column heading.
- To resort the list by another column heading, click  in the column heading. The column is sorted in ascending order, as indicated by  in the column heading.
- To sort the column in descending order, click  again. The sort arrow changes direction .

If you sort by the last name column, the table sorts by last name, then first name. If you sort by the first name column, the table sorts by first name, then last name.

**NOTE:** Sorting the columns overrides the custom sort order established on the Arrange Student Order page. However, if you leave this page and return, the students are displayed in your custom sort order. (This does not apply on the Post/View Attendance page.)

**Note:** If you created the note, you can update it, up to 3269 characters.

**Author:** The last name of the person who entered the note is displayed based on the user login.

**Last Updated:** The date on which the note was last updated is displayed.

**Delete:** Select to delete an existing note. You can only delete a note if you created it, or if you are the Teacher of Record for the course. For example, the Teacher of Record can delete a note entered by an Assistant Teacher for the course.

Under **Add Note:**

To add a new note, select the category code indicating what the new note is related to, such as AT for attendance.

In the text box, type the new note, up to 3269 characters per note.

Click **Save**.

**NOTE:** The [Student Notes report](#) provides a report of these course notes.

**T (Transfer T):**

Beside each student's name is the transfer icon **T** (i.e., a gray T) indicating that he is not a transfer student. If a student transfers into the class, the red transfer icon **T** is displayed next to his name.

**NOTE:** The student will only have a red **T** if he is transferring from one section to another section within the same course. Otherwise the T will remain gray.

If a student transfers into the course, you must accept the student into the course and enter his walk-in transfer average and weight. The campus, student ID, semester, and cycle must all be the same for the average to transfer.

To accept the transfer student into the course-section, click **T**.

The Transfer Walk-In Average window opens.

**Date:** The student's transfer date is displayed by default. You can type over the date in the MMDDYYYY format. Or, click to [select a date from the calendar](#).

**From:** The teacher name, course number, and section are displayed for the course from which the student transferred. This data is only displayed if the student transferred from a different section of the same course and has a transfer average.

**Average:** The student's transfer average is displayed if available. Otherwise, you can type the student's walk-in average.

This is the student's average in the class from which he transferred. You can enter a numeric grade or an alphabetical (ABCD or ESNU) grade.

**NOTE:** If a student transferred from a course that posts letter grades to a course that posts numeric grades, and a letter grade is entered for his transfer average, the student's working cycle average is displayed as a numeric grade.

See the [Calculate Averages guide](#) for an explanation of calculating averages for each weighting type for an explanation of calculating averages for transfer students.

**Weight:** The field displays 0 for a transfer student who has not yet been accepted into the class.

To accept the student into your class, type the weight you want to apply to the student's transfer average. For example, if a student transferred three weeks into a six-week cycle, you may want to enter a weight of 50%. The maximum weight you can enter is 100.

The student's transfer icon remains red until a weight is entered and saved.

Once you enter and save a weight, the student's transfer icon turns blue . The blue icon remains until the end of the semester.

Click **Ok**.

If you entered and saved the transfer average data for the student, his walk-in average is calculated in his working cycle average.

**NOTE:** The changes are not actually saved until you type your PIN and click **Save Grades**.

**Clear:** Clear all data previously entered for the transfer student.

**NOTE:** Any course assignments that were due prior to the student's transfer date are excluded for the student, and the Exclude indicator  is displayed for the assignments. You can override the exclusion if you want the transfer student to complete an assignment that was due prior to his transfer date.

To override the exclusion, click , clear the **Exclude** field. Click **OK** and save.

**NOTE:** For standards-base courses, accepting a transfer student is a manual process. The transfer icon is not displayed.

### Calculating the average for a transfer student:

If a student transfers into the course during a cycle, the following calculations are used to determine his working cycle average:

#### Formula for transfer student:

For the transfer grade, multiply the Transfer Average by the Transfer Weight:

Transfer Average x Transfer Weight = Transfer Value

**For example:**

1. The student's Transfer Average is 74.

The student's Transfer Weight is 55%.

$$74 \times 55\% = 40.7$$

The student's Transfer Value is 40.7.

2. Calculate the average of the student's assignment grades (for the remainder of the cycle) using the steps described above under Percent-based, Point-based, or Multiplier-based.

**For example:**

The percent-based example above shows a Working Cycle Average of 87.

3.	<p>Calculate the weight for the Working Cycle Average:</p> <p><math>100\% - \text{Transfer Weight} = \text{Working Cycle Average Weight}</math></p> <p><b>For example:</b></p> <p>The student's Transfer Weight is 55%.</p> <p><math>100\% - 55\% = 45\%</math></p> <p>The student's Working Cycle Average Weight is 45%.</p>
4.	<p>Calculate the Working Cycle Average Value.</p> <p><math>\text{Working Cycle Average} \times \text{Working Cycle Average Weight} = \text{Working Cycle Average Value}</math></p> <p><b>For example:</b></p> <p>The student's Working Cycle Average is 87.</p> <p>The student's Working Cycle Average Weight is 45%.</p> <p><math>87 \times 45\% = 39.15</math></p> <p>The student's Working Cycle Average Value is 39.15.</p>
5.	<p>Take the sum of the Transfer Value and the Working Cycle Average Value.</p> <p><math>\text{Transfer Value} + \text{Working Cycle Average Value} = \text{Actual Working Cycle Average}</math></p> <p><b>For example:</b></p> <p>The student's Transfer Value is 40.7.</p> <p>The student's Working Cycle Average Value is 39.5.</p> <p><math>40.7 + 39.5 = 80.2</math></p> <p>The student's Actual Working Cycle Average is 80.</p>

If a student transferred from a course that posts letter grades to a course that posts numeric grades and a letter grade is entered for his transfer average, the grade conversion table is used to determine the numeric value.

#### **Cycle Average:**

The student's working cycle average is displayed. The average is updated every time you access the page, click **Calculate Averages**, or save grades. If the student does not yet have a working cycle average, the field is blank.

- The working cycle average is calculated according to the weighting selected on [Settings > Manage Categories](#), as well as calculations described in the [Calculate Averages guide](#).

- The working cycle average is rounded to a whole number. If the decimal value is .5 or greater, the grade is rounded up.
- If you use percentage-based categories, and you have a category that does not yet have grades (e.g., if it is early in the cycle and you have not administered any tests), the student's working cycle average is calculated based on the percentages for the categories that have grades. For more information on calculations, view the Help for **Weighting Type** on [Settings > Manage Categories](#).

#### **Show Averages as Alpha:**

If the course is set up to post alphabetical grades, the field is displayed.

- Select the field to display averages as alphabetical grades.
- Clear the field to display the averages as numbers.

**NOTE:** For courses that use alphabetical grades, a cookie is set to remember the setting, and the page will always display averages according to the setting by default. **Averages are also displayed on the Cycle Grades page according to the setting.** Courses that use numeric grades will always display grades numerically.

#### **Sort Assignments by Date Due in:**

Assignments are listed left to right in ascending order by the due date. (If there is no due date, they are displayed by the date assigned. Otherwise, the date entered is used.)

To change the assignment display order to descending, change this setting to **Descending**.

#### **Category:**

The category for the assignment is displayed first in the column heading row, above the assignment name.

The assignments are color-coded according to the category. If a color is assigned to the category on [Settings > Administer Categories](#), the column displays the selected color.

#### **Assignment Name:**

The assignment name is displayed in the column heading below the category name.

**Due:**

The assignment due date is displayed if entered on [Settings > Manage Assignments](#).

**Max:**

The total points possible for the assignment is displayed if entered in the **Total Points** field on [Settings > Manage Assignments](#).

 **(Import)**

For campuses that use curriculum and test taking systems (e.g., eInstruction and Eduphoria), click the icon to import a data file that only includes the student's ID, assignment grade, first name, and last name.

**NOTE:** The import function is not available on mobile devices.

- Only .csv and .txt files can be imported. The text file must be comma-separated data with one student per row.
- Attempting to import for students not in the course will create exceptions errors that cause the import to fail. Deleting these rows should allow the import to be successful.
- You can only import assignment grades for existing students.

- You can only import grades where students has blank grades for the particular assignment. If the student already has grades, the data is displayed in red and crossed out.

### Steps for importing the data file:

- Click  to import grades for the assignment.

The Import Assignment Grades window opens allowing you to upload the data file, review the data, and import the file.

- Under **Step 1**, click **Browse** to select the data file. Locate and open the file.

The file name is displayed.

- Click **Upload File**.

When the upload is complete, the “Success” message is displayed indicating the name of the uploaded file.

- Under **Step 2**, review the default file format and adjust the columns of your data if necessary:

- Under **To Column**, the default file format is listed. The format is determined according to the type of data found in the uploaded file. For example, a six-digit string of numbers is assumed to be the student ID, and a string of up to three characters is assumed to be an assignment grade. There are four columns:

- Student ID
- Assign Grade
- First Name
- Last Name

**NOTE:** For the six-digit student ID, include all leading zeros.

- Under **From Column**, make adjustments as needed.

For example, if the default file format has the first name before the last name, and

you want the last name before the first name, you can change the columns under **From Column** accordingly (i.e., change column 3 to 4, and change column 4 to 3). **NOTE:** The order of the first and last names is not important when uploading this file.

- If you assign the same column number to more than one column, the message “duplicate” is displayed by the duplicated column. You must correct this before proceeding.
- As you make any changes under **Step 2**, the data displayed under **Step 3** changes accordingly. Review the data under **Step 3** before importing the file.
- When the data under **Step 3** is being refreshed, the message “validating” is displayed. Wait until the message goes away.
  - If errors are encountered, the records with errors are displayed in red with a strikethrough. The number of errors found is listed below the grid. Errors may include mismatched or invalid data.
  - Currently, the only acceptable error is an error due to the student already having a grade for the assignment. Exception errors due to invalid records will cause the import to fail.
- When you are satisfied with the data under **Step 3**, click **Import Now** under **Step 4**. The data is imported, and the assignment grade fields on the Assignment Grades page are populated with data from the import file.

The **Import Now** button is disabled if there are no valid records to import.

**NOTE:** If the course has any withdrawn students, the import file has a record for the withdrawn students. Therefore, you must select **Show withdrawn students** on the Assignment Grades page to import the grade for the withdrawn students. If you do not select **Show withdrawn students**, the import file will generate errors for the withdrawn students.

## Assignments per Page

By default, the page displays only the first five assignments. You can change the number of assignments displayed.

To print all assignments, select **All** from the drop-down menu or select the number of specific assignments to be printed.

**Previous/Next:**

If there are more assignments, use the buttons to view the other assignments.

**Enter the grades in the grid.**

**NOTES:**

- Only whole numbers can be entered for numeric grades.
- To add extra credit points, you can add points to the assignment grade.
- When you enter or change a grade, the table cell turns gray to indicate that the grade was changed but not yet saved. Once you save the assignment grades, the cell is no longer gray.
- If you type an invalid grade, such as a letter grade that does not have a conversion value, the cell is shaded red. You must correct the entry before you can save the grades.
- Dropped grades are italicized.
- If the course is set up for alphabetical or ESNU grade posting, you can type letter grades or numeric grades. If you type a letter grade, it is automatically converted to a numeric grade for calculating the working cycle average, according to the conversion values set by the campus.
- Other codes can be typed in place of a grade:
  - M - Missing
  - I - Incomplete (If you type I for any grade, the student's working cycle average

will be I until a grade is entered.)

- X - Excluded (The X functions the same way as clicking the note icon and selecting **Exclude** from the Grade Properties window.)
  - Only one shortcut code can be entered per assignment grade.
- If the campus has disabled posting of grades for prior cycles, you cannot make changes to assignment grades for previous semesters-cycles. The **Save Grades** button is disabled.
  - Grades can be entered in the shaded fields for the selected skills on the Assignment Grades page. The field will change from gray to white and the grades will print on the report card. However, grades should not be entered in the shaded fields for the selected skills for the **Semester** and **Cycle** that appear gray on the Assignment Grades page.
  - You can navigate through the grade fields [using the keyboard](#)

Press ENTER after you type each grade to move down the list to the next student. You can press SHIFT+ENTER to move up the list. You can also press the up and down arrow keys to move up and down the list.

Press TAB to move across the list to the next assignment. You can press SHIFT+TAB to move back to the left.

.

Next the grade field, click  to open the Grade Properties window where you can add comments or indicators (e.g., excluded, late, re-do, or accommodated) associated with an assignment.

Enter comments and/or select the appropriate indicator(s).

If there is no grade for the assignment, it cannot be marked as late or re-do.

The  icon is displayed if the assignment grade is excluded (e.g., for a transfer student). The grade will continue to be displayed in the field.

<b>Print comment</b>	Select if you want the indicators and/or comments to print on the student's IPR and display to parents in ParentPortal.

## Save Data:

Any data that has changed since the last time you saved your grades is indicated by gray shading in the table cell.

**NOTE: Be aware that you may have changed data that is not currently displayed on the page.** All changes are saved, including those that are not visible on the page. For example, if you are currently viewing assignment grades for one student, but you previously entered grades for other students, the grades for all students are saved, regardless of what is displayed on the page at the time you save the data.

[Generate Assignment Grades report.](#)

[Reports > Assignment Grades](#)

This report lists assignment grades for all students in a course according to options entered on this page. The overall assignment average and class average are also displayed.

- Excluded grades are indicated by Ex in place of the grade.
- Dropped grades are indicated by D next to the grade.

**NOTE:** The **Category Legend** as it appears on the report matches the **Cat ID** (category ID) column (in the **Assignment Legend**) to the corresponding category name and category weight. The **Assignment Legend** matches the assignment ID heading to the corresponding assignment name, total points, and **Cat ID**.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.
<b>Cycle</b>	The current cycle is displayed. You can select a different cycle.

<b>Course-Section</b>	Select the course-section for which to print the report. Or, select <i>All</i> to produce the report for all of your course-sections. The drop down lists the two-digit period and course name. The course number and section number are in parentheses.
-----------------------	--

<b>Viewing Options</b>	<b>View Student Names</b>	Select to display the student names on the report. Otherwise, the names are not printed on the report, and students can only be identified by their student IDs. The student IDs are always displayed on the report.
	<b>View Withdrawn Students</b>	Withdrawn students are not automatically displayed. Select the field to display them. The message "W/D" and the withdrawal date or "Dropped" are displayed by the student's name. The withdrawal date may be the student's withdrawal date from school or his withdrawal date from the class.
<b>Sorting Options</b>	Indicate the field to sort the report by.

[Reports > Student Notes](#)

This report displays any of the following notes for one or all courses, and for one or all students.

- **Course Notes:** Notes entered in the **Course Notes** field on [Settings > Manage Courses](#). These are comments and notes entered by teachers about their courses, such as reminders, announcements, and other course-specific information. These notes are displayed to parents in ParentPortal.
- **Student Course Notes:** Notes entered by clicking the note icon next to the student's name on [Grades > Assignment Grades](#). These are course-specific notes entered by teachers about the student, and the notes are associated with specific categories. These notes are note displayed to parents in ParentPortal.

- **Course Assignment Notes:** Notes entered in the **Notes** field on [Settings > Manage Assignments](#). These are notes entered by teachers about their assignments. The notes are displayed to parents in ParentPortal.
- **Student Assignment Notes:** Notes entered by clicking the note icon next to the student's assignment grade on [Grades > Assignment Grades](#). These are assignment-specific notes entered by teachers about the student. The teacher has the option to display the note to parents in ParentPortal.
- **IPR Notes:** Notes entered in the **Note** field on [Grades > IPR Comments](#). These are student-specific notes entered by the teacher about the student relative to the IPR. These notes are printed on the IPR that is distributed to parents.

[Award extra credit.](#)

There are several ways to award extra credit:

- Create an extra credit assignment on [Settings > Manage Assignments](#)
- Add extra points to an assignment grade on [Grades > Assignment Grades](#)
- Add extra points to the cycle average on [Grades > Cycle & Semester Grades](#)

## Create extra credit assignment:

994254	T BALDERRAMA, DANNA P	80.0	10	70	100

### Calculations for extra credit assignment:

**IMPORTANT:** See [Calculate Averages](#) for additional information.

### Percent-based weighting:

If the student has extra credit points, include the extra credit (EC) points in the Total Points Earned.

(Points Earned 1 + Points Earned 2 + Points Earned 3 + EC) = Total Points Earned

### For example:

The Homework category has three assignments. The student earned a 70/100, 80/100, and 90/95 for those assignments. He also has 10 points for the extra credit assignment.

$$(70 + 80 + 90 + 10) = 250$$

In this case, the Total Possible Points for the Homework category is 295.

$$250 / 295 = .847$$

---

The student's average for the Homework Category is 85.

**Points-based weighting:**

If the student has an extra credit assignment, add the points for the extra credit (EC) assignment to the Category Points:

Category Points + EC = new Category Points

**For example:**

The Homework category has three assignments, each worth 50 points. The student earned a 40, 45, and 50 for those assignments.

$$40 + 45 + 50 = 135$$

The student's Homework Category Points is 135. The student was awarded 5 points for a homework extra credit assignment.

$$135 + 5 = 140$$

In this case, the Total Possible Points for the Homework category is 150.

$$140 / 150 = .933$$

The student's average for the Homework Category is 93.

**Multiplier-based weighting:**

If the student has an extra credit assignment, add the points for the extra credit (EC) assignment to the Actual Category Points:

Actual Category Points + EC = new Actual Category Points

**For example:**

The student's Homework Actual Category Points is 240. The student was awarded 5 points for a homework extra credit assignment.

$$240 + 5 = 245$$

In this case, the multiplier for the Homework category is 2.

$$245 \times 2 = 490$$

The Homework category has three assignments, each worth 100 points.

$$100 + 100 + 100 = 300$$

$$300 \times 2 = 600$$

$$490 / 600 = .816$$

The student's average for the Homework category is 82.

**ANOTHER OPTION:** If you want to give an extra credit assignment that will be included in the cycle average for the students who do the assignment (but not for those who do not do it), create a regular assignment (not extra credit), and then exclude the grade for all students who do not complete the assignment.

### Add extra points to an assignment:

[Generate Seating Chart report.](#)

[Reports > Seating Charts](#)

This report prints a teacher's seating charts for all periods or one period. For each period, the seating chart is displayed followed by a list of students who are not assigned to seats. The seating chart lists the student name, gender, and ID.

If printed for all periods, each period prints on a separate page.

**NOTE:** If that field has been changed, and the seating charts have not been re-saved on [Settings > Manage Charts](#) since the setting was changed, a warning message is displayed when the report is generated indicating that the reports will not be accurate until the

Manage Seating Charts page has been re-saved. You must review the seating chart for each period on the Manage Seating Charts page, make any necessary changes, and then re-save each chart.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.	
<b>Period</b>	Select the period-course(s) to print the seating chart for, or select <i>ALL CLASSES</i> to print seating charts for all periods.  If <b>Combine Courses in Attendance</b> is selected on your <a href="#">Settings &gt; Update Profile</a> page, the courses are combined by period.	
<b>width</b>	Select the width setting for the report.	
	<b>Fixed Seat Width</b>	Select to print a report in which all seats are the same width.  This setting works for small and average-size classes. For larger classes, some seats may not print on the page.
	<b>Auto-Adjusted Seat Width</b>	Select to print a report in which each column is adjusted to the student name. Each column is only wide enough to accommodate the longest name in the column; therefore, some columns are wider than others. This setting is a better option for larger classes.
For either width setting, you can adjust the orientation when you print. Select <b>Landscape</b> to increase the number of students that fit on the page.		
<b>Show Pictures</b>	Select to display student photos in the seating chart. Photos are only available if they have been added by the district.	

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.

[Generate Rubric report \(if enabled for campus\).](#)

There are two ways to access the rubric printing options:

- From the Manage Rubric Charts page, click **Print**.
- From the Reports menu, select **Rubrics**.

## Print the rubric chart:

- Click **Print** to print a report of the displayed rubric chart.

The screenshot shows the 'Set Up Rubrics' page. In the top right corner, there is a 'Print' button highlighted with a red arrow. Below the title, there are sections for 'Available Rubrics' and 'Edit Rubric: Essay'. The 'Available Rubrics' section contains a table with columns 'Options' and 'Rubric Name', listing 'Essay'. There is also an 'Add Score' button. The 'Edit Rubric: Essay' section has a 'Save As' button and an input field.

The [Rubric Report Selection](#) page opens allowing you to make selections for printing the report.

This report prints a rubric chart which has been set up on [Settings > Manage Rubric Charts](#). You can print only the rubric chart (i.e., blank), or you can print the rubric chart with student grades for a particular assignment.

The screenshot shows the 'Rubric Report Selection' page. It has a light blue background. At the top, it says 'Rubric Report Selection'. Below that, there are two fields: 'Rubric Name:' with a dropdown menu showing 'Essay' and a downward arrow, and 'Title (Optional):' with an empty input field. Below these fields is a note: 'If Title is left blank, the Rubric Name will be the title on the report.' At the bottom left, there is a blue 'Generate' button.

- Specify report options:

<b>Rubric Name</b>	Select the rubric chart you want to print. Only rubric charts that have skills and scores already set up are listed.
<b>Title</b>	(Optional) Type a title for the report, up to 50 characters. If blank, the rubric chart name is used as the title.

<b>Print with grades</b>	Select to print the report with student grades. This field is only displayed if the selected rubric chart has already been used to grade an assignment.		
	If selected, an additional field is displayed allowing you to select a course-section. Only course-sections that have a rubric chart set up are listed.		
	<b>course-section</b>	Once you select a course-section, another field is displayed allowing you to select the assignment that was graded with a rubric chart.	
	<b>assignment</b>	Once you select an assignment, a list of students in the course-section is displayed, along with their grade for the assignment.	
	<b>This Student</b>	Select for the students you want to print the rubric for. You can select <b>Check all</b> at the top of the column to select all students in the course-section.	

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

[Generate Class Roster report.](#)

[Reports > Class Roster](#)

This report provides a blank class roster by semester and course, including a list of students enrolled in the course and up to 50 blank columns. You can choose the sort order and whether to include the student’s birth date and contact information. The report can be exported in CSV format.

If you print the report for a course group, the **Course Section** column is included allowing you to identify the course-section in which the student is enrolled.

Beside each student's name is the transfer icon **T** (i.e., a gray T) indicating that he is not a transfer student. If a student transfers into the class, the red transfer icon **T** is displayed next to his name.

**NOTE:** The student will only have a red **T** if he is transferring from one section to another section within the same course. Otherwise the T will remain gray.

If a student transfers into the course, you must accept the student into the course and enter his

walk-in transfer average and weight. The campus, student ID, semester, and cycle must all be the same for the average to transfer.

- To accept the transfer student into the course-section, click **T**.

The Transfer Walk-In Average window opens.

The screenshot shows a window titled "Transfer Walk-In Average" with a close button (X) in the top right corner. The student name "MUELLER, MONTANA J" is displayed at the top. Below it, there are four input fields: "Due Date" with the value "04/21/2020" and a calendar icon; "From" with the value "Onassis, Jacqueline K" and "4216-31"; "Average" with the value "54.0"; and "Weight" with the value "0" and a percentage sign. At the bottom right, there are three buttons: "Clear", "Cancel", and "Ok".

**Date:** The student's transfer date is displayed by default. You can type over the date in the MMDDYYYY format. Or, click  to [select a date from the calendar](#).

**From:** The teacher name, course number, and section are displayed for the course from which the student transferred. This data is only displayed if the student transferred from a different section of the same course and has a transfer average.

**Average:** The student's transfer average is displayed if available. Otherwise, you can type the student's walk-in average.

This is the student's average in the class from which he transferred. You can enter a numeric grade or an alphabetical (ABCD or ESNU) grade.

**NOTE:** If a student transferred from a course that posts letter grades to a course that posts numeric grades, and a letter grade is entered for his transfer average, the student's working cycle average is displayed as a numeric grade.

See the [Calculate Averages guide](#) for an explanation of calculating averages for each weighting type for an explanation of calculating averages for transfer students.

**Weight:** The field displays 0 for a transfer student who has not yet been accepted into the class.

To accept the student into your class, type the weight you want to apply to the student's transfer average. For example, if a student transferred three weeks into a six-week cycle, you may want to enter a weight of 50%. The maximum weight you can enter is 100.

The student's transfer icon remains red until a weight is entered and saved.

Once you enter and save a weight, the student's transfer icon turns blue . The blue icon remains until the end of the semester.

Click **Ok**.

If you entered and saved the transfer average data for the student, his walk-in average is calculated in his working cycle average.

**NOTE:** The changes are not actually saved until you type your PIN and click **Save Grades**.

**Clear:** Clear all data previously entered for the transfer student.

**NOTE:** Any course assignments that were due prior to the student's transfer date are excluded for the student, and the Exclude indicator  is displayed for the assignments. You can override the exclusion if you want the transfer student to complete an assignment that was due prior to his transfer date.

To override the exclusion, click , clear the **Exclude** field. Click **OK** and save.

**NOTE:** For standards-base courses, accepting a transfer student is a manual process. The transfer icon is not displayed.

### Calculating the average for a transfer student:

If a student transfers into the course during a cycle, the following calculations are used to determine his working cycle average:

#### Formula for transfer student:

For the transfer grade, multiply the Transfer Average by the Transfer Weight:

Transfer Average x Transfer Weight = Transfer Value

#### For example:

1. The student's Transfer Average is 74.

The student's Transfer Weight is 55%.

$74 \times 55\% = 40.7$

The student's Transfer Value is 40.7.

2.	<p>Calculate the average of the student's assignment grades (for the remainder of the cycle) using the steps described above under Percent-based, Point-based, or Multiplier-based.</p> <p><b>For example:</b></p> <p>The percent-based example above shows a Working Cycle Average of 87.</p>
3.	<p>Calculate the weight for the Working Cycle Average:</p> $100\% - \text{Transfer Weight} = \text{Working Cycle Average Weight}$ <p><b>For example:</b></p> <p>The student's Transfer Weight is 55%.</p> $100\% - 55\% = 45\%$ <p>The student's Working Cycle Average Weight is 45%.</p>
4.	<p>Calculate the Working Cycle Average Value.</p> $\text{Working Cycle Average} \times \text{Working Cycle Average Weight} = \text{Working Cycle Average Value}$ <p><b>For example:</b></p> <p>The student's Working Cycle Average is 87.</p> <p>The student's Working Cycle Average Weight is 45%.</p> $87 \times 45\% = 39.15$ <p>The student's Working Cycle Average Value is 39.15.</p>
5.	<p>Take the sum of the Transfer Value and the Working Cycle Average Value.</p> $\text{Transfer Value} + \text{Working Cycle Average Value} = \text{Actual Working Cycle Average}$ <p><b>For example:</b></p> <p>The student's Transfer Value is 40.7.</p> <p>The student's Working Cycle Average Value is 39.5.</p> $40.7 + 39.5 = 80.2$ <p>The student's Actual Working Cycle Average is 80.</p>

If a student transferred from a course that posts letter grades to a course that posts numeric grades and a letter grade is entered for his transfer average, the grade conversion table is used to determine the numeric value.

[Enter discipline referrals.](#)

## Discipline > Discipline Referrals

This page allows you to view and enter discipline referrals. The referrals are submitted to an administrator for review and further action. The page is only available if the campus allows teachers to enter referrals in TeacherPortal; otherwise, the Discipline menu is not displayed.

### NOTE:

You can only view your own referrals. If you are logged on to TeacherPortal as an administrator, you cannot see a teacher's entered referrals on this page; however, you can view your own referrals.

Inquiry-only users cannot submit referrals.

Your existing referrals for the school year are listed, as well as the following statistical data:

<b>Draft</b>	The number of referrals you have created but not submitted is displayed.
<b>Pending</b>	The number of referrals you have submitted that are awaiting review and further action from an administrator is displayed.
<b>Reviewed</b>	The number of submitted referrals that have been reviewed by an administrator, for which the administrator is taking no further action, is displayed.
<b>Completed</b>	The number of submitted referrals that have been reviewed by an administrator, and for which further action was taken, is displayed.

Up to five referrals are displayed at a time. If more referrals exist, you can page through the list to see the others.

To retrieve a referral for a specific student and/or a specific status, do one or more of the following, or leave all fields blank to retrieve all referrals sorted by status:

<b>Student ID</b>	Begin typing the student's ID. As you begin typing the ID, a drop-down list displays students whose student ID matches the numbers you have typed. From the drop-down list, select a student.
<b>Student Name</b>	Begin typing the student's name in one of the following formats: <ul style="list-style-type: none"> <li>• Last name, comma, first name</li> <li>• Last name initial, comma, first name initial</li> </ul> As you begin typing the name, a drop-down list displays students whose names match the letters you have typed. From the drop-down list, select the student.
<b>Status</b>	Select a status to view only referrals for the selected student with that status. Or, select ALL to see all referrals for the selected student.

Click **Search**.

The referrals grid is redisplayed according to the criteria specified.

	Click to view or edit the details of a referral. The <b>Record Details</b> section is displayed.
	Click to print the discipline referral. The report opens in a new window, and you can print the report from that window.
	Click to delete the referral. You are prompted to confirm that you want to delete the referral. Click <b>OK</b> .

Only *Draft* and *Pending* referrals can be updated or deleted. The *Reviewed* and *Completed* referrals can only be viewed and printed.

**Enter or update a referral:**

- Click **Add Referral**.
- Or, click  to edit an existing referral.

The **Record Details** section is displayed.

Under **Record Details**, retrieve the student(s) involved in the incident:

<b>Student ID</b>	Begin typing the student's ID. As you begin typing the ID, a drop-down list displays students whose student ID matches the numbers you have typed. From the drop-down list, select a student.
<b>Student Name</b>	<p>Begin typing the student's name in one of the following formats:</p> <ul style="list-style-type: none"> <li>• Last name, comma, first name</li> <li>• Last name initial, comma, first name initial</li> </ul> <p>As you begin typing the name, a drop-down list displays students whose names match the letters you have typed. From the drop-down list, select the student.</p>

<b>Add Another Student</b>	If more than one student was involved, click <b>Add Another Student</b> to retrieve the next student. A blank row is displayed allowing you to retrieve the student.
----------------------------	--

- To remove a student from the list, click .
- To see a student's schedule, click **Schedule** next to the student's name.

The Schedule window opens and displays the student's schedule, including the course-section, period, course title, teacher name, withdrawn indicator, room number, and days the class meets.

<b>Severity</b>	Indicate the severity of the offense. For example, select High if the nature of the offense is very severe.
<b>Offense Description</b>	(Required) Select the offense code describing the offense. <b>NOTE:</b> Only offense codes allowed by the district are listed.
<b>Referrer Comments</b>	Type comments related to the offense, up to 2000 characters including spaces. A character counter below the text box allows you to see the number of remaining characters available.  These comments will be read by the administrator who reviews the discipline referral.  See <a href="#">Notes on Special Characters</a> and <a href="#">Copy/Paste From Other Documents</a> .
<b>Incident Date</b>	The current date is displayed by default. Type another date in the MMDDYYYY format, or click  to <a href="#">select a date from the calendar</a> .
<b>Incident Time</b>	The current (i.e., system) time is displayed by default. You can type another time in the HH:MM:SSA format, where HH is the hour, MM is the minutes, SS is the seconds, and A is a.m. or p.m.
<b>Sent to Office</b>	Select if the student(s) were sent to the office because of the incident.
<b>Teacher's Course Section</b>	Select a course-section if the incident occurred during class.
<b>Incident Location</b>	(Required) Select the location in which the incident occurred.

### Save data:

<b>PIN</b>	Type your four-digit personal identification number (PIN).
------------	--

- Click **Save Draft** to save a draft of the referral, which allows you to finish and submit the referral at a later time.
- Or, click **Submit Referral** if the referral is complete, and you are ready to submit the referral to an administrator for further action.

The referral will appear in the administrator's discipline referral list with a status of *Pending*.

	The button is only displayed for a saved referral. Click to print the discipline referral. The report opens in a new window, and you can print the report from that window.
<b>Add Another Student</b>	Click to add an additional row in the <b>Record Details</b> section.

**Other Reports:**

[Generate Special Programs report.](#)

[Reports > Special Programs](#)

**This report is only available to users who log on to TeacherPortal with a district- or campus-level security administrator user ID, or to teachers who have access to run the special programs report.**

This report lists of the special programs for each student in the class.

Only the special programs selected by the campus are included. If enabled, the **Generic** column appears in the report and displays program information.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.	
<b>Course-Section</b>	Select the course-section for which to print the report. The drop down lists the two-digit period and course name. The course number and section number are in parentheses.	
<b>As Of Date</b>	Type a date in the MMDDYYYY format. Or, or click  to <a href="#">select a date from the calendar</a> .	
<b>Viewing Options</b>	<b>View Student Names</b>	Select to display the student names on the report. Otherwise, the names are not printed on the report, and students can only be identified by their student IDs. The student IDs are always displayed on the report.
	<b>View Current or All Course Section(s)</b>	Select one:
		<b>Current</b>
	<b>All</b>	Select to print student data for all course-sections.
These options are disabled if you are logged on as an administrative user and select <b>Across Campus</b> under <b>Admin Options</b> .		

<b>Admin Options</b>	These fields are only displayed if you are logged on as an administrative user:																																														
	<b>Across Campus</b>	Select to view data for all courses across the campus. Otherwise, data is only displayed for the selected course-section or for the impersonated teacher's courses. If you are impersonating a teacher for whom no courses are defined, the message "No courses defined" is displayed at the bottom of the page, and the fields are disabled. However, once you select <b>Across Campus</b> , the message is removed because it may not apply to all teachers at the campus, and the fields are enabled.																																													
	<b>View Without Course/Section &amp; Instructor in Grid Format</b>	This field is enabled when <b>Across Campus</b> is selected.  If selected:  If <b>View Without Course/Section &amp; Instructor in Grid Format</b> is selected, the report data is displayed in a grid format, and the course-section and teacher are not displayed. The default sort is by student name; however, the grid can be re-sorted.  <i>Sample:</i> <table border="1" data-bbox="815 945 1481 1048"> <thead> <tr> <th>Student ID</th> <th>Student Name</th> <th>Grade</th> <th>Special Program</th> </tr> </thead> <tbody> <tr> <td> </td> <td> </td> <td> </td> <td> </td> </tr> <tr> <td> </td> <td> </td> <td> </td> <td> </td> </tr> </tbody> </table> If not selected:  If <b>View Without Course/Section &amp; Instructor in Grid Format</b> is not selected, the report is grouped by course-section. The report is similar to the report for non-administrative users; however, the teacher is listed for each course-section. For non-administrative users, the teacher is listed once at the top of the report.  <i>Sample:</i> <table border="1" data-bbox="815 1760 1481 1863"> <thead> <tr> <th colspan="2">Course Nbr-Sec</th> <th colspan="2">Teacher Name</th> </tr> <tr> <th>Student ID</th> <th>Student Name</th> <th>Grade</th> <th>Special Program</th> </tr> </thead> <tbody> <tr> <td> </td> <td> </td> <td> </td> <td> </td> </tr> <tr> <td> </td> <td> </td> <td> </td> <td> </td> </tr> </tbody> </table> <table border="1" data-bbox="815 1975 1481 2078"> <thead> <tr> <th colspan="2">Course Nbr-Sec</th> <th colspan="2">Teacher Name</th> </tr> <tr> <th>Student ID</th> <th>Student Name</th> <th>Grade</th> <th>Special Program</th> </tr> </thead> <tbody> <tr> <td> </td> <td> </td> <td> </td> <td> </td> </tr> <tr> <td> </td> <td> </td> <td> </td> <td> </td> </tr> </tbody> </table>		Student ID	Student Name	Grade	Special Program									Course Nbr-Sec		Teacher Name		Student ID	Student Name	Grade	Special Program									Course Nbr-Sec		Teacher Name		Student ID	Student Name	Grade	Special Program
