# Admin - Manage Standards-Based Courses

This page is only available to users who log on to TeacherPortal with a district- or campus-level security administrator user ID.

This page allows you to associate a course (and all of its sections) with a specific elementary standards-based report card. The settings for the report card determine how grading is handled for the course.

NOTE: If a section is added to a course after the course is selected for elementary standards-based grading, the new section will not have elementary standards-based grading associated with it.
