attendance_intro i

This page allows you to record and post attendance for each period. You can also view attendance data that has already been posted. You have seven days to post attendance.

NOTE: You can post the data only once for each period-course. If you discover an error after you have posted, you must contact the attendance clerk to correct the record.

Flexible attendance cannot be posted from TeacherPortal.

The screenshot shows the TeacherPortal interface for posting attendance. The sidebar on the left contains navigation links: Home, Attendance, Post/View Attendance, Attendance Rosters, Grades, Reports, Settings, and Admin. The main content area is titled 'Attendance' and shows filters for 'Due Date: 09/17/2020', 'Semester: 1', and 'Period: 01'. A 'Post' button is visible next to a PIN input field. Below the filters is a table of student attendance records.
