Elementary Skills-Based Courses (Admin)

Admin > Elementary Report Cards > Elementary Skills-Based Courses

This page is only available to users who log on to TeacherPortal with a district- or campus-level security administrator user ID.

This page allows you to associate a course (and all of its sections) with a specific elementary skills-based report card. The settings for the report card determine how grading is handled for the course.

NOTE: If a section is added to a course after the course is selected for elementary skills-based grading, the new section will *not* have elementary skills-based grading associated with it.

Update data:

Courses that are eligible to be set up to use elementary skills-based grading report cards are listed.

Courses that are being used as category- or standards-based/skill-referenced courses (e.g., a category-based course that has one or more categories assigned) are not eligible to be used as an elementary skills-based course.
