**NOTE:** For transfer students, the prior cycle grades are entered at the campus level.

**SELF-PACED COURSES**

<b>CURRENT CYCLE</b>	
For self-paced courses, a modified version of the Cycle Grades page is displayed to accommodate cycle grade data for self-paced courses.	
<b>Cycle Average</b>	If assignment grades are recorded for the self-paced course, the average (based on the assignment grades) appears under <b>Cycle Average</b> . The use of assignment grades is optional for self-paced courses.
<b>Override</b>	The final grade for a self-paced course must be manually entered in the <b>Override</b> field, regardless of the data in the other fields.
The semester grades for self-paced courses are automatically posted when they are saved.	

Once saved, failing grades are highlighted in pink.

### Save and print:

You must save your grades before you exit this page. Otherwise, your changes will be lost.

**IMPORTANT:** Saving grades is different from posting grades. You can only post your grades once at the end of the cycle, as described below; however, you must save any changes every time you visit this page. This allows you to leave this page and return as you enter cycle grade data.

<b>PIN</b>	Type your four-digit personal identification number (PIN).
------------	--

Click **Save**.

- If your changes were saved successfully, the page reloads, and a message is displayed indicating that the grades were saved successfully.
- If you enter an invalid grade, the grade is highlighted in red, and an error message is displayed at the top of the page. You must correct the error before you can save any changes.

<b>Print</b>	Click to print the cycle grades displayed on the page.
--------------	--

### Post cycle grades:

After you enter cycle grades data for the course, review your input carefully, and save all changes.

Once the data is posted by the campus administrator, you cannot change any data. If you discover an error after grades are posted, you must contact the campus administrator to correct any errors.

When you are satisfied with your input for one or more of the cycle grades, notify the system that you are ready to post:

<p><b>Select courses to mark grades as Ready to Post</b></p>	<p>Click the link.</p> <p>This link is only displayed for current cycles that are open for posting. The campus determines when the cycle is open and closed for posting.</p> <p>A window opens allowing you to select the course-sections that are ready to post. All eligible courses are listed.</p> <p><input type="checkbox"/> Select the course(s), and then click <b>Select</b>. The window closes, and the selected course(s) are listed below the <b>PIN</b> field.</p> <p><input type="checkbox"/> To change the selected courses, click <b>Cancel</b>. The window opens allowing you to re-select the course(s).</p>
<p><b>PIN</b></p>	<p>Type your four-digit personal identification number (PIN).</p>

Click **Continue**.

The page reloads, and a message is displayed indicating that the cycle grades were successfully sent to be posted. The message “[READY]” is displayed in the **Course-Section** drop-down list next to the course.

You can submit your grades more than one time if you make a change shortly after mark the grades as ready to post; however, once the data is posted by the campus administrator, you cannot change any data.

After grades are posted and the cycle is closed, you can make changes to the grades and view the working cycle average (e.g., for a student who missed the last few days of a cycle due to illness); however, you cannot post any changes. Instead, print your changes and submit your printout to the campus administrator.

**NOTE:** The campus administrator can run a report to determine which teachers have posted their grades and which teachers have not.

<b>Posted Average</b>	<p>The field is blank until a semester grade is posted. Then, the posted semester grade is displayed.</p>		

**LAST CYCLE/END OF SEMESTER**

For campuses that do not have semester exams every semester (e.g., a four-semester campus that has semester exams at the end of the second and fourth semesters), the semester averages are only calculated if there is a semester exam for the current semester.

**During semesters that have semester exams:**

- The **Exam** field is displayed.
- The **Working Average** field displays the average of the cycles since the last semester that had an exam. The semester exam is included in the calculation according to campus settings.
- If the current cycle is the last cycle of the semester, the **Exam** and **Working Average** fields are displayed under the heading **Semester Grades**. Otherwise, the working semester average is displayed under the heading **Semester Average**.
- When you view a previous semester that has a semester exam, the **Exam** and **Working Average** fields display the posted grades.

**During semesters that do not have semester exams:**

- The **Exam** field is *not* displayed.
- The **Working Average** field displays the average of the cycles since the last semester that had an exam. When you view a previous semester that does not have a semester exam, neither the exam nor the semester average is displayed.
- If a final grade has been posted for the course, the grade is displayed under the **Working Final Grade** heading.
- If the semester is closed, the **Posted Average** field displays the average from the grade course record.

<b>Working Final Grade</b>	<p>The working final grade includes the posted semester average for any previous semesters and the working semester average for the current semester.</p> <p>The working final grade is not displayed for campuses that use the semester grading concept.</p> <p>The working final grade is recalculated when a semester exam or an override grade is entered for the current semester.</p> <p>If a posted semester average exists for the current semester, the posted semester average is used in the final grade calculation. If there is no posted semester average for the current semester, but an override semester grade exists, the override grade is used in the final grade calculation.</p> <p>If the student was enrolled in one section of a course during semester one, and another section of the same course in semester two, the average for each semester is used to calculate the working final grade.</p> <p>For situations where a student has been enrolled in more than one section of the same course during the first semester, and another section of the course during the second semester, the following applies:</p> <p><b>NOTE:</b> For alpha grades, it is possible that the student's working cycle average from the Assignment Grades page will differ from the <b>Working Average</b> and <b>Working Final Grade</b> on the Cycle Grades page. The Cycle Grades page uses the highest grade in the range from the corresponding grade conversion table to determine the working average. For example, if the teacher posted a cycle average of 83, it will be converted to a B in the campus records. The Cycle Grades page reads the posted grade B and uses the grade conversion table to determine the <b>Working Average</b> and <b>Working Final Grade</b>. If the highest grade in the range in the grade conversion table is 89, the grade 89 is displayed on the Cycle Grades page.</p> <ul style="list-style-type: none"> <li>• If a semester average exists for only one of the first semester course sections, the semester one average is used to calculate the working final grade.</li> <li>• If a semester average exists for both of the first semester course sections, the system does not determine which average to use for the first semester. In this case, a question mark (?) is displayed for the semester one average and the working final grade.</li> </ul> <p>For an elementary course that is set to calculate grades using the cumulative year-to-date average (which does not use semester grades), the working final grade will include each posted cycle grade.</p> <p>Example 1: <math>(\text{Cycle 1} + \text{Cycle 2}) / 2 = \text{working final grade for cycle 2}</math>.  Example 2: <math>(\text{Cycle 1} + \text{Cycle 2} + \text{Cycle 3}) / 3 = \text{working final grade for semester 1}</math>.  Example 3: <math>(\text{Cycle 1} + \text{Cycle 2} + \text{Cycle 3} + \text{Cycle 4} + \text{Cycle 5} + \text{Cycle 6}) / 6 = \text{working final grade for semester 2}</math>.</p> <p>For students who were enrolled in a different section of the same course during a previous semester, the working final grade includes the posted semester average for the other section.</p>
<b>CLOSED CYCLES &amp; SEMESTERS</b>

For closed semesters, the posted semester grades are displayed under the **Posted Sem: #** heading, where # is the closed semester. If you are currently in the first semester, the **Posted Sem #** heading is not displayed.

If a cycle or semester is closed, the average is pulled from the grade course record and is display only. If an override grade was entered for the cycle or semester grade, the override grade is displayed.

Click the cycle average to view additional information on a posted cycle. A window opens to display the posted cycle average, calculated cycle average, citizenship grade, and report card comments for the cycle. Click **close** to close the window.

**NOTE:** For transfer students, the prior cycle grades are entered at the campus level.

**SELF-PACED COURSES**

For self-paced courses, a modified version of the Cycle Grades page is displayed to accommodate cycle grade data for self-paced courses.

<b>Cycle Average</b>	If assignment grades are recorded for the self-paced course, the average (based on the assignment grades) appears under <b>Cycle Average</b> . The use of assignment grades is optional for self-paced courses.
<b>Override</b>	The final grade for a self-paced course must be manually entered in the <b>Override</b> field, regardless of the data in the other fields.

The semester grades for self-paced courses are automatically posted when they are saved.

Once saved, failing grades are highlighted in pink.

**Save and print:**

You must save your grades before you exit this page. Otherwise, your changes will be lost.

**IMPORTANT:** Saving grades is different from posting grades. You can only post your grades once at the end of the cycle, as described below; however, you must save any changes every time you visit this page. This allows you to leave this page and return as you enter cycle grade data.

<b>PIN</b>	Type your four-digit personal identification number (PIN).
------------	--

Click **Save**.

- If your changes were saved successfully, the page reloads, and a message is displayed indicating that the grades were saved successfully.
- If you enter an invalid grade, the grade is highlighted in red, and an error message is displayed at the top of the page. You must correct the error before you can save any changes.

<b>Print</b>	Click to print the cycle grades displayed on the page.
--------------	--

**Post semester grades:**

After you enter semester grades data for the course, review your input carefully, and save all changes.

Once the data is posted by the campus administrator, you cannot change any data. If you discover an error after grades are posted, you must contact the campus administrator to correct any errors.

When you are satisfied with your input for one or more of the cycle grades, notify the system that you are ready to post:

<p><b>Select courses to mark grades as Ready to Post</b></p>	<p>Click the link.</p> <p>This link is only displayed for current cycles that are open for posting. The campus determines when the cycle is open and closed for posting.</p> <p>A window opens allowing you to select the course-sections that are ready to post. All eligible courses are listed.</p> <p><input type="checkbox"/> Select the course(s), and then click <b>Select</b>. The window closes, and the selected course(s) are listed below the <b>PIN</b> field.</p> <p><input type="checkbox"/> To change the selected courses, click <b>Cancel</b>. The window opens allowing you to re-select the course(s).</p>
<p><b>PIN</b></p>	<p>Type your four-digit personal identification number (PIN).</p>

☐ Click **Continue**.

The page reloads, and a message is displayed indicating that the cycle grades were successfully sent to be posted. The message “[READY]” is displayed in the **Course-Section** drop-down list next to the course.

You can submit your grades more than one time if you make a change shortly after mark the grades as ready to post; however, once the data is posted by the campus administrator, you cannot change any data.

After grades are posted and the cycle is closed, you can make changes to the grades and view the working cycle average (e.g., for a student who missed the last few days of a cycle due to illness); however, you cannot post any changes. Instead, print your changes and submit your printout to the campus administrator.

**NOTE:** The campus administrator can run a report to determine which teachers have posted their grades and which teachers have not yet posted their grades.

[Reports > Attendance Verification](#)

This report displays attendance for all of your students for a selected course-section and date range. You can view data for up to one semester. You can also generate a summary report that displays only totals for the selected date range.

The following codes are used:

- A - Excused absence
- S - School-related absences
- T - Tardy
- X - Truant

An asterisk next to the attendance code indicates that the absence or tardy occurred in a course other than the course the student is currently enrolled in (e.g., if he transferred from one course to another during the school year).

#### NOTES:

- Inservice work days are indicated with an I in the column heading.
- Saturday may be a valid attendance date, even if the course does not meet on Saturday. This may be used for bad weather makeup days.
- If you are printing the report for more than three weeks, you should set the printer orientation setting to landscape or the **Page Scaling** field to *Shrink to Printable Area*. If the *Shrink to Printable Area* setting is not enabled, the landscape orientation will accommodate up to six weeks plus the **Total** column per page. Additional weeks (up to one semester) can be generated by entering the appropriate dates in the **From Date** and **To Date** fields; however, the report will print on multiple sheets of paper with a **Total** column on each page.

If printed for all periods, each period prints on a separate page.

**NOTE:** If that field has been changed, and the seating charts have not been re-saved on [Settings > Manage Charts](#) since the setting was changed, a warning message is displayed

when the report is generated indicating that the reports will not be accurate until the Manage Seating Charts page has been re-saved. You must review the seating chart for each period on the Manage Seating Charts page, make any necessary changes, and then re-save each chart.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.	
<b>Period</b>	Select the period-course(s) to print the seating chart for, or select <i>ALL CLASSES</i> to print seating charts for all periods.  If <b>Combine Courses in Attendance</b> is selected on your <a href="#">Settings &gt; Update Profile</a> page, the courses are combined by period.	
<b>width</b>	Select the width setting for the report.	
	<b>Fixed Seat Width</b>	Select to print a report in which all seats are the same width.  This setting works for small and average-size classes. For larger classes, some seats may not print on the page.
	<b>Auto-Adjusted Seat Width</b>	Select to print a report in which each column is adjusted to the student name. Each column is only wide enough to accommodate the longest name in the column; therefore, some columns are wider than others. This setting is a better option for larger classes.
	For either width setting, you can adjust the orientation when you print. Select <b>Landscape</b> to increase the number of students that fit on the page.	
<b>Show Pictures</b>	Select to display student photos in the seating chart. Photos are only available if they have been added by the district.
