Teacher Guide to ASCENDER TeacherPortal

Overview

Welcome to ASCENDER TeacherPortal!

- Teachers must re-register each year before logging on, as all TeacherPortal non-administrative user accounts are deleted at the end of each school year. **Administrative user accounts are retained.**
- To register, you must provide your staff ID and name. You must be associated with the district for the current school year. Upon registering, you will create your user name, password, and PIN.
- A staff ID can be associated with multiple user accounts, which allows you to have both a teacher account and one or more administrator accounts. The user name must be different for each account.

IMPORTANT: Upon initial account creation or log on to the portal, the End User License Agreement (EULA) for ASCENDER is displayed. Users must accept the agreement in order to proceed.

NOTE:

- If you forgot your password or PIN, click **Forgot Password** on the [Login](#) page to go to the [Reset Password](#) page where you can reset your password using an automated process.
- If you forgot your user name, click **Forgot User Name**.

Teachers who do not have administrative access are directed to the Announcements page upon logging on. The Admin menu is not displayed in the main menu, and some reports that require administrative access are not displayed in the Reports submenu.

- Teachers of courses where students must meet UIL eligibility requirements (e.g., band or athletics) can be granted access to the UIL report in the Reports menu. The UIL report allows a

teacher to view the students' working cycle averages for all of their courses to determine UIL eligibility and locate students who may be at risk of losing eligibility.

- Teachers can be given permission to create campus-wide or course-wide groups of students in TeacherPortal. Special group reports are available that provide data for the student groups.

Click the cycle average to view additional information on a posted cycle. A window opens to display the posted cycle average, calculated cycle average, citizenship grade, and report card comments for the cycle. Click **close** to close the window.

NOTE: For transfer students, the prior cycle grades are entered at the campus level.

SELF-PACED COURSES

For self-paced courses, a modified version of the Cycle Grades page is displayed to accommodate cycle grade data for self-paced courses.

Cycle Average If assignment grades are recorded for the self-paced course, the average (based on the assignment grades) appears under **Cycle Average**. The use of assignment grades is optional for self-paced courses.

Override The final grade for a self-paced course must be manually entered in the **Override** field, regardless of the data in the other fields.

The semester grades for self-paced courses are automatically posted when they are saved.

Once saved, failing grades are highlighted in pink.

Save and print:

You must save your grades before you exit this page. Otherwise, your changes will be lost.

IMPORTANT: Saving grades is different from posting grades. You can only post your grades once at the end of the cycle, as described below; however, you must save any changes every time you visit this page. This allows you to leave this page and return as you enter cycle grade data.

PIN Type your four-digit personal identification number (PIN).

Click **Save**.

- If your changes were saved successfully, the page reloads, and a message is displayed indicating that the grades were saved successfully.
- If you enter an invalid grade, the grade is highlighted in red, and an error message is displayed at the top of the page. You must correct the error before you can save any changes.

Print	Click to print the cycle grades displayed on the page.

Post cycle grades:

After you enter cycle grades data for the course, review your input carefully, and save all changes.

Once the data is posted by the campus administrator, you cannot change any data. If you discover an error after grades are posted, you must contact the campus administrator to correct any errors.

When you are satisfied with your input for one or more of the cycle grades, notify the system that you are ready to post:

Select courses to mark grades as Ready to Post	<p>Click the link.</p> <p>This link is only displayed for current cycles that are open for posting. The window opens allowing you to re-select the course(s).</p>
PIN	Type your four-digit personal identification number (PIN).

Click **Continue**.

The page reloads, and a message is displayed indicating that the cycle grades were

successfully sent to be posted. The message “[READY]” is displayed in the **Course-Section** drop-down list next to the course.

You can submit your grades more than one time if you make a change shortly after mark the grades as ready to post; however, once the data is posted by the campus administrator, you cannot change any data.

After grades are posted and the cycle is closed, you can make changes to the grades and view the working cycle average (e.g., for a student who missed the last few days of a cycle due to illness); however, you cannot post any changes. Instead, print your changes and submit your printout to the campus administrator.

NOTE: The campus administrator can run a report to determine which teachers have posted their grades and which teachers have not.

LAST CYCLE/END OF SEMESTER

For campuses that do not have semester exams every semester (e.g., a four-semester campus that has semester exams at the end of the second and fourth semesters), the semester averages are only calculated if there is a semester exam for the current semester.

During semesters that have semester exams:

- The **Exam** field is displayed.
- The **Working Average** field displays the average of the cycles since the last semester that had an exam. The semester exam is included in the calculation according to campus settings.
- If the current cycle is the last cycle of the semester, the **Exam** and **Working Average** fields are displayed under the heading **Semester Grades**. Otherwise, the working semester average is displayed under the heading **Semester Average**.
- When you view a previous semester that has a semester exam, the **Exam** and **Working Average** fields display the posted grades.

During semesters that do not have semester exams:

- The **Exam** field is *not* displayed.
- The **Working Average** field displays the average of the cycles since the last semester that had an exam. When you view a previous semester that does not have a semester exam, neither the exam nor the semester average is displayed.
- If a final grade has been posted for the course, the grade is displayed under the **Working Final Grade** heading.
- If the semester is closed, the **Posted Average** field displays the average from the grade course record.

Working Final Grade	<p>The working final grade includes the posted semester average for any previous semesters and the working semester average for the current semester.</p> <p>The working final grade is not displayed for campuses that use the semester grading concept.</p> <p>The working final grade is recalculated when a semester exam or an override grade is entered for the current semester.</p> <p>If a posted semester average exists for the current semester, the posted semester average is used in the final grade calculation. If there is no posted semester average for the current semester, but an override semester grade exists, the override grade is used in the final grade calculation.</p> <p>If the student was enrolled in one section of a course during semester one, and another section of the same course in semester two, the average for each semester is used to calculate the working final grade.</p> <p>For situations where a student has been enrolled in more than one section of the same course during the first semester, and another section of the course during the second semester, the following applies:</p> <p>NOTE: For alpha grades, it is possible that the student's working cycle average from the Assignment Grades page will differ from the Working Average and Working Final Grade on the Cycle Grades page. The Cycle Grades page uses the highest grade in the range from the corresponding grade conversion table to determine the working average. For example, if the teacher posted a cycle average of 83, it will be converted to a B in the campus records. The Cycle Grades page reads the posted grade B and uses the grade conversion table to determine the Working Average and Working Final Grade. If the highest grade in the range in the grade conversion table is 89, the grade 89 is displayed on the Cycle Grades page.</p> <ul style="list-style-type: none"> • If a semester average exists for only one of the first semester course sections, the semester one average is used to calculate the working final grade. • If a semester average exists for both of the first semester course sections, the system does not determine which average to use for the first semester. In this case, a question mark (?) is displayed for the semester one average and the working final grade. <p>For an elementary course that is set to calculate grades using the cumulative year-to-date average (which does not use semester grades), the working final grade will include each posted cycle grade.</p> <p>Example 1: $(\text{Cycle 1} + \text{Cycle 2}) / 2 = \text{working final grade for cycle 2}$. Example 2: $(\text{Cycle 1} + \text{Cycle 2} + \text{Cycle 3}) / 3 = \text{working final grade for semester 1}$. Example 3: $(\text{Cycle 1} + \text{Cycle 2} + \text{Cycle 3} + \text{Cycle 4} + \text{Cycle 5} + \text{Cycle 6}) / 6 = \text{working final grade for semester 2}$.</p> <p>For students who were enrolled in a different section of the same course during a previous semester, the working final grade includes the posted semester average for the other section.</p>

SELF-PACED COURSES

For self-paced courses, a modified version of the Cycle Grades page is displayed to accommodate cycle grade data for self-paced courses.

Cycle Average	If assignment grades are recorded for the self-paced course, the average (based on the assignment grades) appears under Cycle Average . The use of assignment grades is optional for self-paced courses.

The semester grades for self-paced courses are automatically posted when they are saved.

Once saved, failing grades are highlighted in pink.

Save and print:

You must save your grades before you exit this page. Otherwise, your changes will be lost.

IMPORTANT: Saving grades is different from posting grades. You can only post your grades once at the end of the cycle, as described below; however, you must save any changes every time you visit this page. This allows you to leave this page and return as you enter cycle grade data.

PIN	Type your four-digit personal identification number (PIN).
------------	--

Click **Save**.

- If your changes were saved successfully, the page reloads, and a message is displayed indicating that the grades were saved successfully.
- If you enter an invalid grade, the grade is highlighted in red, and an error message is displayed at the top of the page. You must correct the error before you can save any changes.

Print	Click to print the cycle grades displayed on the page.

Post semester grades:

After you enter semester grades data for the course, review your input carefully, and save all changes.

Once the data is posted by the campus administrator, you cannot change any data. If you discover an error after grades are posted, you must contact the campus administrator to correct any errors.

When you are satisfied with your input for one or more of the cycle grades, notify the system that you are ready to post:

<p>Select courses to mark grades as Ready to Post</p>	<p>Click the link.</p> <p>This link is only displayed for current cycles that are open for posting. The window opens allowing you to re-select the course(s).</p>
<p>PIN</p>	<p>Type your four-digit personal identification number (PIN).</p>

Click **Continue**.

The page reloads, and a message is displayed indicating that the cycle grades were successfully sent to be posted. The message “[READY]” is displayed in the **Course-Section** drop-down list next to the course.

You can submit your grades more than one time if you make a change shortly after mark the grades as ready to post; however, once the data is posted by the campus administrator, you cannot change any data.

After grades are posted and the cycle is closed, you can make changes to the grades and view the working cycle average (e.g., for a student who missed the last few days of a cycle due to illness); however, you cannot post any changes. Instead, print your changes and submit your printout to the campus administrator.

NOTE: The campus administrator can run a report to determine which teachers have posted their grades and which teachers have not yet posted their grades.
