# Teacher Guide to ASCENDER TeacherPortal

## First Day of School

**IMPORTANT:** Attendance is not taken on the first day of school. Students are not marked absent on the first day of school.

### For campuses NOT using Student Activation/First Day Counts:

On the first day of school, teachers cannot use TeacherPortal to record or post attendance during the ADA period. You can only view and print data, and you must record attendance manually on the printed sheets.

1. Click **Print** to print the attendance list for each period-course. The Attendance Roster Report Selection page opens allowing you to make selections for printing the Attendance Roster report.
2. Mark attendance on the list manually.
3. If you have students in a period who are not on the attendance list, print their names and student IDs in the rows provided at the bottom of the list.
4. Sign and date the list on the lines provided.

### Student Activation/First Day Counts:

Activating students using this process allows you to identify No Show students and correctly enroll students who begin school after the first day of school. It also ensures that students who do show up for school have the proper enrollment dates for the district, campus, special programs, and first semester courses.

The primary way students are activated is by teachers recording attendance in TeacherPortal. Once teachers have marked and posted attendance, the campus staff can address the individual students who could not be activated by teachers.

All students are marked inactive before school starts. As you take attendance, the students are activated as they show up in class. After a period of time (determined by each campus), any student who has not been activated is considered a No Show.

The TeacherPortal Post/View Attendance displays differently during the activation window: Teachers mark present students as Activated rather than Present.

**REMINDER:** On the first day of school, a student cannot be marked as absent.

From this page, you can print the attendance list for each period-course (or the campus can supply a class roster). If a student shows up in a period who is not on the attendance list, you must write the student's name and ID either in the blank rows provided at the bottom of the list, or on the form provided by the district/campus, and submit to the campus office.

<b>Last day for mass activation</b>	During the activation window, this field is displayed above the attendance grid, which indicates the final date of the activation window. If there are students from multiple attendance tracks enrolled in the course, and the tracks have different ending dates for mass activation, all dates are displayed with the track number in parentheses.
<b>Attendance</b>	<p>On the first day of school, in the <b>Attendance</b> column, the <b>Activate</b> and <b>Inactive</b> fields are displayed for all students instead of the <b>Absent</b> and <b>Present</b> fields. All students are set to <b>Inactive</b> by default.</p> <p><b>Activate</b> Select on the first day-period the student is present.</p> <p>Activation is a one-time process. Once a student has been activated in any period by any teacher, the student is active for all remaining periods for the day, and subsequent teachers will mark attendance using the <b>Absent</b> and <b>Present</b> fields.</p> <p>The next period you have the student (either later in the day or the next class date), the <b>Absent</b>, <b>Tardy</b>, and <b>Present</b> fields will be displayed for the student.</p> <p><b>NOTE:</b> Activated students are considered present and are included in the total number of students displayed in the <b># Students</b> field at the bottom of the grid.</p> <p><b>Inactive</b> If the student is not present, leave that student set to <b>Inactive</b> until they attend class.</p> <p>As long as the student is marked as <b>Inactive</b>, he is considered a No Show. You cannot mark attendance for an inactive student. Inactive students are not included in the total number of students displayed in the <b># Students</b> field at the bottom of the grid.</p> <p><b>NOTE:</b> If there are students from multiple attendance tracks enrolled in the course, and the tracks have different ending dates for mass activation, the track number is displayed in parentheses in the <b>Attendance</b> column.</p>

Click **Post**.

---

If you activate a student *after* the first day of school, but during the activation window, the following occurs:

- A No Show record is created for the student on the first day of school.
- An enrollment record is created with the entry date set to the student's activation date.
- The student's enrollment date in all courses on the campus for the semester is set to the activation date.
- The student's special program enrollment date(s) are set to the activation date, if applicable.
- If the student's original entry date has a current year date (i.e., the first day of school), the student's original entry date is changed to the activation date.

During the activation window, you may have a mix of activated and inactivated students in your classes.

- Activated students will have the **Present/Absent/Tardy** options displayed.
- Inactive students will have the **Activate/Inactive** options displayed.

The Attendance Roster report will display the **Activate** and **Inactive** fields for students who have not yet been activated.

Once the activation window has ended:

Any students who remained inactive will have the message "Attendance Exempt" displayed in the **Attendance** column. Attendance cannot be marked for these students.

These students will no longer be displayed on the rosters once the campus has created the No Show records.

## Teacher Guide to ASCENDER TeacherPortal

# Long-Term Substitute Teachers

Long-term substitute teachers can be granted access to use TeacherPortal on behalf of a teacher who is away for an extended period of time. When substitute teachers log in to TeacherPortal, they can select the teacher for whom they are substitute teaching. Then, the substitute teachers can proceed to use TeacherPortal as the teacher.

## Prerequisites.

Before a long-term substitute teacher can access TeacherPortal, a substitute teacher record must already exist for him in TeacherPortal. These steps are covered in the TeacherPortal Administrator guide.

## Create an ASCENDER TeacherPortal account.

A long-term substitute teacher must create a TeacherPortal account in order to log on to TeacherPortal. Substitute teachers will log on to TeacherPortal with their own accounts, rather than with the teacher's account.

From the Login page, click **Create Account**. The User Information page is displayed.

To exit without saving any changes, click **Return to Login**.

## User Information:

The screenshot shows a 'Create Account' form with a progress bar at the top. The progress bar has four steps: 'User Information' (active, indicated by a red dot), 'Basic Information', 'Security Question', and 'Complete'. Below the progress bar, there are three input fields: 'Staff ID', 'Last Name', and 'First Initial'. At the bottom right, there are two buttons: 'Next' (green) and 'Cancel' (white with red border).

<b>Staff ID</b>	Type your staff ID number.
<b>Last Name</b>	Type your last name
<b>First Initial</b>	Type the first letter of your first name.

Click **Next**.

If you entered the data correctly, the Basic Information step opens.

### Basic Information:

The screenshot shows the 'Create Account' form with the progress bar now highlighting the 'Basic Information' step with a red dot. The 'User Information' step is now greyed out. There are four input fields: 'User Name', 'Password', 'Password Verification', and 'Current PIN'. The 'Password' and 'Password Verification' fields have eye icons to toggle visibility. At the bottom right, there are three buttons: 'Back' (green), 'Next' (green), and 'Cancel' (white with red border).

<b>User Name</b>	Type a unique user name that will identify you when you log on to the system, such as a combination of letters from your first and last name. <ul style="list-style-type: none"> <li>• Your user name must be 6-25 alphanumeric characters and must be unique within the district.</li> <li>• Your user name is not case-sensitive.</li> <li>• If you type a name that is already used, available alternatives are suggested.</li> </ul>
<b>Password</b>	Type a password that you will use when you log on to TeacherPortal. Requirements: Between 16 and 46 characters. Must include at least one of each of the following character types: <ul style="list-style-type: none"> <li>• Uppercase letters (A-Z)</li> <li>• Lowercase letters (a-z)</li> <li>• Numbers (0-9)</li> <li>• At least one allowed special character</li> </ul> Forbidden characters: space, !, ?, *, &, ^
<b>Password Verification</b>	Retype the password exactly as you typed it above. This step confirms that you typed your password as you intended.
<b>PIN</b>	Type a four-digit numeric personal identification number (PIN) that you will use when you post data in TeacherPortal. <b>Avoid using 1234, 4321, or all the same number, as these are common and easily guessed.</b>

Click **Next**.

If you entered all required data correctly, the Security Question step opens.

### Security Question:

<b>Question</b>	Select three questions to which you will provide an answer. The questions are asked in the event that you forget your password.  You must select three different questions. You cannot repeat any questions/answers.
<b>Answer</b>	Type the answer to each question. If you forget your password, you will be required to answer the question correctly in order to recover your account. Be sure to select questions for which you will easily remember your answer. Answers are case sensitive.

## License Agreement

Review and accept the End User License Agreement (EULA) for ASCENDER. This agreement must be accepted in order to proceed.

Select **Accept**.

Click **Next**.

If you entered all required data, the Complete page opens.

□ Click **Finish**.

The Announcements page opens.

[Log on to TeacherPortal.](#)

Substitute teachers must log on using their own credentials.

If you are continuing from the previous step and are already logged on, you can skip this step.

If you are not already logged on, you must log on to TeacherPortal using the user name and password created in the previous step. Once you are logged on, you can access the pages for the remaining steps.

<b>User Name</b>	Type your user name. Your user name is not case-sensitive.
<b>Password</b>	Type your password. The typed text is hidden. Your password is case sensitive.

Click **Login**.

The Announcements page is displayed.

For security purposes, your password will expire periodically. If your password is expired, you are redirected to the [Password Expired](#) page before the Announcements page is displayed. Follow the instructions provided in the online Help for the Password Expired page.

[Specify the teacher.](#)

When you log in to TeacherPortal, the Announcements page is the first page displayed. From here, you must specify the teacher you are substitute teaching for. You must select the teacher each time you log in.

### 001 School Announcements

Teachers,

**Start of school year: All Teachers, new and returning, must create his or her account as a new user each year.**

In the **Substitute For** field, select the teacher you are substitute teaching for.

- Only teachers you are assigned to teach for are listed.
- The beginning and ending dates also determine which teachers are listed.

If the beginning date is in the future, the teacher is not listed until the current date is within the range of dates specified. Once the current date is past the substitute's ending date, the teacher is no longer listed.

Click **Teacher**.

A message is displayed indicating that you are now substitute teaching for the selected teacher. The teacher's three-digit control number is also provided.

**NOTE:** Once you have selected a teacher, the Update Profile page is no longer available. See the Update Profile Settings section below for information about how to update your profile settings.

To select another teacher, you must log out, and log in again.

[Use TeacherPortal as the teacher.](#)

When logged in as a long-term substitute teacher, you can maintain and print most data that the teacher would be able to access, including attendance, assignments, grades, discipline, and reports.

For assistance with these pages, view the online Help for each page.

As you update and post data in the database tables, be aware that the teacher's name will be associated with some actions, and the substitute teacher's name will be associated with other actions.

- If you mark grades as ready to post, the teacher's name is reflected.
- If you post attendance, the teacher's name is reflected.
- If you enter a discipline referral, the substitute's name is reflected.

[Update profile settings as needed.](#)

Once you have selected a teacher from the Announcements page, the Settings > Update Profile page is no longer available.

If you need to make changes to your profile, you must log out, and then log in and access the Update Profile page before selecting a teacher.

For assistance with the fields on the page, view the online Help.

## Reports:

[Generate seating chart report.](#)

## Reports > Seating Charts

This report prints a teacher's seating charts for all periods or one period. For each period, the seating chart is displayed followed by a list of students who are not assigned to seats. The seating chart lists the student name, gender, and ID.

If printed for all periods, each period prints on a separate page.

**NOTE:** If that field has been changed, and the seating charts have not been re-saved on [Settings > Manage Charts](#) since the setting was changed, a warning message is displayed when the report is generated indicating that the reports will not be accurate until the Manage Seating Charts page has been re-saved. You must review the seating chart for each period on the Manage Seating Charts page, make any necessary changes, and then re-save each chart.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.	
<b>Period</b>	Select the period-course(s) to print the seating chart for, or select <i>ALL CLASSES</i> to print seating charts for all periods.  If <b>Combine Courses in Attendance</b> is selected on your <a href="#">Settings &gt; Update Profile</a> page, the courses are combined by period.	
<b>width</b>	Select the width setting for the report.	
	<b>Fixed Seat Width</b>	Select to print a report in which all seats are the same width.  This setting works for small and average-size classes. For larger classes, some seats may not print on the page.
	<b>Auto-Adjusted Seat Width</b>	Select to print a report in which each column is adjusted to the student name. Each column is only wide enough to accommodate the longest name in the column; therefore, some columns are wider than others. This setting is a better option for larger classes.
	For either width setting, you can adjust the orientation when you print. Select <b>Landscape</b> to increase the number of students that fit on the page.	
<b>Show Pictures</b>	Select to display student photos in the seating chart. Photos are only available if they have been added by the district.	

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

Generate class roster report.

Reports > Class Roster

This report provides a blank class roster by semester and course, including a list of students enrolled in the course and up to 50 blank columns. You can choose the sort order and whether to include the student's birth date and contact information. The report can be exported in CSV format.

If you print the report for a course group, the **Course Section** column is included allowing you to identify the course-section in which the student is enrolled.

<b>Course-Section</b>	Select the course-section and period for which to print the report. The drop down lists the two-digit period and course name. The course number and section number are in parentheses.  If course groups have been created on the Course Grouping page, the groups are listed as well as the individual courses.
<b>Columns</b>	Type the number of blank columns to display on the report, up to 50.

<b>Display Options</b>	<b>Birthday</b>	Select to include the student's birth date. The <b>Birthday</b> column will be included in the report.
	<b>Student Email</b>	Select to include the student's email address.
	<b>Contact Information</b>	Select to include the student's contact information. The <b>Contact Information</b> columns will be included in the report, and all of the student's contacts are listed.  The contact's name, relationship, cell phone, home phone, business phone, other phone, mailing address, and e-mail address are listed.
	<b>Guardian Last Viewed IPR/Report Card Date</b>	Select to include the date on which a parent/guardian last viewed the student's interim progress report (IPR) or report card online.
<b>Sorting Options</b>	Indicate the order in which to sort the report data. You can sort by student name (last name), Student ID, course-section (for course groups), birth date (if included), or custom student order.  Custom student order is the order specified for the course-section on <a href="#">Settings &gt; Arrange Student Order</a> .	

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

## Elementary Skills-Based Grading

[Elementary Report Cards:](#)

### Elementary Report Cards

***Grades > Elementary Report Cards > Print Elementary Report Cards***

This page allows you to print elementary skills-based report cards for the students selected on the [Print Elementary Report Cards](#) page. The page can only be accessed through the Print Elementary Report Cards page.

**IMPORTANT:** Use the Firefox or Chrome browser when printing report cards as an administrator. Do not use Internet Explorer.

The report cards display data according to options set on the [Admin Manage Elementary Skills-Based Report Cards](#) pages. The following components may be included:

- Letter Recognition skills grid \*
- Number Recognition skills grid \*
- Spanish Letter Recognition skills grid \*
- High-Frequency Word Recognition skills grid \*
- Color Word Recognition skills grid \*
- Rote Counting skills grid \*
- Parent/guardian signature line
- Attendance data, including excused absences, unexcused absences, and tardies by semester-cycle
- The description of the grading type as entered on [Manage Elementary Skills-Based Report Cards - Page 1](#) under **Grading Type Description**. On report cards, this is displayed under the **Grading Guide** heading.

\* Expectations for the cycle or quarter may also be displayed.

The following may also be included:

- A description of a specific skill is displayed in italic font below the skill name, as entered by an administrator on [Admin > Manage Elementary Skills Sets](#). This description is unique to the skill.
- A skill note may be displayed below the skill name with a bullet if it was entered by an administrator on the [Admin > Manage Elementary Skills-Based Report Cards](#) page. The skill note is unique to the skill and the report card.
- A student-specific skillset note may be displayed below the skillset if it was entered by the teacher on [Grades > Elementary Report Cards > Elementary Report Cards Student Notes > Skillset Notes](#).
- Under **Teacher Notes**, the notes entered on the [Elementary Report Card Student Notes](#) page by semester-cycle are displayed.
- If the report card is set up to assess only certain skills during a semester-cycle, the report card is shaded to indicate the skills being assessed in the semester-cycle for which the report card was printed. The table cells for skills that are not being assessed are shaded gray. Note that background printing must be enabled in order for the shading to appear on the printed report cards.
- Quarters 1-4 may be displayed instead of semesters-cycles, depending on the setting entered on [Admin > Manage Elementary Skills-Based Report Cards](#).

## Printing tips

Report cards are designed to print with the parent/guardian address positioned so that it appears in the window of a standard envelope if the paper is folded into thirds. (This also applies to elementary skills-based IPRs printed via [Grades > Elementary Report Cards > Print Elementary Report Card](#).)

Background colors may not automatically print, depending on your browser settings. For more information, [click here](#).

Before printing report cards or IPRs, you may want to change the Page Setup options to enable or disable printing of headers and footers. **Be aware** that if the headers and footers are disabled, page numbers are not printed, and there is a risk of the report pages (i.e., the actual papers) getting out of order inadvertently. This could potentially result in a student receiving the wrong subsequent pages of the report card or IPR if there are multiple pages. However, you may want the headers and footers disabled for a neater appearance.

- In the browser from the File menu, select Page Setup.
- Under **Headers and Footers**, ensure that one of the **Headers** or **Footers** fields is set to display the page number. Or, clear all **Headers** and **Footers** fields to print report cards without this data.

**IMPORTANT:** Make note of any data that you are deleting so you can reset the headers and footers after you print the report cards or IPRs.

- Click **OK** to save the settings and close the Page Setup dialog box.

## Print report cards:

After you enter and save any notes for the report cards and select the type of report card you want to print, click **Print selected student report cards**. The page displays report cards for all students selected on the Print Elementary Report Cards for Campus page.

From [Print Elementary Report Cards](#), select the report card and options, and click **Print selected student report cards**.

Click **Print**.

Although the report cards are displayed on the screen without page breaks, each report card prints individually with page breaks between each report card.

Click **Return to Elementary Report Card selection page** to return.

[Print Elementary Report Cards:](#)

## Print Elementary Report Cards

**Grades > Elementary Report Cards > Print Elementary Report Card**

This page allows you to select the elementary students for whom you want to print report cards. The report cards display data as set up on the Admin - Manage Skills-Based Report Cards pages.

These report cards can also be used as interim progress reports if needed. You can change the heading from “Report Card” to “Interim Progress Report” by selecting **Print Elementary Report Card as an IPR**.

**NOTE:** Administrative users can use the Admin > Print Elementary Report Cards for Campus page (which is only available to users who log on to TeacherPortal with a district- or campus-level security administrator user ID) to print all elementary report cards for a particular report card type.

<b>Semester</b>	Select the semester you want to print report cards for.
<b>Cycle</b>	Select the cycle you want to print report cards for.
<b>Course-Section</b>	Select the course-section you want to print report card for. If the course is marked as ready to post on the Cycle Grades page, the message “[READY]” is displayed next to the course.

Click **Retrieve Data**.

The grid displays all students currently enrolled in the course-section. Students are sorted by last name, unless you have specified a custom sort order on [Settings > Arrange Student Order](#).

[The columns can be re-sorted.](#)

The columns can be sorted according to your preferences.

- An up arrow ▲ indicates the column and order by which the table is currently sorted.
- If a column can be sorted, a sort box ▼ is displayed in the column heading.
- To resort the list by another column heading, click ▼ in the column heading. The column is sorted in ascending order, as indicated by ▲ in the column heading.
- To sort the column in descending order, click ▼ again. The sort arrow changes direction ▼.

If you sort by the last name column, the table sorts by last name, then first name. If you sort by the first name column, the table sorts by first name, then last name.

**NOTE:** Sorting the columns overrides the custom sort order established on the Arrange Student Order page. However, if you leave this page and return, the students are displayed in your custom sort order. (This does not apply on the Post/View Attendance page.)

<b>Show withdrawn</b>	Withdrawn students are displayed in a blue row, and the message "Withdrawn" and the withdrawal date are displayed by the student's name. The withdrawal date may be the student's withdrawal date from school or his withdrawal date from the class.
<b>Print Elementary Report Card as an IPR</b>	Select if you are printing the report card(s) to be used as an interim progress report. If selected, the heading "Interim Progress Report" will appear at the top of the report instead of "Report Card."  <b>Ensure that this field is <u>not</u> selected if you are producing actual report cards.</b>

<b>Student ID</b>	The student's ID is displayed. Click the student ID to view the <a href="#">student's profile</a> .
-------------------	---

Select the students:

<b>This Class</b>	Select to print a report card for the student for only the selected course-section. If selected, <b>Default View</b> is selected and cannot be changed.
	<b>Check All</b> Select to apply this option for all students in the selected course-section. If selected, you cannot select <b>All My Classes</b> for the students.
<b>Report Card Note</b>	(Optional) Type a note that will be displayed on all report cards selected for printing. If entered, it will appear on the report card above the <b>Teacher Notes</b> section.
<b>Print a Blank Page Between Students</b>	Select to insert a blank page between each student. It is recommended that you select this option if the report card has an odd number of pages and is being printed double sided.

## Print Report Cards (or IPRs):

[Printing tips](#)

Report cards are designed to print with the parent/guardian address positioned so that it appears in the window of a standard envelope if the paper is folded into thirds. (This also applies to elementary skills-based IPRs printed via [Grades > Elementary Report Cards > Print Elementary Report Card](#).)

Background colors may not automatically print, depending on your browser settings. For more information, [click here](#).

Before printing report cards or IPRs, you may want to change the Page Setup options to enable or disable printing of headers and footers. **Be aware** that if the headers and footers are disabled, page numbers are not printed, and there is a risk of the report pages (i.e., the actual papers) getting out of order inadvertently. This could potentially result in a student receiving the wrong subsequent pages of the report card or IPR if there are multiple pages. However, you may want the headers and footers disabled for a neater appearance.

- In the browser from the File menu, select Page Setup.
- Under **Headers and Footers**, ensure that one of the **Headers** or **Footers** fields is set to display the page number. Or, clear all **Headers** and **Footers** fields to print report cards without this data.

**IMPORTANT:** Make note of any data that you are deleting so you can reset the headers and footers after you print the report cards or IPRs.

- Click **OK** to save the settings and close the Page Setup dialog box.

Click **Print selected student report cards**.

The report cards are displayed on the [Elementary Report Cards](#) page where you can view the report cards before printing them.

## Elementary Letter Skills & Elementary Number Skills

***Grades > Elementary Report Cards > Elementary Letter Skills***  
***Grades > Elementary Report Cards > Elementary Number Skills***

These pages allow you to record whether the student has achieved certain skills related to

alphabet letters and numbers. The pages are only available if the letter skills and number skills grids have been selected for inclusion on the report card on the Admin Skills-Based Report Card Setup - Step 2 page.

Letter and number skills are a cumulative assessment; they are not stored by semester-cycle.

**Update data:**

Select the student:

<b>Course-Section</b>	Select the course-section for which you want to assess a student.
<b>Student</b>	Select a student in the selected course. The student's name is displayed.

Click **Retrieve Data**.

Enter grades:

<b>Letters</b>	On the Letters page:  Under each letter, select the skill (such as <b>Lowercase</b> ) if the selected student has achieved this skill for the letter. You can select <b>Select All</b> if the student has achieved the skill for all letters. A description of the student expectations for the quarter or cycle may also be displayed, if available. <b>NOTE:</b>  Administrative users can add additional skills by editing the Letters skill set on Admin > Elementary Skills-Based Setup.  For courses that are using the Letters (including Spanish) skills set, the Spanish alphabet letters are displayed below the English alphabet letters.	
	<b>Numbers</b>	On the Numbers page:  <b>Numbers</b> For each number, select the skill (such as <b>Identifies</b> ) if the selected student has achieved this skill for the number. You can click <b>Select All</b> if the student has achieved the skill for all displayed numbers. A description of the student expectations for the quarter or cycle may also be displayed, if available.  <b>Rote Counting</b> Select the skill (such as <b>Backwards</b> ) if the selected student has achieved this skill. A description of the student expectations for the quarter or cycle may also be displayed, if available.  <b>NOTE:</b> Administrative users can add additional skills by editing the Numbers and/or Rote Counting skill sets on Admin > Elementary Report Cards > Manage Elementary Skills-Based Courses.

[Elementary Word Skills:](#)

## Elementary Word Skills

**Grades > Elementary Report Cards > Elementary Word Skills**

This page allows you to record whether the student has achieved certain skills related to high-frequency word recognition and color word recognition. The page is only available if the High-Frequency Word List or Color Word Recognition skills have been selected for inclusion on the report card on the Admin Skills-Based Report Card Setup - Step 1 page.

Word skills are a cumulative assessment; they are not stored by semester-cycle.

### Update data:

Select the student:

<b>Course-Section</b>	Select the course-section for which you want to assess a student.
<b>Student</b>	Select a student in the selected course. The student's name is displayed.

Click **Retrieve Data**.

Enter grades:

<b>High Frequency Word List</b>	Select the skill if the selected student has achieved this skill. A description of the student expectations for the quarter or cycle may also be displayed, if available.
<b>Color Word Recognition</b>	Select the color if the selected student has achieved this skill. A description of the student expectations for the quarter or cycle may also be displayed, if available.

**NOTE:** Administrative users can add additional skills by editing the High-Frequency Work Skills or Color Word Recognition skill sets on Admin > Elementary Skills-Based Setup.

## Publish Elementary Skills-Based Report Cards

This guide provides the necessary steps to set up and publish elementary skills-based report cards.

### Prerequisites

Complete the prerequisites:

- [ASCENDER > Grade Reporting > Maintenance > TeacherPortal Options > Campus > Options](#)
  - Select **Use Elementary Skills-based Report Card** to allow teachers to create elementary skills-based report cards.
- [ASCENDER > Grade Reporting > Maintenance > Master Schedule > District Schedule](#)
  - Select **Graded Crs** for all elementary skills-based courses to indicate that the courses will be graded.
- [TeacherPortal > Admin > Elementary Report Cards > Manage Elementary Skills-Based Courses](#)
  - Click **Add Grade Type** and enter a grade type. The grade type indicates the grades set up on a report card and enables an elementary skills-based teacher to grade students appropriately on the [TeacherPortal > Grades > Assignment Grades](#) page. Click **Add** and then **Save**.
  - Click **Add Skill Set** to add a skill set and click **Save**.
  - Click **Add Skill** to add skills to the skill set and click **Save**.
- [TeacherPortal > Admin > Admin Options](#)

- 
- Click **Mark Ready to Post** to mark all courses at the campus including elementary skills-based courses as ready to post.

Complete the following:

- [TeacherPortal Admin > Elementary Report Cards > Manage Elementary Skills-Based Report Cards \(Step 1\)](#)
- [TeacherPortal Admin > Elementary Report Cards > Manage Elementary Skills-Based Report Cards \(Step 2\)](#)

[TeacherPortal > Admin > Elementary Report Cards > Elementary Skills-Based Courses](#)

- Select the **Report Card Type** for the elementary skills-based course.

[TeacherPortal > Grades > Assignment Grades](#)

- Enter elementary skills-based grades.
- If set up for the course's report card, for each student, make selections on the following:
  - Elementary Letter Skills
  - Elementary Number Skills
  - Elementary Word Skills

**TeacherPortal > Settings**

Verify the following:

- The teacher must not have any categories or assignments.
- The teacher must not group elementary skills-based courses.

**Comments:**

The semester and cycle are displayed at the top of the IPR. However, the final scores and calculated average are cumulative for the semester.

For standards-based courses, the following is included on a student’s IPR:

- A - Conversion Grade:** The grade that appears on Grades > Cycle Grades in the Average column is displayed. It is the student’s average to date. The average is cumulative for the semester, even though assignment grades are only displayed for the selected semester-cycle.
- B - Standard Set:** The set of standards with which the graded standard is associated is displayed.
- C - Standard:** The standard is displayed.

---

**D - Assignment Name:** The assignment associated with the standard is displayed. The grade for each assignment is displayed in the grade column. The assignment grades are displayed for the selected semester-cycle only.

**E - Final Score:** A final score is displayed for each standard. The score displayed is the highest score of the following:

- The student's current average for the standard, which is calculated by adding all scores for all assignments associated with the standard, and dividing by the number of assignments.
- The student's score as calculated using the power law computation.
- If an override grade is entered, the override grade is always displayed.

**F - Final Score (standard set):** A final score is displayed for each standard set. This is the average of all final scores for each standard. The final standard set score reflects standard set scores for all cycles in the semester, even though only one cycle is displayed at a time. The average does not include scores of zero, unless zero is a valid grade for the campus. The final standard set score is rounded to one decimal place.

**G - Total Score:** This average of all standard set final scores is displayed, which takes into account all cycles in the semester. This grade is converted to a standard 100%-based grade using a conversion chart established by the district (e.g., 3/80, where 3 is the student's total score, and 80 is the student's converted grade).
