## Access TeacherPortal

[Create an ASCENDER TeacherPortal account.](#)

From the Login page, click **Create Account**. The User Information page is displayed.

To exit without saving any changes, click **Return to Login**.

### User Information:

The screenshot shows the 'User Information' page in the ASCENDER TeacherPortal. At the top, there are two tabs: 'Login' and 'Create Account'. Below the tabs is a progress bar with four steps: 'User Information', 'Basic Information', 'Security Question', and 'Complete'. The 'User Information' step is currently active, indicated by a red dot. Below the progress bar, there are three input fields: 'Staff ID', 'Last Name', and 'First Initial'. Each field has a small icon to its left. At the bottom right of the form, there are two buttons: 'Next' (green) and 'Cancel' (white).

<b>Staff ID</b>	Type your staff ID number.
<b>Last Name</b>	Type your last name
<b>First Initial</b>	Type the first letter of your first name.

Click **Next**.

If you entered the data correctly, the Basic Information step opens.

## Basic Information:

<b>User Name</b>	Type a unique user name that will identify you when you log on to the system, such as a combination of letters from your first and last name. <ul style="list-style-type: none"> <li>Your user name must be 6-25 alphanumeric characters and must be unique within the district.</li> <li>Your user name is not case-sensitive.</li> <li>If you type a name that is already used, available alternatives are suggested.</li> </ul>
<b>Password</b>	Type a password that you will use when you log on to TeacherPortal. <ul style="list-style-type: none"> <li>The password must be 8-46 characters using three of the following: uppercase letters, lowercase letters, numbers, and special characters</li> <li>Your password is case sensitive.</li> </ul>
<b>Password Verification</b>	Retype the password exactly as you typed it above. This step confirms that you typed your password as you intended.
<b>PIN</b>	Type a four-digit numeric personal identification number (PIN) that you will use when you post data in TeacherPortal. <b>Avoid using 1234, 4321, or all the same number, as these are common and easily guessed.</b>

Click **Next**.

If you entered all required data correctly, the Security Question step opens.

## Security Question:

Answer 3:

<b>Question</b>	Select three questions to which you will provide an answer. The questions are asked in the event that you forget your password.  You must select three different questions. You cannot repeat any questions/answers.
<b>Answer</b>	Type the answer to each question. If you forget your password, you will be required to answer the question correctly in order to recover your account. Be sure to select questions for which you will easily remember your answer. Answers are case sensitive.

## License Agreement

Review and accept the End User License Agreement (EULA) for ASCENDER. This agreement must be accepted in order to proceed.

Select **Accept**.

Click **Next**.

If you entered all required data, the Complete page opens.

□ Click **Finish**.

The Announcements page opens.

[Log on to TeacherPortal.](#)

To access TeacherPortal, you must log on. If you are a new user and do not have a user name, you must create a user name.

Returning teachers must re-register each year before logging on, as all TeacherPortal non-administrative user accounts are deleted at the end of each school year. Administrative user accounts are retained.

**WARNING:** If you have three unsuccessful attempts to log on (invalid user name/password combinations), the system locks out your account. If your account is locked out, please contact your campus administrator to have your account reset.

If the district has disabled TeacherPortal, the message "TeacherPortal is Unavailable" is displayed.

<b>User Name</b>	Type your user name. Your user name is not case-sensitive.
<b>Password</b>	Type your password. The typed text is hidden. Your password is case sensitive.

Click **Login**.

The Announcements page is displayed.

For security purposes, your password will expire periodically. If your password is expired, you are redirected to the [Password Expired](#) page before the Announcements page is displayed. Follow the instructions provided in the online Help for the Password Expired page.

[Reset your password.](#)

[Login Page > Reset Password](#)

The Reset Password page allows you to reset a forgotten password or change your password. To reset your password, you must know your staff ID, user ID, and the correct answer to one of your password hint questions; otherwise, you must contact your campus administrator to have your account reset.

- From the Login page, click **Reset Password**.

The Reset Password page opens.

- To exit the Reset Password function without saving any changes, click **Return to Login**.

## Reset Password

<b>Staff ID</b>	Type your six-digit district-assigned staff ID number.
<b>User Name</b>	Type the user name you created when you registered for TeacherPortal.

- Click **Next**.

If you entered the data correctly, the Security Question step opens.

## Security Question:

<b>Answer</b>	One of your hint questions is displayed, as established in your User Profile. Type the answer to your hint question exactly as it appears in your profile.
---------------	--

- Click **Next**.

If you entered the data correctly, the Create New Password step opens.

## Create New Password:

<b>Password</b>	Type a new password. You cannot reuse your last password. <ul style="list-style-type: none"> <li>• The password must be 8-46 characters using three of the following: uppercase letters, lowercase letters, numbers, and special characters</li> <li>• Your password is case sensitive.</li> </ul>
<b>Confirm Password</b>	Retype the password exactly as you typed it above. This step confirms that you typed your password as you intended.

Click **Finish**.

## Navigate TeacherPortal.

Navigation tools are located along the left side of the page, or in the top-right corner. Some tools function differently on mobile devices.

**MOBILE DEVICE USERS:** On a mobile device, tap  to access the side menu.

### District & Campus

The district and campus you are logged onto are listed at the top of the navigation bar. If you currently teach courses at more than one campus, select which campus to view.

### Teacher

Your name is displayed as it is entered at the district's Human Resources department.

### Navigation

Some pages and information are only available if enabled by the district.

**Attendance** - You can post and view attendance.

**Grades** - You can enter assignment grades, as well as cycle and semester grades.

**Reports** - You can access a variety of teacher reports.

**Discipline** - You can enter discipline referrals and view the status of existing referrals.

# Teacher Guide to ASCENDER TeacherPortal

## TeacherPortal Setup

### Beginning of the school year:

The following tasks should be done at the beginning of the year and not modified during the year.

(Optional) [Create course groups](#).

[Settings > Manage Course Groups](#)

[Course Grouping Flow Chart](#)

This page allows you to group courses by semester, which allows you to enter grades, manage categories and assignments, and copy categories and assignments for multiple sections at the same time (e.g., if you teach multiple section of Algebra I) without having to switch from section to section.

**IMPORTANT:** You must group your courses at the beginning of the semester before any categories are added.

Once you have grouped the courses, all categories and assignments for the courses will match. The courses will be displayed as grouped on the following pages:

- [Grades > Assignment Grades](#)
- [Grades > IPR Comments](#)
- [Grades > Print IPR](#)
- [Reports > Class Roster](#)
- [Settings > Manage Assignments](#)
- [Settings > Manage Categories](#)

The following courses cannot be added to a group:

- A standards-based or elementary skills-based course. Only category-based (i.e., regular) courses can be grouped.
- A course that does not exist in the selected semester.
- A course that has already been added to another group, either for the current teacher or a prior teacher. The message “Exists in another group” will be displayed next to the course in the **Ineligible Courses** list.
- A course that has any categories already set up. The message “Already has categories” will be displayed next to the course in the **Ineligible Courses** list.

- A course that has any students who are in another course already added to the group.
- A self-paced course.

The following restrictions also apply:

- A course cannot be added to a group if the group has any categories already set up.
- If the course-section is part of a group, and the teacher for a course changes during the year, the new teacher will not be able to add the course to a group. The message “Exists in another group” will be displayed next to the course in the **Ineligible Courses** list.

[This can be resolved.](#)

To resolve this issue so that the new teacher can add the course to a group, a TeacherPortal administrator must delete the course from the original teacher's group as follows:

1. Log on to TeacherPortal and impersonate the new teacher.
  2. While impersonating the new teacher, go to [Settings > Manage Courses](#). Retrieve the course-section, and then click  to delete the course from the group.
  3. Click **Save**.
  4. Repeat for all applicable courses.
- You must be the class role 01 teacher (i.e., Teacher of Record) for the course in order to add the course to your group. Class role 02 and 03 teachers for the course cannot add the course to a group.

[If the class role 01 teacher becomes unavailable \(e.g., long-term leave\)...](#)

If the class role 01 teacher becomes unavailable (e.g., long-term leave), and a class role 02 or 03 teacher becomes responsible for the class, the courses must be un-grouped (i.e., the course must be deleted from the group). Otherwise, the class role 02 or 03 teacher will not be able to add any additional assignments for the class.

If the class role 01 teacher is unable to un-group his/her courses before leaving, an administrator can un-group the courses.

[Create assignment categories.](#)

[Settings > Manage Categories](#)

This page allows you to establish categories that describe the types of assignments you will use in the selected semester and course-section.

An initial set of categories, defined by the campus, is set at the beginning of the year. If you have an assignment that falls under a category that is not included in the list, you can create a new category, if allowed by the campus. The category you create is added to the master list and will be available for all teachers to use. The list of categories will continue to grow as you and the other teachers add categories.

For your selected categories, you must specify the type of weighting to use for calculating averages (percent-based, point-based, or multiplier-based). You can also assign your own category colors to enable color-coding of assignments on the Assignment Grades page.

From this page, you can also copy categories from one course to other course-sections.

This page is disabled for standards-based courses, because categories are not used for these courses.

This page should not be used for course-sections that are skills-based courses, because categories are not used for these courses.

[Copy categories to other course sections...](#)

About grouped course-sections and teacher changes:

If the course-section is part of a group, and the teacher for a course changes during the year, the new teacher will not be able to make changes to categories. The following message will be displayed: "This course belongs to a group for another teacher. No category maintenance may be done except by that teacher."

In order to resolve this issue so that the new teacher can maintain categories for the course, a TeacherPortal administrator must delete the course from the group. Then, the new teacher can create a new group if needed.

The administrative user must do the following:

1. Log on to TeacherPortal and impersonate the new teacher.
2. While impersonating the new teacher, go to [Manage Courses](#). Select the course-section, and then click  to delete the course from the group. Repeat for all applicable courses.

### 3. Click **Save**.

Specify a course-section:

<b>Semester</b>	Select the semester to set up categories for.
<b>Course-Section</b>	Select the course-section to set up categories for.

Click **Retrieve**.

The available categories are listed under **Available Categories**, and your current category list for the selected course-section is displayed under **Selected Categories**.

Under **Weighting Type**:

Select the weighting type to use for the categories. You must use the same weighting type for all cycles in a semester.

<b>Percentage</b>	If selected, you must assign percentages to each category. The percentages must total 100%.
<b>Point</b>	Point values are determined when the assignment is created. They are not entered on the Manage Categories page. Point values for each category accumulate as assignments are added. When using point-based weighting, the categories are only used for grouping similar assignments. The calculation is based on the total points, not weighting.
<b>Multiplier</b>	If selected, you must provide a multiplier number (between 1-9) for each category. For multipliers greater than one, the individual assignment grades are counted multiple times.

See the [Calculate Averages guide](#) for an explanation of calculating averages for each weighting type.

#### **NOTE:**

The category weight for current cycle can be changed for the current cycle, as long as grades have not been posted.

You cannot change the weighting type for the second semester of a two-semester course. The weighting type must be the same for all semesters of a course.

If you post an override cycle grade for a student even if there are no categories for the course, the weighting type is automatically set to percentage.

Each weighting type is only displayed if the campus allows the weighting type (or if the teacher has already started using the weighting type before the restriction was put in place). Any weighting types not allowed by the campus are not displayed. If you are using a weighting type that the campus decides to disallow partway through the current year, the

following applies:

- You can continue to use the weighting type until the end of the current year. After the current year, that weighting type will no longer be available.
- If you select another weighting type during the current year, you will not be able to reselect the disallowed weighting type.

If a category is specific to a particular weighting type (as specified at the campus level), the category is only displayed on this page if the appropriate weighting type is selected.

Under **Available Categories** (left side):

The available categories are listed in alphabetical order.

If a category weight is locked (by campus admin), a lock icon  is displayed next to the category name. The weight specified by the campus must be used and cannot be changed.

Click **Add Category Type** to add a new category to the list of available categories.

The **Add Category** section is displayed below the available categories.

**Weighting Type**

Weighting Type cannot be changed. Assignment grades exist.

**NOTE:** If the campus disallows teachers from adding categories, the **Add Category Type** button is disabled; you must use the categories established by the campus.

<b>Add Category</b>	<b>Category Name</b>	Type the name of the new category. You cannot type a name that is already included in the list of available categories. Type carefully to avoid spelling errors.  Category names are case-insensitive (e.g., if “quiz” already appears in the list, you cannot add “Quiz”).
	<b>PIN</b>	Type your four-digit PIN.

Click **Save**.  
The new category is displayed in the list of available categories in alphabetical order. You can then add it to your **Selected Categories** list.  
**IMPORTANT:** Once a category is added to the list of available categories, it cannot be deleted from the list. If you add a category by mistake, you must contact your campus administrator to have it removed at the campus level. The category cannot be removed if it has assignments associated with it.

To add one of the **Available Categories** to the **Selected Categories** list, do one of the

following:

- Click-and-hold the category and drag it to the **Selected Categories** list.
- Click  for the category.
- Double-click the category.

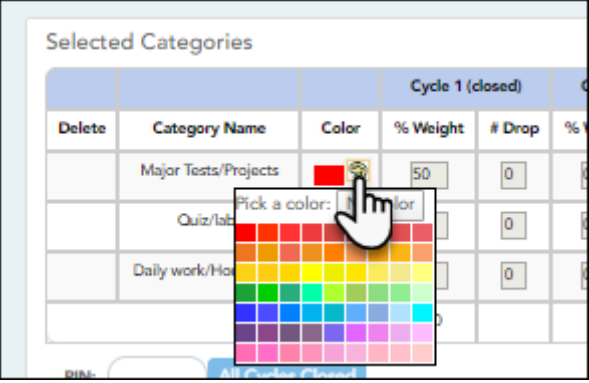

The category is added to the bottom of the **Selected Categories** list. If there is a default or locked weight, that weight is copied to all open cycles.

Under **Selected Categories (right side)**:

All selected categories for the specified course-section are displayed for all cycles in the semester.

The table changes according to your selection in the **Weighting Type** field. For each cycle, the column heading is **% Weight**, **Points**, or **Multiplier** according to your selection.

<b>Cycle #</b>	If a cycle is closed, the column heading for the cycle displays <b>(closed)</b> , and the data cannot be changed.
<b>% Weight</b>	If the <b>Weighting Type</b> is <b>Percentage</b> , type the percentage for each category. The percentages must total 100% for the cycle.  If you select a category created at the campus level, and the campus entered a weight for that category, the weight is displayed in the <b>% Weight</b> field for the category. You can change the weight, unless the campus locked the weight for the category. If the weight is locked, the weight is displayed in the field and cannot be changed.
<b>Points</b>	If the <b>Weighting Type</b> is <b>Point</b> , you cannot enter the total point values in the <b>Points</b> field. The field automatically displays the sum of the total points entered for all assignments for the category. For example, on the Administer Assignments page, if you enter five quizzes in the Quiz category, each with total points set to 100, the field displays 500.
<b>Multiplier</b>	If the <b>Weighting Type</b> is <b>Multiplier</b> , type a value between 1-9.

<p><b># Drop</b></p>	<p>For each cycle, type the number of items to be dropped during a cycle. For example, you may want to drop the student's three lowest grades from the homework category. The student's category average will always reflect the dropped grades.</p> <p>If you do not want to drop any grades from the category, type 0.</p> <p>Only non-excluded grades are dropped. If you exclude an assignment for a student on the <a href="#">Assignment Grades</a> page, the assignment is not counted as one of the grades that will be dropped.</p> <p>Note that you can specify on the Manage Assignments page if you do not want to drop a specific assignment within the category.</p> <p><b>WARNING:</b> If all assignments in the category do not have the same total points value (as entered on the <a href="#">Manage Assignments</a> page), the calculations for dropping a specified number of assignments for the category may result in an average that is different than expected. If the total points value varies, the grade with the lowest number of points may not necessarily be the lowest grade.</p>
<p><b>Color</b> 🎨</p>	<p>Click the icon to select a color for the category. A window opens allowing you to select a color. Click a color to select it.</p>  <p>The selected color is used to color-code assignments on the Assignment Grades page.</p> <p>By default, no color is assigned to the category.</p> <p>The color can be changed any time.</p>
<p>✕</p>	<p>Click to remove a category from your <b>Selected Categories</b> list.</p> <p><b>NOTE:</b> You cannot delete a category that has assignments associated with it during any cycle. To delete a category, you must first delete all grades and assignments for the semester, including grades for withdrawn students. All grades must be deleted before you can delete assignments.</p>

### During the school year:

The following tasks should be done at the beginning of the year but can be modified during the year.

[Create seating charts.](#)

[Settings > Manage Seating Charts](#)

This page allows you to create and maintain seating charts for all of your classes. The seating chart lists the student name, gender, and ID. The seats are color coded by gender.

Student seats can be rearranged at any time.

You must create a new seating chart for each semester of a course. If the course is more than one semester, you can copy the seating chart to subsequent semesters.

**IMPORTANT:** It is recommended that you set the **Combine Courses in Attendance** field on your [Update Profile](#) page the way you want it for the semester before creating the seating chart.

#### [About combining and uncombining courses](#)

If you change the setting of the **Combine Courses in Attendance** field, the data will be preserved as much as possible; however, you must then verify that your seating charts are correct for all periods, make the necessary changes, and then save the seating charts again.

If you change the **Combine Courses in Attendance** field during the semester, the following applies:

- If **Combine Courses in Attendance** was not originally selected and you have only one course per period, you created a seating chart, and then you selected **Combine Courses in Attendance**, the seating chart is not affected; however, you must re-save the seating charts for all periods.
- If **Combine Courses in Attendance** was not originally selected and you have some periods with multiple courses (each with its own seating chart), you created a seating chart, and then you selected **Combine Courses in Attendance**, the following occurs when you retrieve one of the periods on the Seating Chart Setup page:
  - Only the seating chart for the first course in the list is preserved.
  - The remaining students are displayed under Unassigned Students.
  - If the first course in the list has no students enrolled, no seating chart is preserved. You must recreate the chart.
- If **Combine Courses in Attendance** was originally selected and you have only one course per period, you created a seating chart, and then you cleared **Combine Courses in Attendance**, the seating chart is not affected, you must re-save the seating charts for all periods.
- If **Combine Courses in Attendance** was originally selected and you have some periods with multiple courses, you created a seating chart for students from multiple courses, and then you cleared **Combine Courses in Attendance**, the following occurs when you retrieve a period/course on the Seating Chart Setup page:
  - Only the chart dimensions of the seating chart for the first period/course you

attempt to edit is preserved.

- Only seats for students enrolled in the course are preserved.
- The remaining students are displayed under **Unassigned Students**.
- You must recreate the chart for the other courses that were previously combined in the period.

If a student transfers to the class, he is listed under **Unassigned Students**.

If a student drops the course, his seat is blank.

ASCENDER TeacherPortal - Teacher Guide

<b>Date</b>	Type a date in the MMDDYYYY format, or click  to <a href="#">select a date from the calendar</a> . The date is used to verify current enrollment in the class. <b>NOTE:</b> If you are setting up a seating chart before the first day of school, enter the date of the first class.
<b>Semester</b>	The current semester is displayed by default. You can select another semester.
<b>Period</b>	Select the period-course to create a seating chart for.  By default, the field displays the first period for which you have not posted attendance. <b>NOTE:</b> If <b>Combine Courses in Attendance</b> is selected on your <a href="#">Settings &gt; Update Profile</a> page, the courses are combined by period.

If a seating chart already exists for the period, the seating chart is displayed.

<b>Layout Options</b>	<p>Select a layout for the seating chart:</p> <p><i>Alphabetical by row</i> - Students are placed in alphabetical order by last name starting at the front-left corner of the room (from the teacher's perspective) and continuing horizontally, filling each seat until all students are placed. Empty seats are at the back of the room.</p> <p><i>Alphabetical by column</i> - Students are placed in alphabetical order by last name starting at the front-left corner of the room (from the teacher's perspective) and continuing vertically toward the back of the room, filling each seat until all students are placed. Empty seats are on the right side of the room.</p> <p><i>Numerical by row</i> - Students are placed in numerical order by student ID starting at the front-left corner of the room (from the teacher's perspective) and continuing horizontally, filling each seat until all students are placed. Empty seats are at the back of the room.</p> <p><i>Numerical by column</i> - Students are placed in numerical order by student ID starting at the front-left corner of the room (from the teacher's perspective) and continuing vertically toward the back of the room, filling each seat until all students are placed. Empty seats are on the right side of the room.</p> <p><i>Random</i> - Students are placed in random order. If there are more seats than students, the empty seats are at the back of the room. Every time you click <b>Preview Layout</b>, the random order changes; you can try multiple random layouts until you find one that works best.</p> <p><i>Blank</i> - A blank seating chart is displayed, and all students are listed either beside or below the chart (depending on the size of the chart). You can drag students from the <b>Unassigned Students</b> list to the seating chart. If you previously saved a seating chart and return to this page, the student seats are arranged according to your last saved layout; however, the <b>Layout Options</b> field is always set to <i>Random</i> by default. Even if you selected an alphabetical or numerical arrangement, you may have manually moved students; therefore, the program assumes the students may have been moved.</p>
<b>Rows Columns</b>	Type the number of rows (horizontal) and columns (vertical) for the seating chart. You can have up to 11 rows and 11 columns.

Click **Preview Layout**.

The seating chart is displayed according to the criteria entered.

**REMINDER:** When you click **Preview Layout**, the changes are not saved. You must type your PIN and click **Save Seating Chart** to save the changes.

<b>Unassigned Students</b>	If there are more students enrolled in the class than seats available, the extra students are listed either beside or below the seating chart (depending on the size of the chart).
<b>Show Pictures</b>	Select to display student photos in the seating chart. Photos are only available if they have been added by the district.

- Each seat lists the student's name, gender, and student ID.
- You can click the student ID to view the [student's profile](#).
- The seats are color-coded by gender. Seats for females are shaded pink, and seats for males are shaded blue.

You can manually arrange students as needed by dragging a student to a new location.

- If a student is dragged to a new location that is currently occupied, the two students switch seats.
- If the student is dragged to an unoccupied location, his original location becomes unoccupied.
- You can drag students to and from the **Unassigned Students** list. If a student is dragged to a new location that is currently occupied, the two students switch places. The student from the list now has a seat, and the student who had a seat is now in the list.
- To re-sort the students using one of the layout options, select an option from the **Layout Options** field, and then click **Preview Layout**. The students are sorted according to the new layout.

Click **Save Seating Chart**.

**Print the seating chart:**

Click **Print**.

The [Seating Charts Report Selection](#) page opens allowing you to make selections for running the report.

[Generate seating chart report.](#)

[Reports > Seating Charts](#)

This report prints a teacher's seating charts for all periods or one period. For each period, the seating chart is displayed followed by a list of students who are not assigned to seats. The seating chart lists the student name, gender, and ID.

If printed for all periods, each period prints on a separate page.

**NOTE:** If that field has been changed, and the seating charts have not been re-saved on [Settings > Manage Charts](#) since the setting was changed, a warning message is displayed when the report is generated indicating that the reports will not be accurate until the Manage Seating Charts page has been re-saved. You must review the seating chart for each period on the Manage Seating Charts page, make any necessary changes, and then re-save each chart.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.
<b>Period</b>	Select the period-course(s) to print the seating chart for, or select <i>ALL CLASSES</i> to print seating charts for all periods.  If <b>Combine Courses in Attendance</b> is selected on your <a href="#">Settings &gt; Update Profile</a> page, the courses are combined by period.

<b>width</b>	Select the width setting for the report.	
	<b>Fixed Seat Width</b>	Select to print a report in which all seats are the same width.  This setting works for small and average-size classes. For larger classes, some seats may not print on the page.
	<b>Auto-Adjusted Seat Width</b>	Select to print a report in which each column is adjusted to the student name. Each column is only wide enough to accommodate the longest name in the column; therefore, some columns are wider than others. This setting is a better option for larger classes.
For either width setting, you can adjust the orientation when you print. Select <b>Landscape</b> to increase the number of students that fit on the page.		
<b>Show Pictures</b>	Select to display student photos in the seating chart. Photos are only available if they have been added by the district.	

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

To use a rubric for grading an assignment, you must first create the rubric, and then associated the rubric with a particular assignment.

[Settings > Set Up Rubrics](#)

This page allows you to create rubric charts that can be used for grading assignments. A rubric chart is a set of criteria (i.e., skills) used for assessing a student's work or performance and includes levels of potential achievement (i.e., scores) for each criterion.

Once a rubric is created, you can associate the rubric chart with an assignment on [Settings > Manage Assignments](#). Then, the rubric will be available for the assignment on [Grades > Assignment Grades](#).

A grid is displayed allowing you to enter criteria (i.e., skills) and scores for each criterion.

Add **Skills**:

To add skills to the rubric chart, type the first skill name, up to 50 characters, and click **Add Skill**. The skill is added to the grid, and a blank field is displayed allowing you to add another skill.

The screenshot shows the 'Add Score' form. At the top is a blue 'Add Score' button. Below it is a 'Scores' section with a table structure. The table has two columns: 'Low Points' and 'High Points', both with input fields containing '0'. Below the table is a 'Skills' section with a yellow background. A single skill, 'Organization', is listed in a rounded rectangle. At the bottom left is a blue 'Add Skill' button with a red arrow pointing to it. At the bottom right is a blue 'Save' button and the text 'Total Points: 0'.

Continue adding skills as needed.

The screenshot shows the 'Add Score' form with the 'Skills' section expanded. The 'Skills' section has a yellow background and contains five skills, each in a rounded rectangle with a small 'X' icon to its left: 'Organization', 'Focus and Detail', 'Sentence Structure, Grammar, and Spelling', 'Word Choice', and 'Citations'. The 'Scores' section above has the same 'Low Points' and 'High Points' columns with '0' in the input fields. At the bottom left is a blue 'Add Skill' button. At the bottom right is a blue 'Save' button and the text 'Total Points: 0'.

#### □ Add **Scores**:

Each rubric chart must have at least one column under **Scores**.

Establish a set of score names. For example, you could create the following set of five score names: Not Attempted, Below Average, Average, Above Average, and Exceeds Expectations.

To add a score, type the first score name (e.g., Not Attempted), up to 50 characters, and then click **Add Score**. The score is added to the grid, and a blank field is displayed allowing you to add another score.

The screenshot shows the 'Add Score' interface. At the top left, there is a blue button labeled 'Add Score' with a red arrow pointing to it. Below the button is a 'Scores' section with a table structure. The table has two columns: 'Skills' and 'Points'. Under 'Skills', there are two rows: 'Organization' and 'Focus and Detail'. Under 'Points', there is a yellow button labeled 'Below Average' and two input fields for 'Low Points' and 'High Points', both containing the number '0'.

Continue adding scores as needed.

The screenshot shows the 'Add Score' interface with a grid of four score entries. Each entry has a yellow button for the score name and two input fields for 'Low Points' and 'High Points'. The scores are: 'Below Average', 'Average', 'Above Average', and 'Exceeds Expectations'. All 'Low Points' and 'High Points' fields contain the number '0'.

Enter **Low/High Points**:

For each score, use the **Low Points** and **High Points** fields to establish a range of possible points within each score. Or, you can assign a single point value for each score.

The fields can have up to three digits.

The screenshot shows the 'Add Score' interface with a grid of four score entries. Each entry has a yellow button for the score name and two input fields for 'Low Points' and 'High Points'. The scores are: 'Below Average', 'Average', 'Above Average', and 'Exceeds Expectations'. The 'Low Points' and 'High Points' fields contain numerical values: 1 and 6 for 'Below Average', 7 and 12 for 'Average', 13 and 18 for 'Above Average', and 19 and 20 for 'Exceeds Expectations'.

---

**Example 1 (with score ranges):**

Within each score, you can establish a range of possible points:

The *Not Attempted* score may have **Low Points** and **High Points** both set to 0, because 0 points would be awarded if the student did not attempt the skill.

The *Below Average* score may have **Low Points** set to 1, and **High Points** set to 10, so a student who performed below average on the skill can earn between 1 and 10 points.

The *Average* score may have **Low Points** set to 11, and **High Points** set to 20, so a student who had average performance on the skill can earn between 11 and 20 points.

The *Above Average* score may have **Low Points** set to 21, and **High Points** set to 30, so a student who had above average performance on the skill can earn between 21 and 30 points. The highest score a student could receive would be 30.

The *Exceeds Expectations* score may have **Low Points** set to 31, and **High Points** set to 40, so a student who had above average performance on the skill can earn between 31 and 40 points. The highest score a student could receive would be 40.

In this example, if 10 skills were scored, the student could earn a maximum of 400 points for the assignment.

---

**Example 2 (without score ranges):**

To assign a specific number of points to each score, type the number of possible points in the **Low Points** field and leave the **High Points** field blank. When you save, the **High Points** field will automatically be set to the value in the **Low Points** field.

The *Not Attempted* score may have **Low Points** set to 0, because 0 points would be awarded if the student did not attempt the skill. Leave **High Points** set to 0 or blank.

The *Below Average* score may have **Low Points** set to 1, because 1 point would be awarded if the student had below average performance for the skill. Leave **High Points** set to 0 or blank.

The *Average* score may have **Low Points** set to 2, because 2 points would be awarded if the student had average performance for the skill. Leave **High Points** set to 0 or blank.

The *Above Average* score may have **Low Points** set to 3, because 3 points would be awarded if the student had above average performance for the skill. Leave **High Points** set to 0 or blank. The highest score a student could receive would be 3.

The *Exceeds Expectations* score may have **Low Points** set to 4, because 4 points would be awarded if the student had above average performance for the skill. Leave **High Points** set to 0 or blank. The highest score a student could receive would be 4.

In this example, if 10 skills were scored, the student could earn a maximum of 40 points for the assignment.

Enter a score note:

(Optional) For each skill, type a note about the score as it relates to the specific skill, up to 255 characters. The note is used to further clarify the requirements for awarding points for the skill.

See [Notes on Special Characters](#) and [Copy/Paste From Other Documents](#).

**TIP:** You can expand the size of the fields by dragging the bottom-right corner of the field to the desired size. When you save the note, the field will return to its original size.

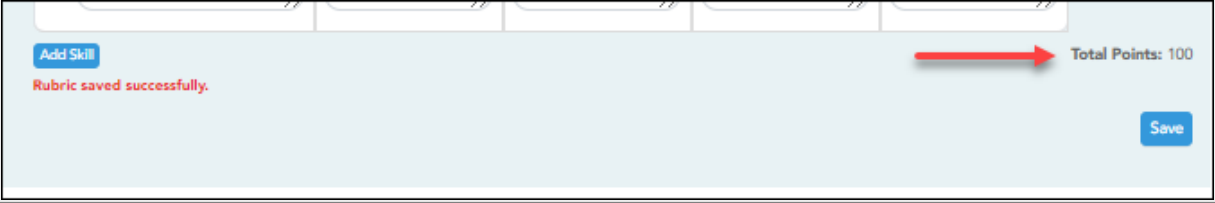

Scores must be entered in ascending order from left to right.

Scores cannot be out of sequence; however gaps can exist.

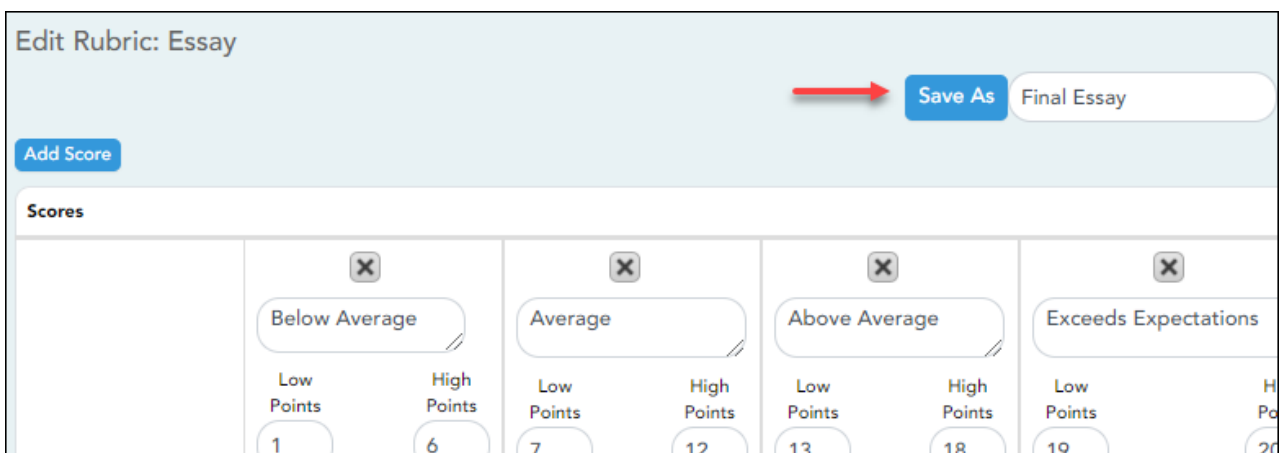

Click **Save**.

**Total Points** The highest possible number of points a student can earn for this assignment is calculated and displayed in the bottom-right corner. The number changes every time you save changes that affect the total possible points for the rubric chart.

The screenshot shows a light blue interface with a 'Total Points: 100' label in the bottom right corner. A red arrow points to this label. Other visible elements include an 'Add Skill' button, a 'Rubric saved successfully.' message, and a 'Save' button.

□ To save a copy of the displayed rubric chart with another name (e.g., to use the rubric chart as a template for another rubric chart), type the new name in the field next to the **Save As** button, then click **Save As**.

The screenshot shows the 'Edit Rubric: Essay' interface. At the top right, there is a 'Save As' button and a text field containing 'Final Essay'. A red arrow points to the 'Save As' button. Below this, there is an 'Add Score' button and a 'Scores' section with four columns representing different performance levels: 'Below Average', 'Average', 'Above Average', and 'Exceeds Expectations'. Each column has 'Low Points' and 'High Points' input fields.

The new rubric chart is added to the **Available Rubrics** list. The new rubric chart can be modified as needed.

### Edit a rubric chart:

□ Under **Available Rubrics** (left), click  for the rubric chart you want to change.

The rubric chart opens under **Editing Rubric** (right). Modify the chart as needed, and then click **Save**.

#### NOTE:

If you attempt to edit a rubric chart that is in use, a message is displayed indicating the number of assignments using the rubric chart; however, you are not prevented from modifying some parts of the rubric chart:

- The skills cannot be changed.
- You cannot add a skill; the **Add Skill** button is not displayed.
- You must keep at least one column under **Scores**.
- The score note field can be modified.
- You can add scores, but you must maintain the same **Total Points**.

### Delete a rubric chart:

Under **Available Rubrics** (left), click  to delete an existing rubric chart.

You are prompted to confirm that you want to delete the rubric chart. Click **OK**.

**NOTE:** You cannot delete a rubric chart that is in use (i.e., associated with any assignment).

### Associate a rubric with an assignment:

- In the **Scores** field, type the number of points earned by the student for each skill.

For your reference, the **Max Points per Skill** field displays the highest number of points for a skill, as indicated on the Rubric Setup page; however, you are not prevented from entering a score above this number.

- When all scores have been entered, click **Update Assignment Grade**.

The grade (i.e., the sum of all scores entered) is calculated and displayed in the grade field.

- Type your PIN and click **Save**.

**NOTES:**

- You can type a grade directly into the grade field even if a rubric chart is assigned to the assignment.
- When entering a score for a skill, you are not limited to the range specified in the rubric chart. For example, if the score range is 0-5, you are not prevented from typing 0 or 6.
- If the grade for the assignment should be zero, you must type 0 for one of the skill scores in the rubric chart.
- If you type a score for some skills but not all skills in the rubric chart, the sum of the scores entered is calculated and displayed in the grade field.

There are two ways to access the rubric printing options:

- From the Manage Rubric Charts page, click **Print**.
- From the Reports menu, select **Rubrics**.

**Print the rubric chart:**

Click **Print** to print a report of the displayed rubric chart.

The [Rubric Report Selection](#) page opens allowing you to make selections for printing the report.

This report prints a rubric chart which has been set up on [Settings > Manage Rubric Charts](#). You can print only the rubric chart (i.e., blank), or you can print the rubric chart with student grades for a particular assignment.

## Rubric Report Selection

**Rubric Name:** Essay ▼ **Title (Optional):**

Specify report options:

<b>Rubric Name</b>	Select the rubric chart you want to print. Only rubric charts that have skills and scores already set up are listed.
<b>Title</b>	(Optional) Type a title for the report, up to 50 characters. If blank, the rubric chart name is used as the title.
<b>Print with grades</b>	Select to print the report with student grades. This field is only displayed if the selected rubric chart has already been used to grade an assignment.  If selected, an additional field is displayed allowing you to select a course-section. Only course-sections that have a rubric chart set up are listed.
	<b>course-section</b> Once you select a course-section, another field is displayed allowing you to select the assignment that was graded with a rubric chart.
	<b>assignment</b> Once you select an assignment, a list of students in the course-section is displayed, along with their grade for the assignment.
	<b>This Student</b> Select for the students you want to print the rubric for. You can select <b>Check all</b> at the top of the column to select all students in the course-section.

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

## Manage Student Groups

**Settings > Manage Student Groups**

This page allows you to create and maintain groups of students for reporting purposes. The

student groups can be campus-wide and are not limited to a particular course-section. Special group reports are available to provide data for the student groups.

Teachers are given access by administrators to create student groups as follows:

- **No access:** (Teacher cannot create student groups.) If you do not have access, the Student Group Manager page is not listed in the menu.
- **Course-wide access:** (Teacher can create student groups that include only students enrolled in your courses.)
- **Campus-wide access:** (Teacher can create student groups that include any students at the campus.) If you do not have this access, an administrative user (impersonating you as the teacher) can create groups for you. Groups can only be created for teachers who have a TeacherPortal account.

Users can run group reports for their own groups, regardless of who created the group.

- To resort the list by another column heading, click  in the column heading. The column is sorted in ascending order, as indicated by  in the column heading.
- To sort the column in descending order, click  again. The sort arrow changes direction .

If you sort by the last name column, the table sorts by last name, then first name. If you sort by the first name column, the table sorts by first name, then last name.

**NOTE:** Sorting the columns overrides the custom sort order established on the Arrange Student Order page. However, if you leave this page and return, the students are displayed in your custom sort order. (This does not apply on the Post/View Attendance page.)

- If attendance is already posted for the selected date-period-course, the attendance data is view only.

- Student absences and tardies are highlighted, and you can click the comments icon  to view any comments associated with the absence.
- If a student withdrew from the course since attendance was posted for the date, his attendance record is displayed.
- If a student's enrollment date is after the selected attendance date, his attendance record is not displayed.
- If you teach multiple courses for the selected period, by default, all students in all courses are listed. This setting can be changed using the **Combine Courses in Attendance** field on Settings > Update Profile.
- New students are indicated with the “new” icon next to their student ID. The icon remains for one day only.

- Attendance-only courses are included in the class list.
- Students whose attendance is excluded from reporting are listed, but you cannot record attendance. (This is a rare circumstance.)
- Students who withdrew from the course are no longer listed.

<b>Student ID</b>	The student's ID is displayed. Click the student ID to view the <a href="#">student's profile</a> .
	The Star of Life icon is displayed for any student who has medical circumstances you should be aware of. To view details, click the student ID to view the <a href="#">student's profile</a> ( <b>Medical Alerts</b> section).
<b>Last Name</b> <b>First Name</b>	The first and last names of the students in the selected course-period are listed.

Under **Attendance**:

By default, all students are set to **Present**. You will see these options if your campus chooses to use **Remote Asynch** attendance, **Remote Sync** attendance, or **Both**.

*Present* - physically present in the classroom

*Remote Synch* - online at the time of class

*Remote Asynch* - will complete the assignment at a later time

As you mark students **Absent** or **Tardy**, the rows change color.

- Tardy students are shaded yellow.
- Absent students are shaded red.

If a student's absence is pre-posted (e.g., a scheduled band trip or a student who called in sick), the student is shaded gray, and the **Attendance** field displays the reason for the absence. Pre-posted absences are handled by the attendance clerk, so you are not able to mark attendance for the student.

 The  icon is displayed next to the attendance, if the attendance clerk entered comments associated with a student's attendance for the date and period displayed.

Click the icon to view the comments. The Comments window opens, and the comments are displayed. The date-time and user ID of the person who entered the comments are also displayed.

Click **Close** to close the Comments window.

- The **Absent** and **Tardy** fields are disabled during the ADA period, on the first day of school, and on the first day of enrollment.

- The **Absent** and **Tardy** fields are enabled during the ADA period if the student has a withdrawal reason due to a status change.

The **Tardy** field may not be displayed depending on campus attendance settings.

If the district allows tardies during the ADA period, the tardies may only be valid during a set number of minutes for the period. After this number of minutes has passed, the student should no longer be marked as **Tardy** and should be marked as **Absent**, although the program does not prevent you from marking a student as **Tardy** (except on the first day of semester 1). The number of minutes is determined by the district. If applicable, a message is displayed above the table indicating when tardies are valid.

### Attendance

PIN:

Date: 04/21/2020    Semester: 2    Period: 02

Tardies are only valid during the first 10 minutes of the period. After that time the student should be considered absent.

Students who are on a track that does not meet on the selected date are listed; however, the **Absent**, **Tardy**, and **Present** fields are replaced by a message indicating that the date is not a membership day for the student.

Students whose first day (or re-entry day) is not the official first day of school cannot be marked absent during the ADA period on their first day. The **Absent** option is disabled.

<b>Grade</b>	The student's grade level is displayed.
<b>Course Section</b>	The course-section is displayed.
<b># Students</b>	The total number of students enrolled in this period is displayed at the bottom of the <b>Student ID</b> column.
<b>Print</b>	Click to print the attendance roster for one period or all periods. The <a href="#">Attendance Roster Report Selection</a> page opens allowing you to make selections for printing the Attendance Roster report.

**Post attendance:**

- After you have recorded attendance for the course, review your input carefully.

Be sure to follow procedures established by the district for recording attendance.

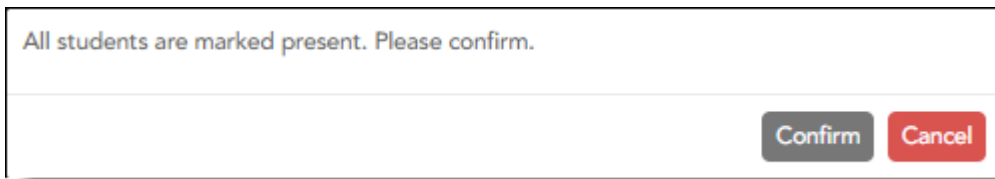

When you are satisfied with your attendance input, you must post the data.

**PIN** Type your four-digit personal identification number (PIN). For your convenience, the **PIN** box and **Post** button are displayed at the top and bottom of the attendance list. You can use either box to post attendance.

**NOTE:** Once attendance is posted the **PIN** box and **Post** button will be disabled.

Click **Post**.

If you indicated that all students are present (and no absences were previously entered by the attendance clerk), you are prompted you to confirm that all students are marked present.

A confirmation dialog box with a white background and a thin border. The text inside reads "All students are marked present. Please confirm." in a blue font. At the bottom right, there are two buttons: a grey "Confirm" button and a red "Cancel" button.

All students are marked present. Please confirm.

Confirm Cancel

Click **Confirm** to confirm.

Attendance is posted.

[Generate attendance verification report.](#)

[Reports > Attendance Verification](#)

This report displays attendance for all of your students for a selected course-section and date range. You can view data for up to one semester. You can also generate a summary report that displays only totals for the selected date range.

The following codes are used:

- A - Excused absence
- S - School-related absences
- T - Tardy
- X - Truant

An asterisk next to the attendance code indicates that the absence or tardy occurred in a course other than the course the student is currently enrolled in (e.g., if he transferred from one course to another during the school year).

**NOTES:**

- Inservice work days are indicated with an I in the column heading.

- Saturday may be a valid attendance date, even if the course does not meet on Saturday. This may be used for bad weather makeup days.
- If you are printing the report for more than three weeks, you should set the printer orientation setting to landscape or the **Page Scaling** field to *Shrink to Printable Area*. If the *Shrink to Printable Area* setting is not enabled, the landscape orientation will accommodate up to six weeks plus the **Total** column per page. Additional weeks (up to one semester) can be generated by entering the appropriate dates in the **From Date** and **To Date** fields; however, the report will print on multiple sheets of paper with a **Total** column on each page.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.
<b>Course-Section</b>	Select the course-section and period for which to print the report.

<b>From Date To Date</b>	Enter the beginning and ending dates. Both dates must fall within the selected semester.
<b>Include Withdrawn Students</b>	Withdrawn students are not automatically included. Select the field to include withdrawn students in the report.
<b>Summary Only</b>	Select to display only totals for the selected date range. If not selected, the report lists all absences for the selected date range.

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

[Generate attendance rosters.](#)

[Attendance > Attendance Rosters](#)

This page allows you to print attendance rosters for one course or all of your courses at one time. A signature line is provided at the bottom of each period-course.

<b>Date</b>	Type a date in the MMDDYYYY format, or click  to <a href="#">select a date from the calendar</a> .
<b>Semester</b>	The current semester is displayed by default. You can select another semester.
<b>Period</b>	Select the period-course for which you want to print the roster. Or, select <i>ALL CLASSES</i> to print rosters for all periods.
<b>Sorting Options</b>	Indicate if you want to sort the rosters by student ID, last name, first name, or course-section.

Click **Generate**.

- The report selection page remains open on your desktop.

[Generate seating chart report.](#)

[Reports > Seating Charts](#)

This report prints a teacher's seating charts for all periods or one period. For each period, the seating chart is displayed followed by a list of students who are not assigned to seats. The seating chart lists the student name, gender, and ID.

If printed for all periods, each period prints on a separate page.

**NOTE:** If that field has been changed, and the seating charts have not been re-saved on [Settings > Manage Charts](#) since the setting was changed, a warning message is displayed when the report is generated indicating that the reports will not be accurate until the Manage Seating Charts page has been re-saved. You must review the seating chart for each period on the Manage Seating Charts page, make any necessary changes, and then re-save each chart.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.	
<b>Period</b>	Select the period-course(s) to print the seating chart for, or select <i>ALL CLASSES</i> to print seating charts for all periods.  If <b>Combine Courses in Attendance</b> is selected on your <a href="#">Settings &gt; Update Profile</a> page, the courses are combined by period.	
<b>width</b>	Select the width setting for the report.	
	<b>Fixed Seat Width</b>	Select to print a report in which all seats are the same width.  This setting works for small and average-size classes. For larger classes, some seats may not print on the page.
	<b>Auto-Adjusted Seat Width</b>	Select to print a report in which each column is adjusted to the student name. Each column is only wide enough to accommodate the longest name in the column; therefore, some columns are wider than others. This setting is a better option for larger classes.
	For either width setting, you can adjust the orientation when you print. Select <b>Landscape</b> to increase the number of students that fit on the page.	
<b>Show Pictures</b>	Select to display student photos in the seating chart. Photos are only available if they have been added by the district.	

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

[Generate class roster report.](#)

[Reports > Class Roster](#)

This report provides a blank class roster by semester and course, including a list of students enrolled in the course and up to 50 blank columns. You can choose the sort order and whether to include the student’s birth date and contact information. The report can be exported in CSV format.

If you print the report for a course group, the **Course Section** column is included allowing you to identify the course-section in which the student is enrolled.

**Rubric**

You can assign an existing rubric chart to the assignment, which allows you to grade the assignment using a rubric chart. The rubric charts are created on [Settings > Rubric Setup](#).

- If a rubric chart is not currently associated with the assignment, the  icon (three black squares) is displayed.
- If a rubric chart is currently associated with the assignment, the  icon (four multicolored squares) is displayed.

Click the icon to associate a rubric chart with the assignment or to change the associated rubric chart. The rubric chart window opens.

Under **Available Rubrics**, any rubric charts you have created that have at least one skill and one score are listed.

**Average:**

**Weight:**  %

**Date:** The student's transfer date is displayed by default. You can type over the date in the MMDDYYYY format. Or, click  to [select a date from the calendar](#).

**From:** The teacher name, course number, and section are displayed for the course from which the student transferred. This data is only displayed if the student transferred from a different section of the same course and has a transfer average.

**Average:** The student's transfer average is displayed if available. Otherwise, you can type the student's walk-in average.

This is the student's average in the class from which he transferred. You can enter a numeric grade or an alphabetical (ABCD or ESNU) grade.

**NOTE:** If a student transferred from a course that posts letter grades to a course that posts numeric grades, and a letter grade is entered for his transfer average, the student's working cycle average is displayed as a numeric grade.  
 See the [Calculate Averages guide](#) for an explanation of calculating averages for each weighting type for an explanation of calculating averages for transfer students.

**Weight:** The field displays 0 for a transfer student who has not yet been accepted into the class.

To accept the student into your class, type the weight you want to apply to the student's transfer average. For example, if a student transferred three weeks into a six-week cycle, you may want to enter a weight of 50%. The maximum weight you can enter is 100.

The student's transfer icon remains red until a weight is entered and saved.

Once you enter and save a weight, the student's transfer icon turns blue . The blue icon remains until the end of the semester.

Click **Ok**.

If you entered and saved the transfer average data for the student, his walk-in average is calculated in his working cycle average.

**NOTE:** The changes are not actually saved until you type your PIN and click **Save Grades**.

**Clear:** Clear all data previously entered for the transfer student.

**NOTE:** Any course assignments that were due prior to the student's transfer date are excluded for the student, and the Exclude indicator  is displayed for the assignments. You can override the exclusion if you want the transfer student to complete an assignment that was due prior to his transfer date.

To override the exclusion, click  , clear the **Exclude** field. Click **OK** and save.

**NOTE:** For standards-base courses, accepting a transfer student is a manual process. The transfer icon is not displayed.

**Calculating the average for a transfer student:**

If a student transfers into the course during a cycle, the following calculations are used to determine his working cycle average:

**Formula for transfer student:**

For the transfer grade, multiply the Transfer Average by the Transfer Weight:

$$\text{Transfer Average} \times \text{Transfer Weight} = \text{Transfer Value}$$

**For example:**

1. The student's Transfer Average is 74.

The student's Transfer Weight is 55%.

$$74 \times 55\% = 40.7$$

The student's Transfer Value is 40.7.

Calculate the average of the student's assignment grades (for the remainder of the cycle) using the steps described above under Percent-based, Point-based, or Multiplier-based.

2. **For example:**

The percent-based example above shows a Working Cycle Average of 87.

Calculate the weight for the Working Cycle Average:

$$100\% - \text{Transfer Weight} = \text{Working Cycle Average Weight}$$

**For example:**

3. The student's Transfer Weight is 55%.

$$100\% - 55\% = 45\%$$

The student's Working Cycle Average Weight is 45%.

Calculate the Working Cycle Average Value.

$$\text{Working Cycle Average} \times \text{Working Cycle Average Weight} = \text{Working Cycle Average Value}$$

**For example:**

4. The student's Working Cycle Average is 87.

The student's Working Cycle Average Weight is 45%.

$$87 \times 45\% = 39.15$$

The student's Working Cycle Average Value is 39.15.

Take the sum of the Transfer Value and the Working Cycle Average Value.

$$\text{Transfer Value} + \text{Working Cycle Average Value} = \text{Actual Working Cycle Average}$$

**For example:**

5. The student's Transfer Value is 40.7.

The student's Working Cycle Average Value is 39.5.

$$40.7 + 39.5 = 80.2$$

The student's Actual Working Cycle Average is 80.

If a student transferred from a course that posts letter grades to a course that posts numeric grades and a letter grade is entered for his transfer average, the grade conversion table is used to determine the numeric value.

For campuses that use curriculum and test taking systems (e.g., Eduphoria and Eduphoria), click the icon to import a data file that only includes the student's ID, assignment grade, first name, and last name.

**NOTE:** The import function is not available on mobile devices.

- Only .csv and .txt files can be imported. The text file must be comma-separated data with one student per row.
- Attempting to import for students not in the course will create exceptions errors that cause the import to fail. Deleting these rows should allow the import to be successful.
- You can only import assignment grades for existing students.
- You can only import grades where students has blank grades for the particular assignment. If the student already has grades, the data is displayed in red and crossed out.

**Steps for importing the data file:**

Click  to import grades for the assignment.

The Import Assignment Grades window opens allowing you to upload the data file, review the data, and import the file.

Under **Step 1**, click **Browse** to select the data file. Locate and open the file.

The file name is displayed.

Click **Upload File**.

When the upload is complete, the “Success” message is displayed indicating the name of the uploaded file.

Under **Step 2**, review the default file format and adjust the columns of your data if necessary:

Under **To Column**, the default file format is listed. The format is determined according to the type of data found in the uploaded file. For example, a six-digit string of numbers is assumed to be the student ID, and a string of up to three characters is assumed to be an assignment grade. There are four columns:

- Student ID
- Assign Grade
- First Name
- Last Name

**NOTE:** For the six-digit student ID, include all leading zeros.

Under **From Column**, make adjustments as needed.

For example, if the default file format has the first name before the last name, and you want the last name before the first name, you can change the columns under **From Column** accordingly (i.e., change column 3 to 4, and change column 4 to 3).

**NOTE:** The order of the first and last names is not important when uploading this file.

If you assign the same column number to more than one column, the message “duplicate” is displayed by the duplicated column. You must correct this before proceeding.

As you make any changes under **Step 2**, the data displayed under **Step 3** changes accordingly. Review the data under **Step 3** before importing the file.

When the data under **Step 3** is being refreshed, the message “validating” is displayed. Wait until the message goes away.

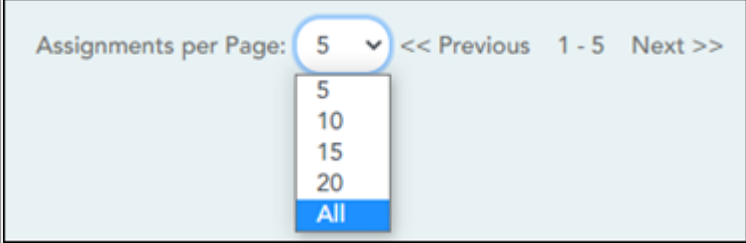

• If errors are encountered, the records with errors are displayed in red with a strikethrough. The number of errors found is listed below the grid. Errors may include mismatched or invalid data.

• Currently, the only acceptable error is an error due to the student already having a grade for the assignment. Exception errors due to invalid records will cause the import to fail.

When you are satisfied with the data under **Step 3**, click **Import Now** under **Step 4**. The data is imported, and the assignment grade fields on the Assignment Grades page are populated with data from the import file.

The **Import Now** button is disabled if there are no valid records to import.

**NOTE:** If the course has any withdrawn students, the import file has a record for the withdrawn students. Therefore, you must select **Show withdrawn students** on the Assignment Grades page to import the grade for the withdrawn students. If you do not select **Show withdrawn students**, the import file will generate errors for the withdrawn students.

<b>Assignments per Page</b>	<p>By default, the page displays only the first five assignments. You can change the number of assignments displayed.</p> <p>To print all assignments, select <b>All</b> from the drop-down menu or select the number of specific assignments to be printed.</p> 
<b>Previous/Next</b>	If there are more assignments, use the buttons to view the other assignments.

Enter the grades in the grid.

#### NOTES:

- Only whole numbers can be entered for numeric grades.
- To add extra credit points, you can add points to the assignment grade.
- When you enter or change a grade, the table cell turns gray to indicate that the grade was changed but not yet saved. Once you save the assignment grades, the cell is no longer gray.
- If you type an invalid grade, such as a letter grade that does not have a conversion value, the cell is shaded red. You must correct the entry before you can save the grades.
- Dropped grades are italicized.
- If the course is set up for alphabetical or ESNU grade posting, you can type letter grades or numeric grades. If you type a letter grade, it is automatically converted to a numeric grade for calculating the working cycle average, according to the conversion values set by the campus.
- Other codes can be typed in place of a grade:
  - M - Missing
  - I - Incomplete (If you type I for any grade, the student's working cycle average will be I until a grade is entered.)
  - X - Excluded (The X functions the same way as clicking the note icon and selecting **Exclude** from the Grade Properties window.)
  - Only one shortcut code can be entered per assignment grade.
- If the campus has disabled posting of grades for prior cycles, you cannot make changes to assignment grades for previous semesters-cycles. The **Save Grades** button is disabled.

- Grades can be entered in the shaded fields for the selected skills on the Assignment Grades page. The field will change from gray to white and the grades will print on the report card. However, grades should not be entered in the shaded fields for the selected skills for the **Semester** and **Cycle** that appear gray on the Assignment Grades page.
- You can navigate through the grade fields [using the keyboard](#)

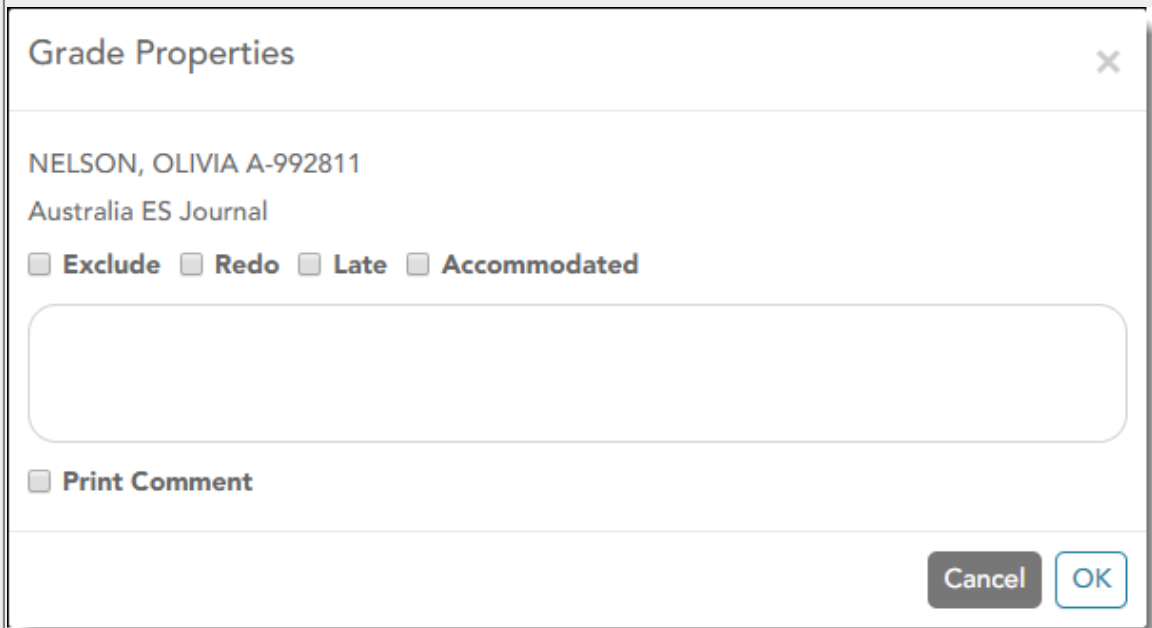

Press ENTER after you type each grade to move down the list to the next student. You can press SHIFT+ENTER to move up the list. You can also press the up and down arrow keys to move up and down the list.

Press TAB to move across the list to the next assignment. You can press SHIFT+TAB to move back to the left.

.

Next the grade field, click  to open the Grade Properties window where you can add comments or indicators (e.g., excluded, late, re-do, or accommodated) associated with an assignment.

The dialog box titled "Grade Properties" shows the student name "NELSON, OLIVIA A-992811" and the course "Australia ES Journal". It contains four indicator checkboxes: "Exclude", "Redo", "Late", and "Accommodated", all of which are currently unchecked. Below these is a large text input field for comments. At the bottom left, there is a "Print Comment" checkbox, also unchecked. At the bottom right, there are "Cancel" and "OK" buttons.

Enter comments and/or select the appropriate indicator(s).

If there is no grade for the assignment, it cannot be marked as late or re-do.

The  icon is displayed if the assignment grade is excluded (e.g., for a transfer student). The grade will continue to be displayed in the field.

**Print comment** Select if you want the indicators and/or comments to print on the student's IPR and display to parents in ParentPortal.

Click **OK** to close the window.

**WARNING:** Your comments and/or selections are not actually saved until you type your PIN and click **Save** to save all data on the Assignment Grades page.

The following icons are displayed in the grade fields according to the comments and/or indicators entered:

Indicators:

-  - Excluded
-  - Late (not excluded)
-  - Re-do (not excluded)
-  - Accommodated

Notes:

-  - Excluded with comments
-  - Late or re-do with comments
-  - Comments only
-  - No comments

**NOTE:** If an assignment is excluded for a student, and you have entered a number in the **# Drop** field on [Settings > Manage Categories](#) (indicating that you want to drop a specified number of assignments for a category), the assignment grade does not count toward the number that will be dropped. Only non-excluded grades are dropped.

[Generate assignment grades report.](#)

[Reports > Assignment Grades](#)

This report lists assignment grades for all students in a course according to options entered on this page. The overall assignment average and class average are also displayed.

- Excluded grades are indicated by Ex in place of the grade.
- Dropped grades are indicated by D next to the grade.

**NOTE:** The **Category Legend** as it appears on the report matches the **Cat ID** (category ID) column (in the **Assignment Legend**) to the corresponding category name and category weight. The **Assignment Legend** matches the assignment ID heading to the corresponding assignment name, total points, and **Cat ID**.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.
<b>Cycle</b>	The current cycle is displayed. You can select a different cycle.

<b>Course-Section</b>	Select the course-section for which to print the report. Or, select <i>All</i> to produce the report for all of your course-sections. The drop down lists the two-digit period and course name. The course number and section number are in parentheses.
-----------------------	--

<b>Viewing Options</b>	<b>View Student Names</b>	Select to display the student names on the report. Otherwise, the names are not printed on the report, and students can only be identified by their student IDs. The student IDs are always displayed on the report.
	<b>View Withdrawn Students</b>	Withdrawn students are not automatically displayed. Select the field to display them. The message “W/D” and the withdrawal date or “Dropped” are displayed by the student's name. The withdrawal date may be the student's withdrawal date from school or his withdrawal date from the class.
<b>Sorting Options</b>	Indicate the field to sort the report by.	
	<b>Custom Student Order</b>	<p>This option is only displayed if <b>Student Order</b> on the Update Profile page is set to add new students to the top of the list or bottom of the list.</p> <p>Select <b>Custom Student Order</b> to sort the report in your custom sort order.</p> <p>If you have not specified a custom sort order for a particular class, the students are sorted by name.</p>

[Review student notes \(report\).](#)

[Reports > Student Notes](#)

This report displays any of the following notes for one or all courses, and for one or all students.

- **Course Notes:** Notes entered in the **Course Notes** field on [Settings > Manage Courses](#). These are comments and notes entered by teachers about their courses, such as reminders, announcements, and other course-specific information. These notes are displayed to parents in ParentPortal.
- **Student Course Notes:** Notes entered by clicking the note icon next to the student's name on [Grades > Assignment Grades](#). These are course-specific notes entered by teachers about the student, and the notes are associated with specific categories. These notes are note displayed to parents in ParentPortal.

- **Course Assignment Notes:** Notes entered in the **Notes** field on [Settings > Manage Assignments](#). These are notes entered by teachers about their assignments. The notes are displayed to parents in ParentPortal.
- **Student Assignment Notes:** Notes entered by clicking the note icon next to the student's assignment grade on [Grades > Assignment Grades](#). These are assignment-specific notes entered by teachers about the student. The teacher has the option to display the note to parents in ParentPortal.
- **IPR Notes:** Notes entered in the **Note** field on [Grades > IPR Comments](#). These are student-specific notes entered by the teacher about the student relative to the IPR. These notes are printed on the IPR that is distributed to parents.

994254	T  BALDERRAMA, DANNA P	80.0	10	70	100

**Calculations for extra credit assignment:**

**IMPORTANT:** See [Calculate Averages](#) for additional information.

**Percent-based weighting:**

If the student has extra credit points, include the extra credit (EC) points in the Total Points Earned.

$$(Points\ Earned\ 1 + Points\ Earned\ 2 + Points\ Earned\ 3 + EC) = Total\ Points\ Earned$$

**For example:**

The Homework category has three assignments. The student earned a 70/100, 80/100, and 90/95 for those assignments. He also has 10 points for the extra credit assignment.

$$(70 + 80 + 90 + 10) = 250$$

In this case, the Total Possible Points for the Homework category is 295.

$$250 / 295 = .847$$

---

The student's average for the Homework Category is 85.

**Points-based weighting:**

If the student has an extra credit assignment, add the points for the extra credit (EC) assignment to the Category Points:

Category Points + EC = new Category Points

**For example:**

The Homework category has three assignments, each worth 50 points. The student earned a 40, 45, and 50 for those assignments.

$$40 + 45 + 50 = 135$$

The student's Homework Category Points is 135. The student was awarded 5 points for a homework extra credit assignment.

$$135 + 5 = 140$$

In this case, the Total Possible Points for the Homework category is 150.

$$140 / 150 = .933$$

The student's average for the Homework Category is 93.

**Multiplier-based weighting:**

If the student has an extra credit assignment, add the points for the extra credit (EC) assignment to the Actual Category Points:

Actual Category Points + EC = new Actual Category Points

**For example:**

The student's Homework Actual Category Points is 240. The student was awarded 5 points for a homework extra credit assignment.

$$240 + 5 = 245$$

In this case, the multiplier for the Homework category is 2.

$$245 \times 2 = 490$$

The Homework category has three assignments, each worth 100 points.

$$100 + 100 + 100 = 300$$

$$300 \times 2 = 600$$

$$490 / 600 = .816$$

The student's average for the Homework category is 82.

**ANOTHER OPTION:** If you want to give an extra credit assignment that will be included in the cycle average for the students who do the assignment (but not for those who do not do it), create a regular assignment (not extra credit), and then exclude the grade for all students who do not complete the assignment.

[Generate seating chart report.](#)

[Reports > Seating Charts](#)

This report prints a teacher's seating charts for all periods or one period. For each period, the seating chart is displayed followed by a list of students who are not assigned to seats. The seating chart lists the student name, gender, and ID.

If printed for all periods, each period prints on a separate page.

**NOTE:** If that field has been changed, and the seating charts have not been re-saved on [Settings > Manage Charts](#) since the setting was changed, a warning message is displayed when the report is generated indicating that the reports will not be accurate until the

Manage Seating Charts page has been re-saved. You must review the seating chart for each period on the Manage Seating Charts page, make any necessary changes, and then re-save each chart.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.	
<b>Period</b>	Select the period-course(s) to print the seating chart for, or select <i>ALL CLASSES</i> to print seating charts for all periods.  If <b>Combine Courses in Attendance</b> is selected on your <a href="#">Settings &gt; Update Profile</a> page, the courses are combined by period.	
<b>width</b>	Select the width setting for the report.	
	<b>Fixed Seat Width</b>	Select to print a report in which all seats are the same width.  This setting works for small and average-size classes. For larger classes, some seats may not print on the page.
	<b>Auto-Adjusted Seat Width</b>	Select to print a report in which each column is adjusted to the student name. Each column is only wide enough to accommodate the longest name in the column; therefore, some columns are wider than others. This setting is a better option for larger classes.
For either width setting, you can adjust the orientation when you print. Select <b>Landscape</b> to increase the number of students that fit on the page.		
<b>Show Pictures</b>	Select to display student photos in the seating chart. Photos are only available if they have been added by the district.

Beside each student's name is the transfer icon **T** (i.e., a gray T) indicating that he is not a transfer student. If a student transfers into the class, the red transfer icon **T** is displayed next to his name.

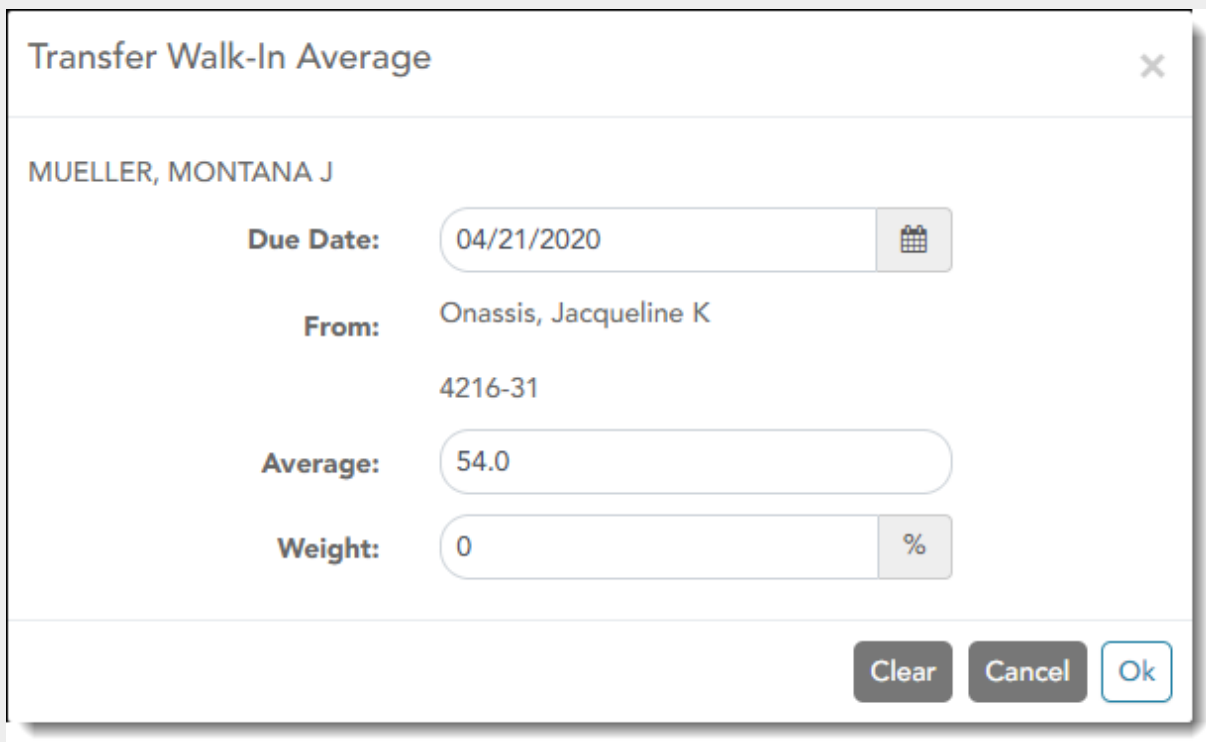

**NOTE:** The student will only have a red **T** if he is transferring from one section to another section within the same course. Otherwise the T will remain gray.

If a student transfers into the course, you must accept the student into the course and enter his

walk-in transfer average and weight. The campus, student ID, semester, and cycle must all be the same for the average to transfer.

To accept the transfer student into the course-section, click .

The Transfer Walk-In Average window opens.

**Date:** The student's transfer date is displayed by default. You can type over the date in the MMDDYYYY format. Or, click  to [select a date from the calendar](#).

**From:** The teacher name, course number, and section are displayed for the course from which the student transferred. This data is only displayed if the student transferred from a different section of the same course and has a transfer average.

**Average:** The student's transfer average is displayed if available. Otherwise, you can type the student's walk-in average.

This is the student's average in the class from which he transferred. You can enter a numeric grade or an alphabetical (ABCD or ESNU) grade.

**NOTE:** If a student transferred from a course that posts letter grades to a course that posts numeric grades, and a letter grade is entered for his transfer average, the student's working cycle average is displayed as a numeric grade.

See the [Calculate Averages guide](#) for an explanation of calculating averages for each weighting type for an explanation of calculating averages for transfer students.

**Weight:** The field displays 0 for a transfer student who has not yet been accepted into the

class.

To accept the student into your class, type the weight you want to apply to the student's transfer average. For example, if a student transferred three weeks into a six-week cycle, you may want to enter a weight of 50%. The maximum weight you can enter is 100.

The student's transfer icon remains red until a weight is entered and saved.

Once you enter and save a weight, the student's transfer icon turns blue . The blue icon remains until the end of the semester.

Click **Ok**.

If you entered and saved the transfer average data for the student, his walk-in average is calculated in his working cycle average.

**NOTE:** The changes are not actually saved until you type your PIN and click **Save Grades**.

**Clear:** Clear all data previously entered for the transfer student.

**NOTE:** Any course assignments that were due prior to the student's transfer date are excluded for the student, and the Exclude indicator  is displayed for the assignments. You can override the exclusion if you want the transfer student to complete an assignment that was due prior to his transfer date.

To override the exclusion, click , clear the **Exclude** field. Click **OK** and save.

**NOTE:** For standards-base courses, accepting a transfer student is a manual process. The transfer icon is not displayed.

### Calculating the average for a transfer student:

If a student transfers into the course during a cycle, the following calculations are used to determine his working cycle average:

#### Formula for transfer student:

	<p>For the transfer grade, multiply the Transfer Average by the Transfer Weight:</p> $\text{Transfer Average} \times \text{Transfer Weight} = \text{Transfer Value}$ <p><b>For example:</b></p> <p>1. The student's Transfer Average is 74.</p> <p>The student's Transfer Weight is 55%.</p> $74 \times 55\% = 40.7$ <p>The student's Transfer Value is 40.7.</p>
	<p>Calculate the average of the student's assignment grades (for the remainder of the cycle) using the steps described above under Percent-based, Point-based, or Multiplier-based.</p> <p>2. <b>For example:</b></p> <p>The percent-based example above shows a Working Cycle Average of 87.</p>
	<p>Calculate the weight for the Working Cycle Average:</p> $100\% - \text{Transfer Weight} = \text{Working Cycle Average Weight}$ <p><b>For example:</b></p> <p>3. The student's Transfer Weight is 55%.</p> $100\% - 55\% = 45\%$ <p>The student's Working Cycle Average Weight is 45%.</p>
	<p>Calculate the Working Cycle Average Value.</p> $\text{Working Cycle Average} \times \text{Working Cycle Average Weight} = \text{Working Cycle Average Value}$ <p><b>For example:</b></p> <p>4. The student's Working Cycle Average is 87.</p> <p>The student's Working Cycle Average Weight is 45%.</p> $87 \times 45\% = 39.15$ <p>The student's Working Cycle Average Value is 39.15.</p>

Take the sum of the Transfer Value and the Working Cycle Average Value.

Transfer Value + Working Cycle Average Value = Actual Working Cycle Average

**For example:**

5. The student's Transfer Value is 40.7.

The student's Working Cycle Average Value is 39.5.

$$40.7 + 39.5 = 80.2$$

The student's Actual Working Cycle Average is 80.

If a student transferred from a course that posts letter grades to a course that posts numeric grades and a letter grade is entered for his transfer average, the grade conversion table is used to determine the numeric value.

[Enter discipline referrals.](#)

[Discipline > Discipline Referrals](#)

This page allows you to view and enter discipline referrals. The referrals are submitted to an administrator for review and further action. The page is only available if the campus allows teachers to enter referrals in TeacherPortal; otherwise, the Discipline menu is not displayed.

**NOTE:**

You can only view your own referrals. If you are logged on to TeacherPortal as an administrator, you cannot see a teacher's entered referrals on this page; however, you can view your own referrals.

Inquiry-only users cannot submit referrals.

Your existing referrals for the school year are listed, as well as the following statistical data:

<b>Draft</b>	The number of referrals you have created but not submitted is displayed.
<b>Pending</b>	The number of referrals you have submitted that are awaiting review and further action from an administrator is displayed.

<b>Reviewed</b>	The number of submitted referrals that have been reviewed by an administrator, for which the administrator is taking no further action, is displayed.
<b>Completed</b>	The number of submitted referrals that have been reviewed by an administrator, and for which further action was taken, is displayed.

Up to five referrals are displayed at a time. If more referrals exist, you can page through the list to see the others.

To retrieve a referral for a specific student and/or a specific status, do one or more of the following, or leave all fields blank to retrieve all referrals sorted by status:

<b>Student ID</b>	Begin typing the student's ID. As you begin typing the ID, a drop-down list displays students whose student ID matches the numbers you have typed. From the drop-down list, select a student.
<b>Student Name</b>	Begin typing the student's name in one of the following formats: <ul style="list-style-type: none"> <li>• Last name, comma, first name</li> <li>• Last name initial, comma, first name initial</li> </ul> As you begin typing the name, a drop-down list displays students whose names match the letters you have typed. From the drop-down list, select the student.
<b>Status</b>	Select a status to view only referrals for the selected student with that status. Or, select ALL to see all referrals for the selected student.

Click **Search**.

The referrals grid is redisplayed according to the criteria specified.

	Click to view or edit the details of a referral. The <b>Record Details</b> section is displayed.
	Click to print the discipline referral. The report opens in a new window, and you can print the report from that window.
	Click to delete the referral. You are prompted to confirm that you want to delete the referral. Click <b>OK</b> .

Only *Draft* and *Pending* referrals can be updated or deleted. The *Reviewed* and *Completed* referrals can only be viewed and printed.

### Enter or update a referral:

- Click **Add Referral**.
- Or, click  to edit an existing referral.

The **Record Details** section is displayed.

- Under **Record Details**, retrieve the student(s) involved in the incident:

<b>Student ID</b>	Begin typing the student's ID. As you begin typing the ID, a drop-down list displays students whose student ID matches the numbers you have typed. From the drop-down list, select a student.
<b>Student Name</b>	<p>Begin typing the student's name in one of the following formats:</p> <ul style="list-style-type: none"> <li>• Last name, comma, first name</li> <li>• Last name initial, comma, first name initial</li> </ul> <p>As you begin typing the name, a drop-down list displays students whose names match the letters you have typed. From the drop-down list, select the student.</p>

<b>Add Another Student</b>	If more than one student was involved, click <b>Add Another Student</b> to retrieve the next student. A blank row is displayed allowing you to retrieve the student.
----------------------------	--

- To remove a student from the list, click .
- To see a student's schedule, click **Schedule** next to the student's name.

The Schedule window opens and displays the student's schedule, including the course-section, period, course title, teacher name, withdrawn indicator, room number, and days the class meets.

<b>Severity</b>	Indicate the severity of the offense. For example, select High if the nature of the offense is very severe.
<b>Offense Description</b>	(Required) Select the offense code describing the offense. <b>NOTE:</b> Only offense codes allowed by the district are listed.
<b>Referrer Comments</b>	<p>Type comments related to the offense, up to 2000 characters including spaces. A character counter below the text box allows you to see the number of remaining characters available.</p> <p>These comments will be read by the administrator who reviews the discipline referral.</p> <p>See <a href="#">Notes on Special Characters</a> and <a href="#">Copy/Paste From Other Documents</a>.</p>
<b>Incident Date</b>	The current date is displayed by default. Type another date in the MMDDYYYY format, or click  to <a href="#">select a date from the calendar</a> .

<b>Incident Time</b>	The current (i.e., system) time is displayed by default. You can type another time in the <i>HH:MM:SSA</i> format, where <i>HH</i> is the hour, <i>MM</i> is the minutes, <i>SS</i> is the seconds, and <i>A</i> is a.m. or p.m.
<b>Sent to Office</b>	Select if the student(s) were sent to the office because of the incident.
<b>Teacher's Course Section</b>	Select a course-section if the incident occurred during class.
<b>Incident Location</b>	(Required) Select the location in which the incident occurred.

### Save data:

<b>PIN</b>	Type your four-digit personal identification number (PIN).
------------	--

Click **Save Draft** to save a draft of the referral, which allows you to finish and submit the referral at a later time.

Or, click **Submit Referral** if the referral is complete, and you are ready to submit the referral to an administrator for further action.

The referral will appear in the administrator's discipline referral list with a status of *Pending*.

	The button is only displayed for a saved referral. Click to print the discipline referral. The report opens in a new window, and you can print the report from that window.
<b>Add Another Student</b>	Click to add an additional row in the <b>Record Details</b> section.

[Generate special programs report.](#)

[Reports > Special Programs](#)

**This report is only available to users who log on to TeacherPortal with a district- or campus-level security administrator user ID, or to teachers who have access to run the special programs report.**

This report lists of the special programs for each student in the class.

Only the special programs selected by the campus are included. If enabled, the **Generic** column appears in the report and displays program information.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.	
<b>Course-Section</b>	Select the course-section for which to print the report. The drop down lists the two-digit period and course name. The course number and section number are in parentheses.	
<b>As Of Date</b>	Type a date in the MMDDYYYY format. Or, or click  to <a href="#">select a date from the calendar</a> .	
<b>Viewing Options</b>	<b>View Student Names</b>	Select to display the student names on the report. Otherwise, the names are not printed on the report, and students can only be identified by their student IDs. The student IDs are always displayed on the report.
	<b>View Current or All Course Section(s)</b>	Select one:
		<b>Current</b>
	<b>All</b>	Select to print student data for all course-sections.
These options are disabled if you are logged on as an administrative user and select <b>Across Campus</b> under <b>Admin Options</b> .		

**Admin Options**

These fields are only displayed if you are logged on as an administrative user:

**Across Campus** Select to view data for all courses across the campus. Otherwise, data is only displayed for the selected course-section or for the impersonated teacher’s courses.  
If you are impersonating a teacher for whom no courses are defined, the message “No courses defined” is displayed at the bottom of the page, and the fields are disabled. However, once you select **Across Campus**, the message is removed because it may not apply to all teachers at the campus, and the fields are enabled.

**View Without Course/Section & Instructor in Grid Format** This field is enabled when **Across Campus** is selected.  
If selected:  
**If View Without Course/Section & Instructor in Grid Format** is selected, the report data is displayed in a grid format, and the course-section and teacher are not displayed. The default sort is by student name; however, the grid can be re-sorted.  
*Sample:*

Student ID	Student Name	Grade	Special Program

If not selected:  
**If View Without Course/Section & Instructor in Grid Format** is not selected, the report is grouped by course-section. The report is similar to the report for non-administrative users; however, the teacher is listed for each course-section. For non-administrative users, the teacher is listed once at the top of the report.  
*Sample:*

**Course Nbr-Sec  
Teacher Name**

Student ID	Student Name	Grade	Special Program

**Course Nbr-Sec

[Manage cycle grades information.](#)

[Grades > Cycle Grades](#)

This page allows you to manage end-of-cycle and end-of-semester grade data, including cycle and semester averages, working final grade, override grades, exams, citizenship grades, and comments. When all data has been entered correctly and is ready to post, you must submit the cycle and/or semester grades to the campus administrator.

No data is displayed for future cycles.

**SELF-PACED COURSES**

<b>CURRENT CYCLE</b>	
For self-paced courses, a modified version of the Cycle Grades page is displayed to accommodate cycle grade data for self-paced courses.	
<b>Cycle Average</b>	If assignment grades are recorded for the self-paced course, the average (based on the assignment grades) appears under <b>Cycle Average</b> . The use of assignment grades is optional for self-paced courses.
<b>Override</b>	The final grade for a self-paced course must be manually entered in the <b>Override</b> field, regardless of the data in the other fields.
The semester grades for self-paced courses are automatically posted when they are saved.	

Once saved, failing grades are highlighted in pink.

### Save and print:

You must save your grades before you exit this page. Otherwise, your changes will be lost.

**IMPORTANT:** Saving grades is different from posting grades. You can only post your grades once at the end of the cycle, as described below; however, you must save any changes every time you visit this page. This allows you to leave this page and return as you enter cycle grade data.

<b>PIN</b>	Type your four-digit personal identification number (PIN).
------------	--

Click **Save**.

- If your changes were saved successfully, the page reloads, and a message is displayed indicating that the grades were saved successfully.
- If you enter an invalid grade, the grade is highlighted in red, and an error message is displayed at the top of the page. You must correct the error before you can save any changes.

<b>Print</b>	Click to print the cycle grades displayed on the page.
--------------	--

### Post cycle grades:

After you enter cycle grades data for the course, review your input carefully, and save all changes.

Once the data is posted by the campus administrator, you cannot change any data. If you discover an error after grades are posted, you must contact the campus administrator to correct any errors.

When you are satisfied with your input for one or more of the cycle grades, notify the system that you are ready to post:

<b>Select courses to mark grades as Ready to Post</b>	<p>Click the link.</p> <p>This link is only displayed for current cycles that are open for posting. The campus determines when the cycle is open and closed for posting.</p> <p>A window opens allowing you to select the course-sections that are ready to post. All eligible courses are listed.</p> <p><input type="checkbox"/> Select the course(s), and then click <b>Select</b>. The window closes, and the selected course(s) are listed below the <b>PIN</b> field.</p> <p><input type="checkbox"/> To change the selected courses, click <b>Cancel</b>. The window opens allowing you to re-select the course(s).</p>
<b>PIN</b>	Type your four-digit personal identification number (PIN).

Click **Continue**.

The page reloads, and a message is displayed indicating that the cycle grades were successfully sent to be posted. The message “[READY]” is displayed in the **Course-Section** drop-down list next to the course.

You can submit your grades more than one time if you make a change shortly after mark the grades as ready to post; however, once the data is posted by the campus administrator, you cannot change any data.

After grades are posted and the cycle is closed, you can make changes to the grades and view the working cycle average (e.g., for a student who missed the last few days of a cycle due to illness); however, you cannot post any changes. Instead, print your changes and submit your printout to the campus administrator.

**NOTE:** The campus administrator can run a report to determine which teachers have posted their grades and which teachers have not.

## LAST CYCLE/END OF SEMESTER

For campuses that do not have semester exams every semester (e.g., a four-semester campus that has semester exams at the end of the second and fourth semesters), the semester averages are only calculated if there is a semester exam for the current semester.

### During semesters that have semester exams:

- The **Exam** field is displayed.
- The **Working Average** field displays the average of the cycles since the last semester that had an exam. The semester exam is included in the calculation according to campus settings.
- If the current cycle is the last cycle of the semester, the **Exam** and **Working Average** fields are displayed under the heading **Semester Grades**. Otherwise, the working semester average is displayed under the heading **Semester Average**.
- When you view a previous semester that has a semester exam, the **Exam** and **Working Average** fields display the posted grades.

### During semesters that do not have semester exams:

- The **Exam** field is *not* displayed.
- The **Working Average** field displays the average of the cycles since the last semester that had an exam. When you view a previous semester that does not have a semester exam, neither the exam nor the semester average is displayed.
- If a final grade has been posted for the course, the grade is displayed under the **Working Final Grade** heading.
- If the semester is closed, the **Posted Average** field displays the average from the grade course record.

<b>Working Final Grade</b>	<p>The working final grade includes the posted semester average for any previous semesters and the working semester average for the current semester.</p> <p>The working final grade is not displayed for campuses that use the semester grading concept.</p> <p>The working final grade is recalculated when a semester exam or an override grade is entered for the current semester.</p> <p>If a posted semester average exists for the current semester, the posted semester average is used in the final grade calculation. If there is no posted semester average for the current semester, but an override semester grade exists, the override grade is used in the final grade calculation.</p> <p>If the student was enrolled in one section of a course during semester one, and another section of the same course in semester two, the average for each semester is used to calculate the working final grade.</p> <p>For situations where a student has been enrolled in more than one section of the same course during the first semester, and another section of the course during the second semester, the following applies:</p> <p><b>NOTE:</b> For alpha grades, it is possible that the student's working cycle average from the Assignment Grades page will differ from the <b>Working Average</b> and <b>Working Final Grade</b> on the Cycle Grades page. The Cycle Grades page uses the highest grade in the range from the corresponding grade conversion table to determine the working average. For example, if the teacher posted a cycle average of 83, it will be converted to a B in the campus records. The Cycle Grades page reads the posted grade B and uses the grade conversion table to determine the <b>Working Average</b> and <b>Working Final Grade</b>. If the highest grade in the range in the grade conversion table is 89, the grade 89 is displayed on the Cycle Grades page.</p> <ul style="list-style-type: none"> <li>• If a semester average exists for only one of the first semester course sections, the semester one average is used to calculate the working final grade.</li> <li>• If a semester average exists for both of the first semester course sections, the system does not determine which average to use for the first semester. In this case, a question mark (?) is displayed for the semester one average and the working final grade.</li> </ul> <p>For an elementary course that is set to calculate grades using the cumulative year-to-date average (which does not use semester grades), the working final grade will include each posted cycle grade.</p> <p>Example 1: <math>(\text{Cycle 1} + \text{Cycle 2}) / 2 = \text{working final grade for cycle 2}</math>.  Example 2: <math>(\text{Cycle 1} + \text{Cycle 2} + \text{Cycle 3}) / 3 = \text{working final grade for semester 1}</math>.  Example 3: <math>(\text{Cycle 1} + \text{Cycle 2} + \text{Cycle 3} + \text{Cycle 4} + \text{Cycle 5} + \text{Cycle 6}) / 6 = \text{working final grade for semester 2}</math>.</p> <p>For students who were enrolled in a different section of the same course during a previous semester, the working final grade includes the posted semester average for the other section.</p>
<b>CLOSED CYCLES &amp; SEMESTERS</b>

If a cycle or semester is closed, the average is pulled from the grade course record and is display only. If an override grade was entered for the cycle or semester grade, the override grade is displayed.

Click the cycle average to view additional information on a posted cycle. A window opens to display the posted cycle average, calculated cycle average, citizenship grade, and report card comments for the cycle. Click **close** to close the window.

**NOTE:** For transfer students, the prior cycle grades are entered at the campus level.

**SELF-PACED COURSES**

For self-paced courses, a modified version of the Cycle Grades page is displayed to accommodate cycle grade data for self-paced courses.

<b>Cycle Average</b>	If assignment grades are recorded for the self-paced course, the average (based on the assignment grades) appears under <b>Cycle Average</b> . The use of assignment grades is optional for self-paced courses.
<b>Override</b>	The final grade for a self-paced course must be manually entered in the <b>Override</b> field, regardless of the data in the other fields.

The semester grades for self-paced courses are automatically posted when they are saved.

Once saved, failing grades are highlighted in pink.

**Save and print:**

You must save your grades before you exit this page. Otherwise, your changes will be lost.

**IMPORTANT:** Saving grades is different from posting grades. You can only post your grades once at the end of the cycle, as described below; however, you must save any changes every time you visit this page. This allows you to leave this page and return as you enter cycle grade data.

<b>PIN</b>	Type your four-digit personal identification number (PIN).
------------	--

Click **Save**.

- If your changes were saved successfully, the page reloads, and a message is displayed indicating that the grades were saved successfully.
- If you enter an invalid grade, the grade is highlighted in red, and an error message is displayed at the top of the page. You must correct the error before you can save any changes.

<b>Print</b>	Click to print the cycle grades displayed on the page.

### Post semester grades:

After you enter semester grades data for the course, review your input carefully, and save all changes.

Once the data is posted by the campus administrator, you cannot change any data. If you discover an error after grades are posted, you must contact the campus administrator to correct any errors.

When you are satisfied with your input for one or more of the cycle grades, notify the system that you are ready to post:

<p><b>Select courses to mark grades as Ready to Post</b></p>	<p>Click the link.</p> <p>This link is only displayed for current cycles that are open for posting. The campus determines when the cycle is open and closed for posting.</p> <p>A window opens allowing you to select the course-sections that are ready to post. All eligible courses are listed.</p> <p><input type="checkbox"/> Select the course(s), and then click <b>Select</b>. The window closes, and the selected course(s) are listed below the <b>PIN</b> field.</p> <p><input type="checkbox"/> To change the selected courses, click <b>Cancel</b>. The window opens allowing you to re-select the course(s).</p>
<p><b>PIN</b></p>	<p>Type your four-digit personal identification number (PIN).</p>

☐ Click **Continue**.

The page reloads, and a message is displayed indicating that the cycle grades were successfully sent to be posted. The message “[READY]” is displayed in the **Course-Section** drop-down list next to the course.

You can submit your grades more than one time if you make a change shortly after mark the grades as ready to post; however, once the data is posted by the campus administrator, you cannot change any data.

After grades are posted and the cycle is closed, you can make changes to the grades and view the working cycle average (e.g., for a student who missed the last few days of a cycle due to illness); however, you cannot post any changes. Instead, print your changes and submit your printout to the campus administrator.

**NOTE:** The campus administrator can run a report to determine which teachers have posted their grades and which teachers have not yet posted their grades.

[Reports > Attendance Verification](#)

[Reports > Attendance Verification](#)

This report displays attendance for all of your students for a selected course-section and date range. You can view data for up to one semester. You can also generate a summary report that displays only totals for the selected date range.

The following codes are used:

- A - Excused absence
- S - School-related absences
- T - Tardy
- X - Truant

An asterisk next to the attendance code indicates that the absence or tardy occurred in a course other than the course the student is currently enrolled in (e.g., if he transferred from one course to another during the school year).

#### NOTES:

- Inservice work days are indicated with an I in the column heading.
- Saturday may be a valid attendance date, even if the course does not meet on Saturday. This may be used for bad weather makeup days.
- If you are printing the report for more than three weeks, you should set the printer orientation setting to landscape or the **Page Scaling** field to *Shrink to Printable Area*. If the *Shrink to Printable Area* setting is not enabled, the landscape orientation will accommodate up to six weeks plus the **Total** column per page. Additional weeks (up to one semester) can be generated by entering the appropriate dates in the **From Date** and **To Date** fields; however, the report will print on multiple sheets of paper with a **Total** column on each page.

	<b>Student Email</b>	Select to include the student's email address.
	<b>Contact Information</b>	Select to include the student's contact information. The <b>Contact Information</b> columns will be included in the report, and all of the student's contacts are listed.  The contact's name, relationship, cell phone, home phone, business phone, other phone, mailing address, and e-mail address are listed.
	<b>Guardian Last Viewed IPR/Report Card Date</b>	Select to include the date on which a parent/guardian last viewed the student's interim progress report (IPR) or report card online.
<b>Sorting Options</b>	Indicate the order in which to sort the report data. You can sort by student name (last name), Student ID, course-section (for course groups), birth date (if included), or custom student order.  Custom student order is the order specified for the course-section on <a href="#">Settings &gt; Arrange Student Order</a> .

[Reports > Seating Chart](#)

[Reports > Seating Charts](#)

This report prints a teacher's seating charts for all periods or one period. For each period, the seating chart is displayed followed by a list of students who are not assigned to seats. The seating chart lists the student name, gender, and ID.

If printed for all periods, each period prints on a separate page.

**NOTE:** If that field has been changed, and the seating charts have not been re-saved on [Settings > Manage Charts](#) since the setting was changed, a warning message is displayed

when the report is generated indicating that the reports will not be accurate until the Manage Seating Charts page has been re-saved. You must review the seating chart for each period on the Manage Seating Charts page, make any necessary changes, and then re-save each chart.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.	
<b>Period</b>	Select the period-course(s) to print the seating chart for, or select <i>ALL CLASSES</i> to print seating charts for all periods.  If <b>Combine Courses in Attendance</b> is selected on your <a href="#">Settings &gt; Update Profile</a> page, the courses are combined by period.	
<b>width</b>	Select the width setting for the report.	
	<b>Fixed Seat Width</b>	Select to print a report in which all seats are the same width.  This setting works for small and average-size classes. For larger classes, some seats may not print on the page.
	<b>Auto-Adjusted Seat Width</b>	Select to print a report in which each column is adjusted to the student name. Each column is only wide enough to accommodate the longest name in the column; therefore, some columns are wider than others. This setting is a better option for larger classes.
	For either width setting, you can adjust the orientation when you print. Select <b>Landscape</b> to increase the number of students that fit on the page.	
<b>Show Pictures</b>	Select to display student photos in the seating chart. Photos are only available if they have been added by the district.

[Reports > Student Grades Report \(and UIL Eligibility\)](#)

[Reports > Student Group Reports > Student Grades Report](#)  
[Settings > Student Group Manager > Group Reports > Student Grades Report](#)

This report lists student working cycle averages for all of their courses. Courses in which the student has failing grades are shaded pink.

- If a posted grade exists for the semester and cycle, the posted grade is displayed.
- If an override grade exists, the override grade is displayed.

The report is available to users who log on to TeacherPortal with a district- or campus-level administrative ID, teachers who have access to run the student groups report, or teachers who have UIL access. However, the report can also be run for a student group by any user who has existing groups.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.
<b>Cycle</b>	The current cycle is displayed. You can select a different cycle.
<b>Course-Section</b>	Select the course for which to produce the report, or select <i>NO SELECTION</i> to run the report for all course-sections. You must specify either a course-section or special program, or both.
<b>Student Groups</b>	If you are running the group report, <b>Student Groups</b> is displayed instead of <b>Course-Section</b> . Select the student group for which to run the report.

<b>Special Programs</b>	<p>This field is only displayed if you have been granted access to run group reports. Select the group for which to produce the report. If a program is selected, the report only includes students enrolled in that special program.</p> <p>You can select both a course-section and a special program. If you make selections in both fields, the report includes only students enrolled in the course-section who are also enrolled in the special program.</p> <p>If you select <i>Generic</i>, the generic program field appears allowing you to select a specific generic program. Only generic programs for the campus are listed. If a local program is selected, the report only includes students enrolled in that program.</p>
<b>Show only students with at least one grade below</b>	Select to limit the report to students who have at least one course with a working cycle average below a specific grade (e.g., below 70), and type a grade in the field.

There are two ways to access the rubric printing options:

- From the Manage Rubric Charts page, click **Print**.
- From the Reports menu, select **Rubrics**.

### Print the rubric chart:

Click **Print** to print a report of the displayed rubric chart.

The [Rubric Report Selection](#) page opens allowing you to make selections for printing the report.

This report prints a rubric chart which has been set up on [Settings > Manage Rubric Charts](#). You can print only the rubric chart (i.e., blank), or you can print the rubric chart with student grades for a particular assignment.

Specify report options:

<b>Rubric Name</b>	Select the rubric chart you want to print. Only rubric charts that have skills and scores already set up are listed.
<b>Title</b>	(Optional) Type a title for the report, up to 50 characters. If blank, the rubric chart name is used as the title.

<b>Print with grades</b>	Select to print the report with student grades. This field is only displayed if the selected rubric chart has already been used to grade an assignment.		
	If selected, an additional field is displayed allowing you to select a course-section. Only course-sections that have a rubric chart set up are listed.		
	<b>course-section</b>	Once you select a course-section, another field is displayed allowing you to select the assignment that was graded with a rubric chart.	
	<b>assignment</b>	Once you select an assignment, a list of students in the course-section is displayed, along with their grade for the assignment.	
	<b>This Student</b>	Select for the students you want to print the rubric for. You can select <b>Check all</b> at the top of the column to select all students in the course-section.	

Click **Generate**.

## Grades Reports (Standards-Based):

[Reports > Assignment Grades \(Standards-Based\)](#)

[Reports > Assignment Grades Standards-Based](#)

This report lists assignment grades (i.e., scores) and class averages for all students in a standards-based course according to options entered on this page. The overall class average is also displayed. The report can be exported as a spreadsheet.

Printing the scores is optional; you can also print the report with just the students' class averages.

**NOTE:** If the report is too large to fit on one page, you must export the report in order to print the complete report. The **Export** button is available on the report. If you click **Print**, only the first page is printed.

-  - indicates the assignment grade is excluded.
-  - indicates the assignment grade is marked as late (but not excluded).
-  - indicates the assignment grade is marked as re-do (but not excluded).
-  - indicates the assignment is incomplete.
-  - indicates the assignment is missing.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.
<b>Cycle</b>	The current cycle is displayed. You can select a different cycle.
<b>Course-Section</b>	Select the course-section for which to print the report. The drop down lists the two-digit period and course name. The course number and section number are in parentheses.

<b>Viewing Options</b>	<b>View Assignments</b>	Select to print the individual assignments and current class average on the report. Otherwise, only the student's current class average is displayed.
	<b>View Student Names</b>	Select to display the student names on the report. Otherwise, the names are not printed on the report, and students can only be identified by their student IDs. The student IDs are always displayed on the report.
	<b>View Withdrawn Students</b>	Withdrawn students are not automatically displayed. Select the field to display them. The message "W/D" and the withdrawal date or "Dropped" are displayed by the student's name. The withdrawal date may be the student's withdrawal date from school or his withdrawal date from the class.
<b>Sorting Options</b>	Indicate the field to sort the report by.	

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

[Reports > Score Trend](#)

[Reports > Score Trend Report](#)

This report displays a student's standard assignment grades in a line chart format, which allows you to see the student's grade progression for each standard. This report only applies to course-sections that are set up to use standards-based grading.

The rubric score grid lines are displayed according to the scale used by the campus.

- The vertical line represents the rubric scores as established by the district.
- The horizontal line represents the assignments that are associated with the selected standard.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.
<b>Cycle</b>	The current cycle is displayed. You can select a different cycle. Or, select <i>All</i> to generate the report for all cycles to date in the current semester.
<b>Course-Section</b>	Select the course-section for which to print the report. Or, select <i>All</i> to produce the report for all of your course-sections. The drop down lists the two-digit period and course name. The course number and section number are in parentheses.
<b>Standard</b>	Select the standard for which to print the report. Or, select <i>All Standards</i> to print the report for all standards, where one chart is displayed per standard.
<b>Student</b>	Select the student to print the report for.

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

[Reports > Missing Exam Grades](#)
[Reports > Missing Exam Grades](#)

This report lists students who are missing semester exam grades. The report can only be run for campuses that require exams and have enabled the option for exams for high school courses. Otherwise, the message “Report not applicable to this campus” is displayed.

**District and campus administrative users have the option to view the grades for all courses across the campus.**

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.
-----------------	---

Under **Admin Options:**

These fields are only displayed if you are logged on as an administrative user.

**Across Campus** Select to view missing exam grades for all courses across the campus. Otherwise, grades are only displayed for the impersonated teacher's courses.

**View Course/Section & Instructor in Grid Format** This field is enabled when **Across Campus** is selected.

**Format**

If selected:

If **View Course/Section & Instructor in Grid Format** is selected, the report data is displayed in a grid format, and the course-section and teacher are listed in grid columns. The grid can be sorted by student name, course-section, or instructor name.

*Sample:*

Stu ID	Student Name	Course Nbr-Sec (period)	Course Name	Teacher

If not selected:

If **View Course/Section & Instructor in Grid Format** is not selected, the report data is grouped by course-section. The report is similar to the report for non-administrative users; however, the teacher is listed for each course-section. For non-administrative users, the teacher is listed once at the top of the report.

*Sample:*

**Course Nbr-Sec Course Name (period)**

**Teacher Name**

Stu ID	Student Name

**Course Nbr-Sec Course Name (period)**

[Reports > Cycle Grade Range](#)

[Reports > Cycle Grade Range](#)

The report displays cycle grades that fall within a specified range according to options entered.

- If a posted grade exists, the posted grade is used.
- If no posted grade exists, the override grade is used.
- If no override grade exists, the working cycle average is used.
- If no working cycle average exists, the auto grade is used.
- If no grade exists, the grade is blank.
- Administrative users have the option to view the grades for all courses across the campus.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.
<b>Cycle</b>	The current cycle is displayed. You can select a different cycle.
<b>Course-Section</b>	Select the course-section for which to print the report. The drop down lists the two-digit period and course name. The course number and section number are in parentheses.

Under **Grade Selection Options**, select the range of grades to include in the report.

<b>Grade Level</b>	Specify the grade level to run the report for, or leave blank to run the report for all grade levels.
<b>Show all Cycle Grades</b>	Select to include all cycle grades. Blank and incomplete grades are excluded unless you select <b>Show Blank Grades</b> and/or <b>Show Incomplete Grades</b> .
<b>Show all Cycle Grades between</b>	Select to narrow the report to a specific range of grades, and type a maximum and minimum grade in the <b>Maximum grade</b> and <b>Minimum grade</b> fields.  A note below the <b>Maximum grade</b> and <b>Minimum grade</b> fields indicates the highest failing cycle grade at the campus for your reference.
<b>Show Blank Grades</b>	Select to include blank grades on the report, regardless of the settings of the <b>Maximum grade</b> and <b>Minimum grade</b> fields.
<b>Show Incomplete Grades</b>	Select to include incomplete grades on the report, regardless of the settings of the <b>Maximum grade</b> and <b>Minimum grade</b> fields.

Under **Viewing Options:**

<b>View Student Names</b>	Select to display the student names on the report. Otherwise, the names are not printed on the report, and students can only be identified by their student IDs. The student IDs are always displayed on the report.

## Teacher Guide to ASCENDER TeacherPortal

### First Day of School

**IMPORTANT:** Attendance is not taken on the first day of school. Students are not marked absent on the first day of school.

#### **For campuses NOT using Student Activation/First Day Counts:**

On the first day of school, teachers cannot use TeacherPortal to record or post attendance during the ADA period. You can only view and print data, and you must record attendance

manually on the printed sheets.

1. Click **Print** to print the attendance list for each period-course. The Attendance Roster Report Selection page opens allowing you to make selections for printing the Attendance Roster report.
2. Mark attendance on the list manually.
3. If you have students in a period who are not on the attendance list, print their names and student IDs in the rows provided at the bottom of the list.
4. Sign and date the list on the lines provided.

## Student Activation/First Day Counts:

Activating students using this process allows you to identify No Show students and correctly enroll students who begin school after the first day of school. It also ensures that students who do show up for school have the proper enrollment dates for the district, campus, special programs, and first semester courses.

The primary way students are activated is by teachers recording attendance in TeacherPortal. Once teachers have marked and posted attendance, the campus staff can address the individual students who could not be activated by teachers.

All students are marked inactive before school starts. As you take attendance, the students are activated as they show up in class. After a period of time (determined by each campus), any student who has not been activated is considered a No Show.

The TeacherPortal Post/View Attendance displays differently during the activation window: Teachers mark present students as Activated rather than Present.

**REMINDER:** On the first day of school, a student cannot be marked as absent.

From this page, you can print the attendance list for each period-course (or the campus can supply a class roster). If a student shows up in a period who is not on the attendance list, you must write the student's name and ID either in the blank rows provided at the bottom of the list, or on the form provided by the district/campus, and submit to the campus office.

<b>Last day for mass activation</b>	During the activation window, this field is displayed above the attendance grid, which indicates the final date of the activation window. If there are students from multiple attendance tracks enrolled in the course, and the tracks have different ending dates for mass activation, all dates are displayed with the track number in parentheses.				
<b>Attendance</b>	<p>On the first day of school, in the <b>Attendance</b> column, the <b>Activate</b> and <b>Inactive</b> fields are displayed for all students instead of the <b>Absent</b> and <b>Present</b> fields. Click **Post**.

If you activate a student *after* the first day of school, but during the activation window, the following occurs:

- A No Show record is created for the student on the first day of school.
- An enrollment record is created with the entry date set to the student's activation date.
- The student's enrollment date in all courses on the campus for the semester is set to the activation date.
- The student's special program enrollment date(s) are set to the activation date, if applicable.
- If the student's original entry date has a current year date (i.e., the first day of school), the student's original entry date is changed to the activation date.

During the activation window, you may have a mix of activated and inactivated students in your

classes.

- Activated students will have the **Present/Absent/Tardy** options displayed.
- Inactive students will have the **Activate/Inactive** options displayed.

The Attendance Roster report will display the **Activate** and **Inactive** fields for students who have not yet been activated.

Once the activation window has ended:

Any students who remained inactive will have the message “Attendance Exempt” displayed in the **Attendance** column. Attendance cannot be marked for these students.

These students will no longer be displayed on the rosters once the campus has created the No Show records.

## Teacher Guide to ASCENDER TeacherPortal

### Long-Term Substitute Teachers

Long-term substitute teachers can be granted access to use TeacherPortal on behalf of a teacher who is away for an extended period of time. When substitute teachers log in to TeacherPortal, they can select the teacher for whom they are substitute teaching. Then, the substitute teachers can proceed to use TeacherPortal as the teacher.

[Prerequisites.](#)

Before a long-term substitute teacher can access TeacherPortal, a substitute teacher record must already exist for him in TeacherPortal. These steps are covered in the TeacherPortal Administrator guide.

### Create an ASCENDER TeacherPortal account.

A long-term substitute teacher must create a TeacherPortal account in order to log on to TeacherPortal. Substitute teachers will log on to TeacherPortal with their own accounts, rather than with the teacher's account.

From the Login page, click **Create Account**. The User Information page is displayed.

To exit without saving any changes, click **Return to Login**.

### User Information:

The screenshot shows the 'User Information' page in the ASCENDER TeacherPortal. At the top, there are two tabs: 'Login' and 'Create Account'. Below the tabs is a progress bar with four steps: 'User Information', 'Basic Information', 'Security Question', and 'Complete'. The 'User Information' step is currently active, indicated by a red dot. Below the progress bar, there are three input fields: 'Staff ID', 'Last Name', and 'First Initial'. Each field has a small icon to its left. At the bottom right of the page, there are two buttons: 'Next' (green) and 'Cancel' (white).

<b>Staff ID</b>	Type your staff ID number.
<b>Last Name</b>	Type your last name
<b>First Initial</b>	Type the first letter of your first name.

Click **Next**.

If you entered the data correctly, the Basic Information step opens.

## Basic Information:

<b>User Name</b>	Type a unique user name that will identify you when you log on to the system, such as a combination of letters from your first and last name. <ul style="list-style-type: none"> <li>Your user name must be 6-25 alphanumeric characters and must be unique within the district.</li> <li>Your user name is not case-sensitive.</li> <li>If you type a name that is already used, available alternatives are suggested.</li> </ul>
<b>Password</b>	Type a password that you will use when you log on to TeacherPortal. <ul style="list-style-type: none"> <li>The password must be 8-46 characters using three of the following: uppercase letters, lowercase letters, numbers, and special characters</li> <li>Your password is case sensitive.</li> </ul>
<b>Password Verification</b>	Retype the password exactly as you typed it above. This step confirms that you typed your password as you intended.
<b>PIN</b>	Type a four-digit numeric personal identification number (PIN) that you will use when you post data in TeacherPortal. <b>Avoid using 1234, 4321, or all the same number, as these are common and easily guessed.</b>

Click **Next**.

If you entered all required data correctly, the Security Question step opens.

## Security Question:

<b>Question</b>	Select three questions to which you will provide an answer. The questions are asked in the event that you forget your password.  You must select three different questions. You cannot repeat any questions/answers.
<b>Answer</b>	Type the answer to each question. If you forget your password, you will be required to answer the question correctly in order to recover your account. Be sure to select questions for which you will easily remember your answer. Answers are case sensitive.

## License Agreement

Review and accept the End User License Agreement (EULA) for ASCENDER. This agreement must be accepted in order to proceed.

Select **Accept**.

Click **Next**.

If you entered all required data, the Complete page opens.

□ Click **Finish**.

The Announcements page opens.

[Log on to TeacherPortal.](#)

Substitute teachers must log on using their own credentials.

If you are continuing from the previous step and are already logged on, you can skip this step.

If you are not already logged on, you must log on to TeacherPortal using the user name and password created in the previous step. Once you are logged on, you can access the pages for the remaining steps.

<b>User Name</b>	Type your user name. Your user name is not case-sensitive.
<b>Password</b>	Type your password. The typed text is hidden. Your password is case sensitive.

Click **Login**.

The Announcements page is displayed.

For security purposes, your password will expire periodically. If your password is expired, you are redirected to the [Password Expired](#) page before the Announcements page is displayed. Follow the instructions provided in the online Help for the Password Expired page.

[Specify the teacher.](#)

When you log in to TeacherPortal, the Announcements page is the first page displayed. From here, you must specify the teacher you are substitute teaching for. You must select the teacher each time you log in.

### 001 School Announcements

Teachers,

**Start of school year: All Teachers**, new and returning, must create his or her account as a new user each year.

In the **Substitute For** field, select the teacher you are substitute teaching for.

- Only teachers you are assigned to teach for are listed.
- The beginning and ending dates also determine which teachers are listed.

If the beginning date is in the future, the teacher is not listed until the current date is within the range of dates specified. Once the current date is past the substitute's ending date, the teacher is no longer listed.

Click **Teacher**.

A message is displayed indicating that you are now substitute teaching for the selected teacher. The teacher's three-digit control number is also provided.

**NOTE:** Once you have selected a teacher, the Update Profile page is no longer available. See the Update Profile Settings section below for information about how to update your profile settings.

To select another teacher, you must log out, and log in again.

[Use TeacherPortal as the teacher.](#)

When logged in as a long-term substitute teacher, you can maintain and print most data that the teacher would be able to access, including attendance, assignments, grades, discipline, and reports.

For assistance with these pages, view the online Help for each page.

As you update and post data in the database tables, be aware that the teacher's name will be associated with some actions, and the substitute teacher's name will be associated with other actions.

- If you mark grades as ready to post, the teacher's name is reflected.
- If you post attendance, the teacher's name is reflected.
- If you enter a discipline referral, the substitute's name is reflected.

[Update profile settings as needed.](#)

Once you have selected a teacher from the Announcements page, the Settings > Update Profile page is no longer available.

If you need to make changes to your profile, you must log out, and then log in and access the Update Profile page before selecting a teacher.

For assistance with the fields on the page, view the online Help.

## Reports:

[Generate seating chart report.](#)

## Reports > Seating Charts

This report prints a teacher's seating charts for all periods or one period. For each period, the seating chart is displayed followed by a list of students who are not assigned to seats. The seating chart lists the student name, gender, and ID.

If printed for all periods, each period prints on a separate page.

**NOTE:** If that field has been changed, and the seating charts have not been re-saved on [Settings > Manage Charts](#) since the setting was changed, a warning message is displayed when the report is generated indicating that the reports will not be accurate until the Manage Seating Charts page has been re-saved. You must review the seating chart for each period on the Manage Seating Charts page, make any necessary changes, and then re-save each chart.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.	
<b>Period</b>	Select the period-course(s) to print the seating chart for, or select <i>ALL CLASSES</i> to print seating charts for all periods.  If <b>Combine Courses in Attendance</b> is selected on your <a href="#">Settings &gt; Update Profile</a> page, the courses are combined by period.	
<b>width</b>	Select the width setting for the report.	
	<b>Fixed Seat Width</b>	Select to print a report in which all seats are the same width.  This setting works for small and average-size classes. For larger classes, some seats may not print on the page.
	<b>Auto-Adjusted Seat Width</b>	Select to print a report in which each column is adjusted to the student name. Each column is only wide enough to accommodate the longest name in the column; therefore, some columns are wider than others. This setting is a better option for larger classes.
	For either width setting, you can adjust the orientation when you print. Select <b>Landscape</b> to increase the number of students that fit on the page.	
<b>Show Pictures</b>	Select to display student photos in the seating chart. Photos are only available if they have been added by the district.	

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

[Generate class roster report.](#)

[Reports > Class Roster](#)

This report provides a blank class roster by semester and course, including a list of students enrolled in the course and up to 50 blank columns. You can choose the sort order and whether to include the student's birth date and contact information. The report can be exported in CSV format.

If you print the report for a course group, the **Course Section** column is included allowing you to identify the course-section in which the student is enrolled.

### Elementary Skills-Based Grading

[Elementary Report Cards:](#)

#### Elementary Report Cards

***Grades > Elementary Report Cards > Print Elementary Report Cards***

This page allows you to print elementary skills-based report cards for the students selected on the [Print Elementary Report Cards](#) page. The page can only be accessed through the Print Elementary Report Cards page.

**IMPORTANT:** Use the Firefox or Chrome browser when printing report cards as an administrator. Do not use Internet Explorer.

The report cards display data according to options set on the [Admin Manage Elementary Skills-Based Report Cards](#) pages. The following components may be included:

- Letter Recognition skills grid \*
- Number Recognition skills grid \*
- Spanish Letter Recognition skills grid \*
- High-Frequency Word Recognition skills grid \*
- Color Word Recognition skills grid \*
- Rote Counting skills grid \*
- Parent/guardian signature line
- Attendance data, including excused absences, unexcused absences, and tardies by semester-cycle
- The description of the grading type as entered on [Manage Elementary Skills-Based Report Cards - Page 1](#) under **Grading Type Description**. On report cards, this is displayed under the **Grading Guide** heading.

\* Expectations for the cycle or quarter may also be displayed.

The following may also be included:

- A description of a specific skill is displayed in italic font below the skill name, as entered by an administrator on [Admin > Manage Elementary Skills Sets](#). This description is unique to the skill.
- A skill note may be displayed below the skill name with a bullet if it was entered by an administrator on the [Admin > Manage Elementary Skills-Based Report Cards](#) page. The skill note is unique to the skill and the report card.
- A student-specific skillset note may be displayed below the skillset if it was entered by the teacher on [Grades > Elementary Report Cards > Elementary Report Cards Student Notes > Skillset Notes](#).
- Under **Teacher Notes**, the notes entered on the [Elementary Report Card Student Notes](#) page by semester-cycle are displayed.
- If the report card is set up to assess only certain skills during a semester-cycle, the report card is shaded to indicate the skills being assessed in the semester-cycle for which the report card was printed. The table cells for skills that are not being assessed are shaded gray. Note that background printing must be enabled in order for the shading to appear on the printed report cards.
- Quarters 1-4 may be displayed instead of semesters-cycles, depending on the setting entered on [Admin > Manage Elementary Skills-Based Report Cards](#).

## Printing tips

Report cards are designed to print with the parent/guardian address positioned so that it appears in the window of a standard envelope if the paper is folded into thirds. (This also applies to elementary skills-based IPRs printed via [Grades > Elementary Report Cards > Print Elementary Report Card](#).)

Background colors may not automatically print, depending on your browser settings. For more information, [click here](#).

Before printing report cards or IPRs, you may want to change the Page Setup options to enable or disable printing of headers and footers. **Be aware** that if the headers and footers are disabled, page numbers are not printed, and there is a risk of the report pages (i.e., the actual papers) getting out of order inadvertently. This could potentially result in a student receiving the wrong subsequent pages of the report card or IPR if there are multiple pages. However, you may want the headers and footers disabled for a neater appearance.

- In the browser from the File menu, select Page Setup.
- Under **Headers and Footers**, ensure that one of the **Headers** or **Footers** fields is set to display the page number. Or, clear all **Headers** and **Footers** fields to print report cards without this data.

**IMPORTANT:** Make note of any data that you are deleting so you can reset the headers and footers after you print the report cards or IPRs.

- Click **OK** to save the settings and close the Page Setup dialog box.

## Print report cards:

After you enter and save any notes for the report cards and select the type of report card you want to print, click **Print selected student report cards**. The page displays report cards for all students selected on the Print Elementary Report Cards for Campus page.

From [Print Elementary Report Cards](#), select the report card and options, and click **Print selected student report cards**.

Click **Print**.

Although the report cards are displayed on the screen without page breaks, each report card prints individually with page breaks between each report card.

Click **Return to Elementary Report Card selection page** to return.

[Print Elementary Report Cards:](#)

## Print Elementary Report Cards

**Grades > Elementary Report Cards > Print Elementary Report Card**

This page allows you to select the elementary students for whom you want to print report cards. The report cards display data as set up on the Admin - Manage Skills-Based Report Cards pages.

These report cards can also be used as interim progress reports if needed. You can change the heading from “Report Card” to “Interim Progress Report” by selecting **Print Elementary Report Card as an IPR**.

**NOTE:** Administrative users can use the Admin > Print Elementary Report Cards for Campus page (which is only available to users who log on to TeacherPortal with a district- or campus-level security administrator user ID) to print all elementary report cards for a particular report card type.

### Print data:

Select the course-section you want to print report cards for:

<b>Semester</b>	Select the semester you want to print report cards for.
<b>Cycle</b>	Select the cycle you want to print report cards for.
<b>Course-Section</b>	Select the course-section you want to print report card for. If the course is marked as ready to post on the Cycle Grades page, the message “[READY]” is displayed next to the course.

Click **Retrieve Data**.

The grid displays all students currently enrolled in the course-section. Students are sorted by last name, unless you have specified a custom sort order on [Settings > Arrange Student Order](#).

[The columns can be re-sorted.](#)

The columns can be sorted according to your preferences.

- An up arrow  indicates the column and order by which the table is currently sorted.
- If a column can be sorted, a sort box  is displayed in the column heading.

- To resort the list by another column heading, click  in the column heading. The column is sorted in ascending order, as indicated by  in the column heading.
- To sort the column in descending order, click  again. The sort arrow changes direction .

If you sort by the last name column, the table sorts by last name, then first name. If you sort by the first name column, the table sorts by first name, then last name.

**NOTE:** Sorting the columns overrides the custom sort order established on the Arrange Student Order page. However, if you leave this page and return, the students are displayed in your custom sort order. (This does not apply on the Post/View Attendance page.)

<b>Show withdrawn</b>	Withdrawn students are displayed in a blue row, and the message “Withdrawn” and the withdrawal date are displayed by the student's name. The withdrawal date may be the student's withdrawal date from school or his withdrawal date from the class.
<b>Print Elementary Report Card as an IPR</b>	Select if you are printing the report card(s) to be used as an interim progress report. If selected, the heading “Interim Progress Report” will appear at the top of the report instead of “Report Card.”  <b>Ensure that this field is <u>not</u> selected if you are producing actual report cards.</b>

<b>Student ID</b>	The student's ID is displayed. Click the student ID to view the <a href="#">student's profile</a> .
-------------------	---

Select the students:

<b>This Class</b>	Select to print a report card for the student for only the selected course-section. If selected, <b>Default View</b> is selected and cannot be changed.
	<b>Check All</b> Select to apply this option for all students in the selected course-section. If selected, you cannot select <b>All My Classes</b> for the students.
<b>Report Card Note</b>	(Optional) Type a note that will be displayed on all report cards selected for printing. If entered, it will appear on the report card above the <b>Teacher Notes</b> section.
<b>Print a Blank Page Between Students</b>	Select to insert a blank page between each student. It is recommended that you select this option if the report card has an odd number of pages and is being printed double sided.

## Print Report Cards (or IPRs):

<b>Comments:</b>			

The semester and cycle are displayed at the top of the IPR. However, the final scores and calculated average are cumulative for the semester.

For standards-based courses, the following is included on a student's IPR:

**A - Conversion Grade:** The grade that appears on Grades > Cycle Grades in the Average column is displayed. It is the student's average to date. The average is cumulative for the semester, even though assignment grades are only displayed for the selected semester-cycle.

**B - Standard Set:** The set of standards with which the graded standard is associated is displayed.

**C - Standard:** The standard is displayed.

**D - Assignment Name:** The assignment associated with the standard is displayed. The grade for each assignment is displayed in the grade column. The assignment grades are displayed for the selected semester-cycle only.

**E - Final Score:** A final score is displayed for each standard. The score displayed is the highest score of the following:

- 
- The student's current average for the standard, which is calculated by adding all scores for all assignments associated with the standard, and dividing by the number of assignments.
  - The student's score as calculated using the power law computation.
  - If an override grade is entered, the override grade is always displayed.

**F - Final Score (standard set):** A final score is displayed for each standard set. This is the average of all final scores for each standard. The final standard set score reflects standard set scores for all cycles in the semester, even though only one cycle is displayed at a time. The average does not include scores of zero, unless zero is a valid grade for the campus. The final standard set score is rounded to one decimal place.

**G - Total Score:** This average of all standard set final scores is displayed, which takes into account all cycles in the semester. This grade is converted to a standard 100%-based grade using a conversion chart established by the district (e.g., 3/80, where 3 is the student's total score, and 80 is the student's converted grade).
